RE: Water Right Numbers 33-00088, 33-00089, and 33-02089

Dear Mr. Fox,

I spoke with Bill York on October 20th regarding the above named water rights. These rights were claimed in the name of the Farm Services Agency. Subsequently, the property to which these rights are appurtenant has been sold to Keith Waymire. Mr. Waymire has not filed a change of ownership despite repeated requests from IDWR staff. Mr. York requested that I send you the enclosed change of ownership form in the hopes that you could encourage Mr. Waymire to file a change of ownership.

The director's report for basin 33 will be issued shortly. Therefore, it is important that IDWR receive the change of ownership, along with proof of the sale as soon as possible.

If you have any questions, please call me at (208) 327-5404.

Dear Mr. Munson:

On November 17, 1971, we received a copy of your Water License No. 33-2089 (G-23690) from the State of Idaho, Department of Water Administration. We believe this to be in answer to our letters, to you, dated June 16, July 27, August 27, and October 12, 1971. However, the lands of your desert entry, I-121, are not included in your water license. You must furnish us evidence of a permanent and adequate supply of irrigation water that is attached to the land of your entry before we can process it further.

Our discussion with the State Department of Water Administration indicates you will have to file for a new water permit to divert water from either a ground or surface source to irrigate these 80 acres. It takes about six weeks to process an application for a water permit. Because of this, we will suspend further action on processing your desert entry final proof until March 24, 1972. If by then we have not received a copy of your water permit, we will have no choice but to issue a decision to cancel your desert entry.

Sincerely yours,

/s/ Richard H. Petrie

Dear Mr. Munson:

On December 5, 1968, we forwarded to you a letter requesting that you submit an amendment to your above numbered permit. This amendment was requested in order that we could license your permit for 193 acres. We are enclosing a copy of this letter. As of this date we have not received this amendment and our only alternative is to license your permit for only the acreage you are irrigating which is covered by your permit. Of the 193 acres you are irrigating only 117 are covered by your permit. Therefore, a water license can be issued for the diversion of 2.3 c.f.s. of water from a ground water source for the irrigation of 117 acres within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 4; SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 9, Twp. 9 N., Rge. 27 E., B.M. The maximum rate of volume of water shall not exceed 345 acre feet per season.

A fee totaling \$11 must be received within 30 days of the date of this letter in order that we can issue this water license; otherwise, your permit will be cancelled.

Re: Permit No. G-28690

Arnold K. and Lois A. Munson
Howe, Idaho

Dear Mr. and Mrs. Munson:

Please be advised that a representative of the Department has conducted a field examination of the works under Permit No. G-28690 and has found 3.8 cubic feet per second being beneficially used on 193 acres within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 4; NW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9, T. 9 N, R. 27 E, B.M.

Be aware that 76 acres located within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9, is not covered by the permit; therefore, we will require the enclosed amendment be completed and returned with the \$5.00 statutory fee. Upon approval of the application and receipt of \$15.00 licensing fee, the Department will license Permit G-28690.

The approximate 75 acres listed under desert entry 1-121 will have to be covered by a new application for permit. An application form and instructions are enclosed.

Your desert land application for the above described land has this day been approved and allowed, subject to any valid existing rights and your further compliance with laws and regulations applicable thereto. The acceptability of final proof is contingent upon development and reclamation of the land in accordance with your plan of development which is on file in the Boise Land Office. Any substantial change in source of water or deviation in the construction of the irrigating facilities must have the approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 75 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to right-of-way Idaho 02852 issued to Utah Power and Light Company for a powerline.

Re: Permit G-~~30000~~

Arnold K. Munson
Howe, Idaho 83244

Dear Mr. Munson:

We are returning your application for amendment and personal check in the amount of \$5.00. The information entered on your application for amendment requires some clarification.

Under Item 1, place of use or land to be irrigated, you have indicated that this is to be included with the lands already under the permit; therefore, you should be advised that if approved, an application for amendment that tends to expand a permit causes the priority of that permit to be reduced to the date of amendment. Apparently you wish to include 80 acres in the E $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 4, T. 9 N, R. 27 E, B.M. and SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7, T. 9 N, R. 27 E, B.M.

You have also entered what appears to be the NE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 9, T. not given, R. 27 E, B.M. These forties are already covered by the permit; therefore, it would be of no value to you to add these forties to your existing land list.

In part 2 of the amendment you have listed the same point of diversion as originally found in your permit; therefore, it would not be necessary to enter it on this form.

In item 3, period and nature of use, you have set a limitation to your irrigation season of April 1 to October 30, each year, which you are not required to do, but may if you wish. However, under item 4 of the application, you have qualified this period of use each year by saying "or such time as the irrigation seasons permits." We could not record your amendment with such a qualification. Therefore, we are requesting that you review your application for amendment and re-submit it with the \$5.00 fee.

Please contact us if we can be of further assistance.

Very truly yours,

Dear Mr. Munson:

On June 20, 1967, the Idaho Falls District Manager issued an "Initial Decision" approving your desert land petition I-121.

According to your plan of development, water for irrigation is to be obtained from a drilled well. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Engineer. Attached is an extra copy of this letter. The copy should be submitted to the State Department of Reclamation at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office. The permit must show that the lands to be irrigated are the lands included in your application.

We would appreciate receiving a copy of the permit within the next 30 days.

Sincerely yours,

/s/ EUGENE E. BABIN

Re: Permit No. G-28690

Arnold K. & Lois A. Munson,
Horse, Idaho.

Dear Mr. & Mrs. Munson:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-28690. The proofs are to be made at 11:00 o'clock A.M., on the 12th day of May, 1965, before Charles A. Jones, Arco, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Arco Advertiser Arco, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Dear Mr. Howe:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ARCO ADVERTISER, all submitted in proof of completion of works and beneficial use on Permit No. G-28690.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. **G-28690**

Arnold K. & Lois A. Munson,
Howe, Idaho.

Dear Mr. & Mrs. Munson:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. **G-28690**. The proofs are to be made at **11:00** o'clock **A.M.**, on the **12th** day of **May**, 19**65**, before **Charles A. Jones, Arco, Idaho**, Notary Public.

As of this date, we have mailed the Notice to the **Arco Advertiser** **Arco, Idaho**, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Re: Permit No. G- 28690

Arnold K. & Lois A. Munson
Howe, Idaho

Dear Mr. & Mrs. Munson:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28690 are due not later than **May 17, 1965**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

State Reclamation Engineer
