Gentlemen:

One of the conditions of approval of your water Permit No. 33-7048, 33-7049 33-7050 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Gentlemen:

The Bureau of Land Management has not been able to complete the application of the water to beneficial use on all three of these permits. The reason for the delay was the inability to process the required contract for labor for the pipeline installations during last years field season. Also, special use permits from the U.S. Forest Service for the Cedar Run Ditch P.L. and the Blind Springs Devlp. P.L. have only recently been approved (these were delayed due to the Forest Service RARE II program).

Therefore, we hereby request a one year extension to complete these projects.

Thank you for your consideration.

U.S. Bureau of Land Management
960 Lincoln Rd.
Idaho Falls, Idaho 83401

Gentlemen:

One of the conditions of approval of your water Permit No. 33-7048, 33-7049, 33-7050 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
