WATER RIGHT LICENSE

License of Water Right No. 33-7010 Priority March 19, 1971 Amount 1.6 cfs

THIS IS TO CERTIFY, that William B. Robison
of Howe, Idaho, has complied with the terms and conditions of Permit
No. 33-7010 issued pursuant to Application for Permit dated March 19, 1971,
and has submitted proof to the Department of Water Resources on August 3, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 2.0 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>October 15</u>	at <u>1.6</u> cfs and	<u>240.0</u> acre feet
	from _____ to _____	_____ cfs and	_____
	from _____ to _____	_____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 1.6 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
240.0 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 21, Twp.
7N, Rge. 28E in the County of Butte

Description and location of place of use:

W/o Amendment

Amendment was necessary to identify the 20 acres in the NESW. Therefore, to license without amendment the total acres are reduced to 80.

$$Q = 80 \times .02 = 1.6 \text{ J/s}$$

$$V = 1.6 \times 1.9835 \times 184 = 583.9$$

$$80 \times 3.0 = \underline{\underline{240}} \checkmark$$

RE: Permit No. 33-7010

William B. Robison
Howe,
Idaho 83244

Dear Mr. Robison:

On August 25, 1982, we forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received this amendment.

If we do not receive the amendment within fifteen (15) days, we will issue a Water Right License which reduces the amount that could have been allowable to you.

Since the license will be a permanent water right your prompt attention to this matter will be appreciated.

If you have any questions please contact us as soon as possible.

Sincerely,

JIM JOHNSON

Dear Mr. Robi~~X~~son:

A representative of this Department made an examination of the works covered by your Permit No. 33-7010 and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 2.0 cfs Source: a groundwater source

The maximum quantity diverted shall not exceed 300.0 acre feet
per year.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 21, Twp. 7N, Rge. 28E, Butte County

Beneficial use: Irrigation of 100 acres within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$,
Section 21, Twp. 7N, Rge. 28E

Priority date established: March 19, 1971

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Dear Sir,

I am writing in response

After going over my water

your field examiner was
correct in allowing approx-

Securing a water license

Dear Mr. Robison:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Idaho Falls.

Dear Mr. Robison:

One of the conditions of approval of your water Permit No. 33-7010 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before AUGUST 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Robison:

Enclosed is a copy of your approved Application for Permit No. 33-7010. Please notice the conditions of approval listed on page four requiring the installation of a measuring device at your point of diversion. We are enclosing a letter describing the different types of measuring devices accepted by this office.

This permit entitles you to appropriate and beneficially use ground water only. If you propose to exchange water rights, you must apply for authorization to the Department. Applications for Permit must be made for any new diversion from surface water such as Spring Creek.

The supplemental information that you proposed to include as part of your application should be submitted to the Department as soon as possible. If you have any questions concerning this matter, please contact us.

SUBJECT: Permit #33-7010

DATE: July 23, 1971

Bob Hamilton and I contacted William B. Robison of Howe, Idaho, concerning this permit. The well in question was drilled approximately forty years ago in the middle of a pit into which groundwater accumulates. Therefore, both well and pit contain groundwater. So I had Mr. Robison scratch out percolating water from the copy of the permit, and he initialed the change. The well probably does not meet minimum well construction standards, but we encouraged him to modify the well while mounting the pump, so that it would. He now intends to pump from the well, not the pit.

Because Mr. Robison is uncertain of the quantity of water that can be obtained from the well, he will not propose any exchanges at this time. If in the future he finds that the quantity of water is sufficient, he will propose exchanges and file the necessary application, which may include amending this permit.

I am enclosing a copy of the permit which he initialed.

Gentlemen:

Enclosed you will find executed in duplicate, an application for permit, together with a check drawn payable to your office for the fees incident to the filing of this application.

It would be noted that maps of the method of irrigation have not been furnished. Mr. Robison anticipates that he will have spent four - five thousand dollars in the purchase of the portable pump to determine the amount of water that can be developed and surveying to determine the feasibility of sprinkling or flood irrigating, but he is hesitant to make these expenditures without having a water filing on the water first.

If such an arrangement cannot be made, we would appreciate your advice and we will supplement this application as you may require.

Very truly yours,

LEE & RIRIE

A field examination is being conducted at the Idaho Falls office to determine the following points:

1. Purpose of examination is to verify the source of water supply. The source should be ground water, possibly the applicant feels there are two separate sources. Percolating surface water as well as ground water appropriation.
2. This application as submitted constitutes only a ground water appropriation and provides for no exchange. If you intend to make an exchange, the application will have to be re-filed, depending on the nature of the exchange or separate authorization obtained for the exchange.
3. The application lists an existing well three to four hundred feet deep. It is being determined if the well meets minimum well construction standards.

Note: Application was submitted by Attorney at Law, T. Harold Lee, Rigby, Idaho, 745-6653.
