Re: Application for transfer of water right No. 45-2526 (part)

Gentlemen:

Enclosed is a copy of a protest filed against the granting of a transfer pursuant to your above referenced application. The Department suggests you contact the protestants directly to determine nature of the protests and to determine if it is possible attempt to resolve the protests without action by the department.

The attachment to this letter describes the issues which the department must consider in taking action on an application for permit. It also gives a brief description of the procedure followed in holding a pre-hearing conference.

Please be advised that no diversion of water is authorized from the well proposed as point of diversion for this water right and drilled under drilling permit 45-90-S-022 until a transfer is granted

If you have any questions regarding this matter, please feel free to contact this office.

Very Truly yours,
