ORDER ISSUING
PROPOSED MEMORANDUM
DECISION

R. Keith Higginson, Director of the Department of Water Resources, having reviewed the attached proposed decision prepared by this appointee, L. Glen Saxton, who conducted the hearing or who has read the record in this case, hereby approves the same as a proposed decision pursuant to Idaho Code, Sec. 67-5211.

Each party to these proceedings who appeared at the hearing is given the opportunity, pursuant to Idaho Code, Sec. 42-1701A and 67-5211, to file exceptions to the proposed decision and to present briefs and oral arguments. If no timely and proper exceptions are received, an order by the Director will be entered adopting the proposed decision as his final decision.

I.
EXCEPTIONS

A. To be considered by the Director, exceptions must:

1. be received by the Director on or before the 15th day following the day of service of this Order and the proposed decision,

2. specifically identify the portions of the proposed decision to which exceptions are made and specifically state the grounds for those exceptions, and

3. be sent to each of the parties who appeared or their attorneys.

II.
BRIEFS

A. Any briefs in support of exceptions to the proposed decision shall be filed with the Director at the same time that party's exceptions are filed with the Director.

B. All response briefs to the exceptions must be filed with the Director within 15 days after the exceptions were served upon the responding party.

MICROFILMED

JUN 24 1992

III.

A. No oral arguments before the Director on the proposed decision will be held unless specifically requested by a party filing exceptions to the proposed decision and unless that request is filed with the Director concurrently with the filing of that party's exception.

B. If oral arguments have been properly requested by a party filing exceptions, any other party, upon reasonable notice to the Director, shall have the right to present oral argument in response to the exceptions filed.

C. Oral arguments before the Director on exceptions to the proposed decision shall be heard at the discretion of the Director, pursuant to Idaho Code, Sec. 42-1701A. If oral arguments are to be heard, the Director will, within a reasonable time, notify each party of the place, date and hour the oral arguments will take place and of the period of time allocated for the arguments of this case. Unless the Director orders otherwise, all oral arguments shall be heard in Boise, Idaho.

IV.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and other matters filed with the Director in connection with the proposed decision shall be served on all other parties to these proceedings in accordance with Rule 7.2.

V.

FINAL DECISION

Following the submission of all exceptions, briefs and oral arguments, if they are heard, the Director shall issue a final decision adopting, modifying or rejecting and replacing the proposed decision. Copies of the decision and order shall be served on all parties.

PROPOSED MEMORANDUM DECISION AND ORDER

On January 29, 1991, Diamond Milliron Ranch submitted Application for Permit No.'s 33-07200 and 33-07201 to the Department of Water Resources (department). Each application proposed the diversion of 4 acre feet of water to be diverted from an unnamed stream tributary to the Little Lost River.

Notice of the applications was published in the Arco Advertiser in Butte County, Idaho, on February 21 and 28, 1991. A protest was received for both applications on March 11, 1991 from James G. Mays and Robert R. Mays. On February 25, 1991, George Woodie also submitted a protest.

On October 22, 1991, the department conducted a conference to discuss the issues of the protests.

The protestants fear that any loss in velocity within the Little Lost River system via on-stream ponds allows more water to percolate to the ground water system and be lost to down stream surface water right holders.

The protestants also object to work in the stream channel which might break an existing seal and thus allow water to percolate to the ground water system and not be available to down stream surface water users.

The applicants state that the ground water in this area is approximately 4 feet below the surface. They imply that this area of their ranch does not share the same porous nature of much of the Little Lost River system.

Both the applicants and protestants agreed to allow the

JUN 24 1992

department to issue a proposed decision based on the information presented at the conference.

FINDINGS OF FACT

1. Rocky Ross and Don Phillips (applicants) testified that the proposed ponds were meant to be non-consumptive, on-stream entities to be used as a recreational fishery.

2. Past work with heavy equipment within the stream channel in the Little Lost River drainage has shown that there is a porous stream channel that is sensitive to invasive construction procedures in the stream.

3. The applicants have consulted with Don Shenton, Water Master for Water District 31, to see if any projected loss could be established for the proposed ponds. Mr. Shenton's June 26, 1991 letter suggests that the only loss would be evaporation since the bed loss was insignificant.

4. Three USGS well logs of test wells in Sec.21, T7N, R28E, near the proposed ponds, show "cemented gravel" at levels from 5' to 20' below the surface. The comment on test well no. 3 in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ at the third test level says "Samples at 15 and 18 feet contain gravel as large as nut size, but look as if they would be impermeable prior to churning by drill".

CONCLUSIONS OF LAW

1. The use proposed by these applications is non-consumptive and will not reduce the quantity of water to existing rights.

2. Section 42-203A, Idaho Code states in part:

. . . the director of the Department of Water Resources may grant a permit upon conditions.

3. The department should approve the applications and issue permits.

ORDER

IT IS, THEREFORE, HEREBY ORDERED that Application for Permit NO.'s 33-08200 and 33-7201 are APPROVED subject to the following

PROPOSED MEMORANDUM DECISION AND ORDER -Page 2

conditions.

1. Use of water under the permits is subject to all prior rights.

2. No material shall be removed from the stream bank or stream bed in the construction of the recreation ponds.

3. The department retains jurisdiction over these permits. If there is a measured loss between inlet and outlet points on these ponds that exceed 5%, the permit holder or current owner shall take steps as determined by the department to reduce or mitigate the loss.

4. The Water Master of the Little Lost river drainage is authorized to regulate diversion and use of water under the permits.

5. Proof of construction of works and application of water to beneficial use shall be as provided in the Final Memorandum Decision and Order.

RE: PERMIT NO. 33-07201

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Karen L. Gustafson

Re: Permit No. 33-07201 and 33-07200

Dear Permit Holder:

Returned are the proofs of beneficial use submitted in connection with the above referenced permit. Unfortunately, they are unacceptable as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater (well) source.
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

As you can see, you do not meet requirement #1 since you use an unnamed stream for your source. Therefore, a license examination fee of \$50 applies to each of your permits. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

In order to be in compliance with all of the required dates, you must return the original proof and fee on or before July 1, 1994.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson

Dear Mr. Ross:

Enclosed are copies of your approved applications for permit. At the time the Proposed Memorandum and Decision Order was adopted approving your applications, you should have been sent copies of the actual permits in conjunction with the Order adopting the decision.

I do apologize for this oversight. This type of situation can happen when applications deviate from the usual processing procedures.

Thank you for your patience in this matter.

IN THE MATTER OF APPLICATION FOR	)	
PERMITS NOS. 33-07199, 33-07200,	)	NOTICE OF
AND 33-07201 IN THE NAME OF	)	COMBINED CONFERENCE
DIAMOND MILLIRON RANCH	)	

On January 29, 1991, Rocky Ross, Diamond Milliron Ranch, filed with the Department of Water Resources three applications to appropriate the public waters of the State of Idaho. On February 25, 1991, the Department received a protest against approval of said applications from George Woodie, Woodie Land & Livestock. On March 11, 1991, additional protests were received from James G. Mays, and Randall C. Budge, Attorney at Law, in behalf of Robert R. Mays. The Department has set the matter of protests for an administrative conference to be conducted at 9:30 a.m. on Tuesday, October 22, 1991, in the Commissioner's Room, Butte County Courthouse, Arco, Idaho.

Agenda items for this conference will include:

1. Identify spokesman and/or counsel representing the protestant.
2. Review of the application.
3. Identify issues of protest.
4. Designate date for identifying witnesses.
5. Designate target date for conducting administrative hearing if resolution is not possible during the conference.

MICROFILMED
JUN 24 1992

The conference will be held in accordance with the provisions of the adopted Rules of Practice and Procedure of the Department of Water Resources.

Dated this 7th day of October, 1991.

Dear Mr. Ross:

Enclosed are copies of protests filed against the issuance of permits pursuant to applications Nos. 33-7199, 33-7100, and 33-7201. The Department suggests you contact the protestants directly in an effort to determine the nature of the protests and to attempt to resolve the protests.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances, our objective is to schedule a conference and/or hearing in the near future to consider the protests. At a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Sec. 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. That it is contrary to conservation of water resources within the State of Idaho.

SUBJECT: Notice of Proposed Change of Water Rights Nos: 33-07199,
33-07200, and 33-07201 of the Diamond Milliron Ranch.

As these streams are tributaries to the Little Lost River, we, Mays Land & Livestock, Inc. will have to protest the granting of such rights until it can be proven that obstructing these streams will not affect the existing water rights. It appears to us that any impounding of water may cause some seepage into ground water causing a loss to the surface flow.

Please advise of any further action that we may need to perform to properly protest this action.

PROTEST OF ROBERT R. MAYS

COMES NOW the Protestant, Robert R. Mays, an individual residing in Howe, Idaho, and protests the above-named application as follows:

1. That the Protestant is the owner of priority water rights evidenced by the records of State of Idaho, Department of Water Resources, pertaining to water diverted from sources tributary to the Little Lost River.

2. That the above named Applicant filed on January 29, 1991, Applications Nos. 33-07199, 33-07200 and 33-07201 to change the Applicants water rights pertaining to water diverted from sources tributary to the Little Lost River.

3. That notice of set Applications were published on February 24, 1991 and February 28, 1991 in the Arco Advertiser.

4. That the Applicants proposed water right changes should be denied for the following reasons:

✓ A. Such changes will reduce the quantity of water under

existing water rights.

X B. The water supply itself is insufficient for the purpose for which it is sought to be appropriated.

X C. Such application is not made in good faith, and is made for delay or speculative purposes.

X D. The Applicant has not the sufficient financial resources with which to complete the work involved therein.

✓ E. Such change will conflict with the local public interest, i.e., the affairs of the people in the area directly affected by the proposed use.

X F. Such change is contrary to the conservation of water resources within the State of Idaho.

✓ G. Other water rights including the Protestant's will be injured thereby.

X H. The proposed changes constitute enlargements in use of the original rights.

X I. The Applicant has lost or forfeited its water rights through failure to apply it to the beneficial use for which it was appropriated for the term of five years.

WHEREFORE, Protestant requests that the Applicant's proposed changes of water rights be denied in full for the reasons set forth above.
