BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 33-07193 IN THE)
NAME OF MARGARET J. WAYMIRE) ORDER OF REINSTATEMENT
_____)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before April 1, 1991; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department notified the permit holder that the permit lapsed for failure of the permit holder to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on May 14, 1991;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 33-07193 be REINSTATED and the priority advanced to January 18, 1983.

Dated this 17th day of May , 1991.

1. Dynamic Pumping level is 26 feet.

2. The well discharges to an open ditch. The ground below the ditch is flood irrigated while the ground above the ditch is watered by a relift pump and sprinkler systems

Have conditions of permit approval been met? ☐ yes ☐ no

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method:

Theoretical where $Q = \frac{(8.81)(.7)(Hp)}{H + 2.31(P)} = \frac{(6.17)(25)}{26 + 2.31(0)} = 5.93 \text{ cfs}$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 219 \times 3.5 = 766.50 \text{ A/A}$

$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (219)(214)(1.9835) = 859.17 \text{ A/A}$

$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 766.50$

2. Volume Calculations for Other Uses: IR = 3.5

season 4-15 to 10-15
214

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	April 15	Oct 15	4.50	766.50
Totals:				

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 33-07193

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 33-07193

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 12-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

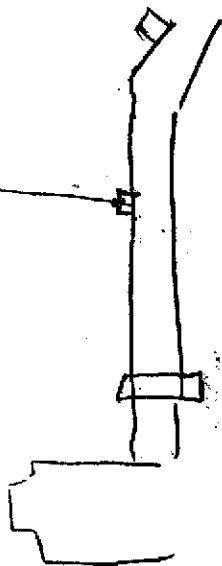

Rita Fleck

LAPSE NOTICE

RE: PERMIT NO. 33-07193

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated January 31, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 33-07193

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P33-07193

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

MICROFILMED

MAR 22 1990

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

RE: WAIVER OF RULE 4,5. ADDITIONAL INFORMATION REQUIREMENT

DATE: 22-FEB-1990

=====

This application was filed prior to July 1, 1985, and represents development that occurred prior to 1984. The location of the point of diversion falls within the trustwater area. Normally, additional information would be required under Rule 4,5. of the Water Appropriation Rules and Regulations. Possible issues that the additional information should address have probably already been raised during development and operation. The Rule 4,5. informational requirement should be waived.

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

DATE: 11-27-89

=====

This application was among those applications reviewed in the regional offices last year and recommended for out of sequence processing. This application includes a statement and sufficient supporting evidence concerning development of the project prior to October 1, 1984.

The department's Policy and Implementation Plan for Processing Water Rights in the Swan Falls Area provides for applications to be processed out of sequence if the development was completed prior to October 1, 1984 and the application filed prior to July 1, 1985. These filings are not required to be processed in sequence with other trust water filings because the effect of these filings have already occurred and because, due to subordination, the filings are not taking water held in trust. These filings are not subject to the staged development policy and public interest criteria of Section 42-203C, Idaho Code.

RE: Application for Permit No. 32-7130 WAYMIRE

Mr. Lewis Rothwell
Rt. 1, Box 405
Arco, Idaho 83213

Dear Mr. Rothwell:

During an additional review of your late protest against approval of the above referenced application, (in which we indicated you could submit a petition to intervene) we find in your letter you indicate the Big Lost River Basin and water within the basin. The above referenced application for Margaret Waymire is situated in the Little Lost River Basin, in which the waters are not tributary to the Big Lost River. It is the intent of the Department to recognize all valid protests; however, we question if you meant to submit a protest on an application within the Little Lost River basin. If it was not your intention to protest the Waymire application, please complete the enclosed form withdrawing your original protest and thereby cancelling any intent to intervene. If your intent was to protest the application in the Little Lost basin, please submit your petition to intervene in this matter. You should be aware withdrawing your protest on this application will not affect your position to intervene on applications 34-07441 Quist, 34-07481 Aikele, and 34-07486 Perkes.

If I may be of further assistance in this matter, please feel free to contact me.

Very truly yours,

HAROLD W. JONES

Dear Sir:

In reference to the Waymire application # 32-07130 for water I have no major concern with the water in Little Lost River drainage. My major concern is the possibility of the water table level in the Big Lost River drainage being lowered. The Waymire application apparently does not affect Big Lost River Drainage, so please disregard my protest of their application.

Sincerely

Charles Climer

Dear Sir:

I am protesting against any one filling on any ground water and or waste water or irrigation wells. Under Code 42203C.

The Big Lost River Dist. does not have enough water to supply the people in the district with valid water rights.

Our domestic wells are going dry. It is my belief that domestic wells should come first.

I am against anyone filling on ground water, waste water or the drilling of any more irrigation wells.

Sincerely yours

Virgil D Hail

Dear Applicant:

Enclosed are copies of protests filed against the issuance of a permit pursuant to your application No. 32-7130. The Department suggests you contact the protestants directly in an effort to determine the nature of the protests and to attempt to resolve the protests.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances requiring additional time, our objective is to schedule a conference and/or hearing to consider the protests within 60 days. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Sec. 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

The applicant must be prepared to present evidence and/or testimony addressing each of the five items. Although representation by legal

Gentlemen

I protest Big Lost River
Irrigation District water
going out of the District

We do not have enough water
now - In 1988 several
ranchers in the District had
to deepen existing water wells
and drill new wells at
considerable cost to them -

I was without water in Sept 1988
for two weeks and had to drill
a new well -

Sec. 42-203C

We wish to protest these
applications for further
water rights concerning the
Big Lost River Irrigation
District.

As, we hope you realize
that there has been and are
continuing to be wells being drilled.
Over fifty domestic wells have
been drilled here in the
Big Lost River valley at a
terrible expense to residents
of the valley.

Along with this all of
the farmers in the district
were short of water or unable
to get their quota because
the canals were full running
water out of the district
to water the 6000+ acres
that have been opened up
there in the last few years.

The farms on the desert with their
extensive wheel lines and ~~new~~ pivot irrigation
systems continued to carry on in full
operation through harvest.

Also I understand that the water
subscribed has been greatly over extended
according to the true allowed amount
allowed.

MICROFILMED

MAR 22 1989

The Sinks referred to as Wastewater Tributaries
are not wastewaters. The places above the
Sinks did not have to ~~deepen~~ their domestic
wells. But most of the homes below the
Sinks were forced to drill deeper wells to
get water for their homes and livestock.

We observed that homes that were
near, and most of them are, these big
deep wells pumping day and night all

Application for Permit No. 32-07130

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 32-07130. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Arco Advertiser. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

RE: APPLICATION FOR PERMIT NO. 32-7130

Dear Applicant:

The department is now beginning the processing of applications which have been held as a result of the Swan Falls controversy. In connection with this processing, the department requests the information described below.

From the department's review of the above referenced water right application, it appears the application is only subject to the usual water right processing described in Section 42-203A, Idaho Code, and is not subject to the public interest criteria processing required of some applications in the Swan Falls settlement.

The department asks that you advise us within 15 days of this letter if you no longer have a continued interest in developing a water right as proposed by the application. If you do not respond in this time period, the department will proceed with the usual processing of the application including advertisement.

Please feel free to contact the department if you have questions.

Sincerely,

Ronald D. Carlson
Eastern Regional Manager

FORM B

Department of Water Resources

Please answer all questions fully if you believe that actual use or a substantial investment existed as of November 19, 1982, (\$15,000 or 25% of the estimated cost of the project):

SEE ACCOMPANYING LETTER!

Permit or Application Number: A-32-7130

Name(s) of Permit Holder: Margaret L. Waymire

Post Office Address: Howe, ID 83244

Telephone No. 767-3486

Indicate the date water was first diverted and beneficially used under this permit: July-August 1969

See enclosures.

1. As of November 19, 1982, had the sum of at least \$15,000 been spent on the purchase or construction of wells or on equipment primarily used for irrigation purposes to be used to develop the above listed application or permit?

YES ✓ NO

If the answer is "yes", attach copies of cancelled checks or receipts showing the expenditure.

See enclosures.

2. As of November 19, 1982, did there exist actual expenditures or written commitments for expenditures totaling at least \$15,000 for the purchase or construction of wells or of equipment primarily used for irrigation purposes to be used to develop the above listed application or permit?

YES NO

See enclosures.
If the answer is "yes", attach copies of cancelled checks or receipts showing the expenditure, or of written commitments for such purchase or construction.

3. Describe the irrigation project contemplated. For example, number of acres, number of wells or headgates, type of application system (gravity, handlines, center pivots, length and size of canals, laterals, mainlines, etc.), number and size of pumps.

MICROFILMED

MAR 22 1990

Gravity irrigation with ditches for
watering. Water pumped by 25 HP electric
motor.

4. Describe how much of the project was completed
on or before November 19, 1982.

All.

5. What is the total estimated cost of the
irrigation project necessary to use water under the above
permit or application? (In figuring project cost, do not
include cost of land or engineering and feasibility studies).

See enclosures.

6. Did the total of the actual expenditures and
written commitments exceed 25% of the total projected cost as
of November 19, 1982?

See enclosures.

YES _____
