Dear Mr. Mays:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29886 shows the well(s) is ~~(are)~~ capable of conveying 176 miner's inches, or 3.52 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 15.00, we will issue the Certificate of Completion of Works for 3.52 c.f.s. and the License and Certificate of Water Right for 3.52 c.f.s. confirming the right, with priority of June 28, 1961, to the use of subterranean water with the point of diversion in SE1/4SE1/4, Sec. 11, T. 6 N, R. 28 E, B.M. for irrigation of 176 acres in N1/2SW1/4, N1/2SE1/4, Sec. 15; NW1/4SW1/4, Sec. 14, T. 5 N, R. 29 E, B.M.

Dear Mr. Mays:

In answer to your inquiry of January 27, 1967, when more than one permit is issued on the same well and no other provision is made, the total production of the well is apportioned equally to all the land. If you would prefer to have 172 inches licensed under G-29886, then G-30226 could be licensed for 218.5 inches.

Please advise as to how you want the water divided between the two permits and the licenses can be made out accordingly, up to an inch per acre.

The fees are the same regardless of how the water is to be distributed.

Dear Mr. Mays:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29886 shows the well(%) is ~~(was)~~ capable of conveying 63.5 miner's inches, or 1.27 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 15.00 , we will issue the Certificate of Completion of Works for 1.27 c.f.s. and the License and Certificate of Water Right for 1.27 c.f.s. confirming the right, with priority of June 28, 1961 to the use of subterranean water with the point of diversion in SE1/4SE1/4, Sec. 11, T. 6 N, R. 28 E, B.M., for irrigation of 172 acres in NW1/4SW1/4, Sec. 14; N1/2 SW1/4, N1/2SE1/4, Sec. 15, T. 5 N, R. 29 E, B.M.

Certificate of Completion of Works

TO ALL WHOM IT MAY CONCERN:

This is to certify that EMLEN G. MAYS
 of Howe, County of Butte, and State of
Idaho, the holder of Permit No. G-29886, issued upon
 Application No. G-37899, bearing date of priority of June 28, 1961, authorizing the
 diversion of 4.0 second feet of waters of a well

County of Butte, State of Idaho, for irrigation
 purposes, has fully complied with the provisions of the laws of the State of Idaho
 relating to the proof of completion of the works of diversion set out and described in said
 Permit; that said works are adequate for diverting and conveying to the place of intended
 use 3.52 second feet of the waters of a well from
subterranean flow;

that the point of diversion of said waters SE $\frac{1}{4}$ Sec. 11, T. 6 N., R.
28 E., B.M.

and that the lands proposed to be irrigated by the use or place of use of said water are
 described as follows, to-wit: NW $\frac{1}{4}$ Sec. 14; N $\frac{1}{2}$ Sec. 15, T. 5 N.,
R. 29 E., B.M. The amount of water discharged into Little
Lost River shall be subject to, and charged, a carrying loss to the
point of diversion therefrom, as determined by the State Watermaster.

Dear Sirs,

I ~~am~~ have received your letter of January 24
Concerning Permit no G-29886.

I am prepared to permit the requested amount for issue of
Certificate of Completion of works. However, there seems
to be some error on your part or a misunderstanding
on mine concerning the amount of water allowed.

The 200 acres ~~and so~~ to which the water was to be
applied had no water right, so should qualify for
one inch per acre or at least 172 inches for the
acreage you claim it is irrigated. This would be 4 cu. ft
per sec for the 200 acres (all good farm land) or 3.44 cu. ft
per sec for 172 acres.

Then too this was the ^{early} priority filing on the same
well, ^{as} permit no G-29886.

Expecting to hear from you soon, I am

Sincerely yours,

Enclose your letter
in question.

Emlen G. Mays

The 172 inches would take care of the water I
would intend to pump from the well.

Dear Sir,

Reference is made to your letter of June 8, 1964
about permits No. G-29886 and Q-30226.

On account of a bitter water year, I have not used my
irrigation pump until recently. If you desired
to check it in operation it will likely be running
for the next two or three weeks, then may be off
again for a while.

Sincerely yours,

Dear Mr. Mays:

In reply to your letter of August 23, 1966 we advise that you delay any action on the matter until a field examiner from this office has a chance to visit the well with you in order to determine the correct location.

Our source of information as to the well location is the U.S. Geological Survey Number 12ccl, which indicates the well is in the SW/4SW/4, Sec. 12. These are usually quite accurate, but it is possible that an error exists in this case.

Very truly yours,

Dear Mr. Mays:

Our field engineer was out and finds that the point of diversion as listed on your permits and the advertisements is in error.

Prior to the issuance of the licenses we will require that these permits be readvertised at your expense. Enclosed are 2 copies of a correction publication to be published once a week for two consecutive weeks. Give one copy to the paper, insert the dates of first and last publication in one copy and return to us.

Upon completion of the advertisement we will be able to issue the certificates of water right as soon as the affidavit of publication is received.

Dear Mr. Mays:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-29886. The proofs are to be made at 10:00 o'clock A.M., on the 4th day of June, 1964, before Fred H. Boyer, Arco, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Arco Advertiser Arco, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Dear Mr. Mays:

Enclosed is a certified copy of Permit No. G-29886 and a blank Form 3, Application for Permit, as requested in your letter of August 25th.

Our file shows no request for the certified copy.

You may file on the additional water. The amount claimed on your original application cannot be increased after approval.

Very truly yours,

GEO. W. CARTER

Dear Sirs,

Mr Fred Kiefer of Blackfoot, Ida. is supposed to have asked for a certified copy of my irrigation well permit no G. 29886. The Bureau of Land Management in Boise, say they did not receive it with an application for a right-of-way on public lands. If he did not ask for it, or it has not been sent, will you please send one to me so I can meet their requirements. I don't know the charges but am willing to accept them.

Sincerely yours,

Emlen G. Mays.

P.S. The well I applied for pumped more water than I applied for. I need it badly for supplemental irrigation and can get my needs without another well if you can send me the proper forms for increasing my permit on the well.

Sincerely yours,

Emlen G. Mays 29886

Dear Sirs,

Under date of June 24, 1961, I made application including maps and filing fee for an irrigation well to help supplement my diminishing surface flow and thus be able to raise crops in the summer from now on. To this date I have not heard from you concerning it.

A drill could have been available as of now, so I am wondering if you have received the application or not.

Sincerely yours,

Emlen G. Mays
