Dear Sir:

In reference to your request for information on the Bill Stauffer pump in Howe, Idaho, please be advised that this pump was sold by our company as a used pump and we do not have any curves or information on the pump other than it is our understanding that the bowls were designed to pump 900 GPM against a 400' TDH, with 100 BHP at 1800 RPM. The pump was manufactured by the Wintroath Pump Company which is now a defunked company.

Dear Mr. Higginson:

Re: William Stauffer
Permit No. G-39086

Upon doing notary work for Mr. Stauffer it was discovered that a 40 acres was left off of the advertising. This was because of the error that Mr. Stauffer made on his amendment. It should have read W $\frac{1}{2}$ N $\frac{1}{2}$ E $\frac{1}{4}$ Sec. 19 T. 6 N. R. 30 E instead of NW $\frac{1}{4}$ NE $\frac{1}{4}$. The deposition of holder and witnesses have been made with the correct description, but the advertised public notice leaves it off. At any rate we are sending this in to you knowing that you will know what to do. The forty left off was of course included in the original permit.

The following papers are enclosed:

1. Deposition of Holder
2. Deposition of witness Alan J. Amy
3. Deposition of witness Donald M. Isham

Department of Reclamation

Dear Sirs:

Thank you for your letter informing me of final proof on my water permit there have been a few changes, and I have corrected them on the form. The changes are:

- ① Amount of water — 3.2 C.F.S.
- ② place where water is used — just 320 acres — (approximately.) $E\frac{1}{2}NE\frac{1}{4}$, Sec. 24, T. 6 N. R. 29 E. and $NW\frac{1}{4}$, S. 19, T. 6 N., R. 30 E. and $NW\frac{1}{4}NE\frac{1}{4}$, S. 19, T. 6 N., R. 30 E.

Would you inform me if there is something I need to do anything about the permit since I have made these changes with the well. If you can make these changes I would appreciate it. please inform me of any things I need to do to get the license.

William Stauffer, Jr.
Howe, Idaho

Dear Mr. Stauffer:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than March 1, 1968.

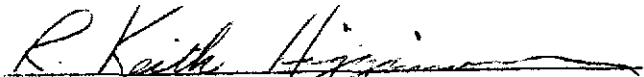

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

POINT OF DIVERSION

Permit No. G-30986

Comes now William C. Stauffer, Jr. and represent to the State Reclamation Engineer of the State of Idaho:

That he is ~~(was)~~ the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-30986.

That the point of diversion is described in said Permit as being located:

NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 19, T6N-R30E, B.M.

That he now requests that the point of diversion be changed to a point located: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 24, T6N-R29E, B.M.

That the reason for desiring to make such change is as follows:

After discussing this with a well driller it was decided that this would be a better location for a well and all of the lands in my desert entry can be efficiently irrigated from a well in this location.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Re: Permit No. G-30986

Mr. William Stauffer, Jr.,
Hewes, Idaho.

Dear Mr. Stauffer:

We enclose Permit No. G-30986 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~Enclosed~~ Departmental Receipt No. G-7727 which was issued covering payment in the amount of \$_____, which includes \$_____ for the filing fee and \$_____ for the copies sent to the Bureau of Land Management, **was given to you while in our office.**

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
