of MARY K. SOWARDS	)	

WHEREAS, on October 10, 1972, the Department of Water Resources (formerly the Department of Water Administration) issued the above numbered license to Mary K. Sowards for 2.90 cubic feet of water per second from a well in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 7, Twp. 6 N, Rge. 29 E, B.M., Butte County, for the irrigation of 313 acres of land in the W $\frac{1}{2}$ of Sec. 7, Twp. 6 N, Rge. 29 E, B.M.; and

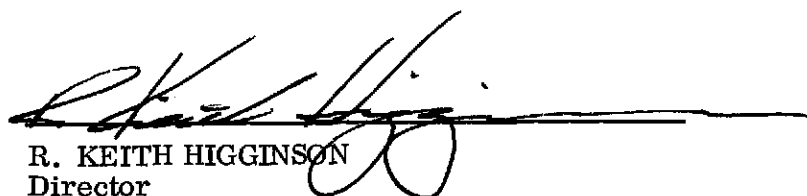

WHEREAS, it has been brought to the attention of the Director that the quantity of water allowed under the above numbered license is in error; and

WHEREAS, it appears that the Department may have been negligent at the time the field examination was conducted and the quantity of water produced by the well was measured; and

WHEREAS, after having reviewed the matter, the Director of the Department of Water Resources finds that the above numbered license should be corrected to show the true quantity of water;

IT IS, THEREFORE, HEREBY ORDERED that an amended license be issued under License No. 33-7005 allowing 5.12 cubic feet of water per second.

Dear Mrs. Sowards:

On May 27, 1968, the Idaho Falls District Manager issued an "Initial Decision" approving your desert land petition I-1932.

According to your plan of development, water for irrigation is to be obtained from a well to be drilled. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Engineer. Attached is an extra copy of this letter. The copy should be submitted to the State Department of Reclamation at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office.

We would appreciate receiving a copy of the permit as soon as possible. Also, please advise us when you apply for the permit.

Sincerely yours,

Orval G. Hadley
Manager, Land Office

I talked with Mr. Dwaine Nef today and he said cannot produce the original license as requested in your letter of Feb. 4, 1975, to Mary K. Sowards. He said he believed that the license is in the possession of the insurance company, which holds the mortgage on the property. He wants to know if it will be necessary to get the original license from them in order to have it amended?

The license was issued to Mary K. Sowards last October 11 and a copy was sent to Mr. Nef. Mr. Nef also was present during the field exam so cannot understand why he is protesting the quantity now.

However, the license can be and should be re-issued, if an error was made on the measurement. Any examiner should make certain that the pumping system has not been changed or improved since the last exam.

You are in a better position to determine if a new examination on the quantity is warranted.

RE: License No. 33-7005
DATE: July 16, 1973

Dwaine Nef of Howe was in to protest the measurement that was made to license Permit No. 33-7005, originally in the name of Mary K. Sowards. John Ferebauer measured the well for discharge last year and the license was issued for 2.90 c.f.s. to Sowards. Sowards was a long time forwarding this license to Dwaine Nef, and Nef was not aware of the amount the well was licensed for until he finally received a license from Sowards.

Nef stated that he had installed two Badger Propeller type meters on each of the two wells he acquired from Sowards. He says the discharge from the well that was licensed for 2.90 c.f.s., measures 1,800 gallons per minute on the meter or 4.01 c.f.s. This is comparable to the discharge measurement on the other well, and he feels he is entitled to the production of the well.

I did not commit the Department to a re-measurement when I was talking to him. We would like to have your recommendation as to how to handle this matter.

that
Mr. Dwaine Nef visited this office today to protest/the issuance of License No. 33-2124 and 33-7005 in the name of Norman K. and Mary K. Sowards was incorrect. He claims that both of these had been assigned to him. He had called this office and indicated that when he received the 10-day notice letter prior to licensing that he was going to protest that the 2.9 c.f.s. quantity measured for the one well was too low. By our issuing "incorrectly" (according to him) the license to Sowards he was not given the chance.

Dear Mrs. Sowards:

A representative of this Department has made an examination of the works covered by your Permit No. 33-7005 and has found the following:

Quantity of water diverted: 2.90 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 2.90 cfs

The maximum quantity diverted shall not exceed 939 acre feet per season.

Beneficial use: Irrigation of 313 acres within the W $\frac{1}{2}$ of Sec. 7,
Twp. 6N, Rge. 29E, B. M.

Point of diversion: NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 7, Twp. 6N, Rge. 29E, B. M.

The priority date established is: August 15, 1968

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Dear Mr. & Mrs. Sowards:

We acknowledge receipt of the affidavits submitted as proof of beneficial use for the above referenced permits.

The legal notice for permit G-32833/33-2124 is to be published in the Arco Advertiser at Arco, Idaho, on April 15th and April 22nd, 1971. You will be required to submit an affidavit of publication to this Department; the affidavit may be obtained from the newspaper upon payment of the bill for publication.

Before licenses can be issued, a field examination must be made by a representative from this Department. We cannot tell just when these examinations will be made, but our examiner will try to contact you at the time he makes the examinations so that you may show him the systems.

Very truly yours,

Donald W. McEldowney

Dear Mr. & Mrs. Sowards:

We are in receipt of your letter of August 17, 1970. We are herewith enclosing two Proof of Application of Water to Beneficial Use affidavits for your use in submitting proof of beneficial use for the above referenced permits.

Upon receipt of the proof of beneficial use affidavits, the Department will schedule field examinations to be made in connection with your permits. The examinations will be made during an irrigating season, and then licenses will be issued.

It is required that the Department publish a notice of existence of your permit G-32833/33-2124 in the Arco Advertiser at Arco, Idaho. If you will return the authorization to publish this notice which was forwarded to you on July 31, 1970, the Department will cause this notice to be published. You will be required to pay for the cost of this publication and to submit an affidavit of publication to the Department.

If you have further questions regarding your permits, please feel free to contact us at any time.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
