Re: Application For Permit 15-7270

Dear Ms. Jenkins,

Thank-you for sending in your application for permit to appropriate ground water in the Malad basin. We look forward to serving you in your request in the best possible manner.

In processing your application, I discovered that the areas delineated upon the aerial photo comprised 18 acres rather than the proposed 23. Therefore, prior to advertising, I made corrections to the application that reflected the 18 acres of areas shown on the photo. This has caused some confusion with those that process your application and I find that I probably should not have made the changes without your consent. Therefore, here is how we can fix this.

You agree that the areas shown on the aerial photo are indeed the areas that you intend to irrigate from ground water. You initial the changes that were made on the copy of the application thus approving and agreeing with those changes. You return the initialed copy of the application to:

Kay Walker
Idaho Department of Water Resources
P.O Box 83720
Boise, ID 83720-0098

If you do not agree or have any questions, please call.

Sincerely,

A handwritten signature in black ink that reads "W. Roger Warner". The signature is written in a cursive style with a large initial 'W'.

W. Roger Warner
Water Right Supervisor – Eastern Region

Enclosure: Copy of Application For Permit 15-7270.
