Dear Mr. Hammond:

Upon checking your Permit we find that the assignment from Dean E. and Geraldine Wheeler has never been recorded in this office. We had written to Mr. H. William Furchner for the 50¢ assignment fee, stating that the assignment could not be recorded until the fee was received.

We are sorry there has been this delay, but upon receipt of the 50¢, the assignment will be recorded and the Certificate of Completion of Works and License will be issued.

Dear Mr. Hammond:

We wish to bring to your attention the fact that on August 1, 1958 we sent to Mr. H. William Furchner, Attorney at Law, notice of fees due on Certificate of Completion of Works and License and Certificate of Water Right on the above mentioned permit. To date these fees have not been received in this office. Evidently Mr. Furchner is not taking care of the matter. Since your Completion of Works and Beneficial Use Proof has been made, we feel that you would like to have your Certificate of Completion of Works and License and Certificate of Water Right. These can be issued as soon as the statutory fees of \$13.00 are received in this office.

Dear Mr. Furchner:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under the terms of Permit No. G-23070 in the names of Ray L. Hammond and Dean E. Wheeler, shows the well is capable of conveying 130 miners' inches (2.6 c.f.s.) of water for irrigation of 130 acres.

Upon receipt of the statutory fees, totaling \$13.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (eight dollars—fee based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of September 15, 1952, to the use of 2.6 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 15, for irrigation of 130 acres in the SW $\frac{1}{4}$  of Section 15, Township 6 North, Range 29 East, B.M.

Assignment of this permit to Ray L. Hammond by Dean E. Wheeler and his wife Geraldine Wheeler was received September 27, 1957 and is on file, however, the assignment has never been recorded on permanent record of the permit. The statutory fee for recording an assignment is 50¢.

APPLICATION FOR AMENDMENT  
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS  
OF THE STATE OF IDAHO, NO. G-23070 Department of Reclamation

Comes now RAY L. HAMMOND and represents to the State Reclamation Engineer of the State of Idaho;

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-23070.

That the point of diversion is described in said permit as being located NE $\frac{1}{4}$ SW $\frac{1}{4}$  Sec. 15, Twp. 6 North, Rge. 29, E. B. M., in Idaho.

NE $\frac{1}{4}$ SW $\frac{1}{4}$

That he now requests that the point of diversion be changed to a point located NW $\frac{1}{4}$ SW $\frac{1}{4}$  Sec. 15, Twp. 6 North, Rge. 29, E.B.M., in Idaho.

That his reasons for desiring to make such change are as follows:  
Location of point of diversion was erroneously stated in the application for permit.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Moreland, Idaho, this 30 day of November, 19 57.

Dear Mr. Kulp:

We are forwarding herewith the proof of publication of notice and the depositions of the holder and witnesses on final proof of application of water to beneficial use for Permit No. G-23070, together with the executed assignment of such permit from Dean E. Wheeler and wife to the present holder, Ray L. Hammond.

I discovered upon taking these proofs that a mistake was made in the application and permit in location of the well from which the water is taken. The permit shows location in the Northeast quarter of the Southwest quarter of Section Fifteen, Township Six North, Range Twenty-nine, East of the Boise Meridian, whereas the well was actually located in the Northwest quarter of the Southwest quarter of said Section Fifteen as shown by the proofs.

Will you kindly forward to us your form for amending the permit which we will complete and return as soon as possible. With this correction I believe you will find everything to be in order for issuance of final license upon inspection of the premises.

## Proof of Application of Water to Beneficial Use

### and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Ray L. Hammond, Moreland, Idaho. I am a farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. --

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-23070, dated September 23, 1952, with priority of September 15, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well, located in NW $\frac{1}{4}$ SW $\frac{1}{4}$  of Sec. 15, Twp. 6 North, R. 29, E., B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. 16-inch well, about 120 feet deep, cased with 16-inch pipe about 110 feet. Equipped with 50 h.p. electric motor and turbine pump. Pump discharges 190 to 200 miner's inches of water, according to measurement by soil conservation office. Ditches run to the East and South from the well over the lands shown in the permit. Water stands at about 65 feet from surface.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is all used for irrigation, of the SW $\frac{1}{4}$  of Sec. 15, Twp. 6 N., R. 29, E.B.M., as follows: NW $\frac{1}{4}$ SW $\frac{1}{4}$ -30a; NE $\frac{1}{4}$ SW $\frac{1}{4}$ -35a; SW $\frac{1}{4}$ SW $\frac{1}{4}$ -40a; SE $\frac{1}{4}$ SW $\frac{1}{4}$ -40a. All is cultivated land. Land is all fenced.

J 23070

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. --

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Land requires one inch of water per acre for good irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. --

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I have used the water from this well for irrigation of the above lands for the past three crop seasons and have grown and harvested crops in those years.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

**Proof of Application of Water to Beneficial Use**

**Deposition of Witness and Completion of Works**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Dean E. Wheeler, age 36, residence and postoffice address, Rt. 2, Blackfoot, Idaho. I am a farmer.

Ques. 2. Are you acquainted with Ray L. Hammond, the holder of Permit No. G-23070? How long have you known him and where does he reside?

Ans. Yes. I have known him for about 20 years. He resides at Moreland (or Rt. 2) in Bingham County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-23070, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. 16-inch well, cased with 16-inch casing entire depth, about 110 feet deep. Equipped with 50 h.p. electric motor and turbine pump. Ditches run south and East from the well, which is near the West line of and in the NW 1/4 of Sec. 15, Twp. 6 N., R. 29, E.B.M., in Butte County, Idaho.  
NE SW

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate from observation and experience with irrigation water that the works produce and conduct about 160 miner's inches of water.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Same. Based on my estimate.

*N* 23070

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All used for irrigation, of SW $\frac{1}{4}$  of Sec. 15, Twp. 6 N., R. 29, E.B.M., as follows: NW $\frac{1}{4}$ SW $\frac{1}{4}$ -30a; NE $\frac{1}{4}$ SW $\frac{1}{4}$ -40a; SW $\frac{1}{4}$ SW $\frac{1}{4}$ -40a; SE $\frac{1}{4}$ SW $\frac{1}{4}$ -40a.  
~~All cultivated farm land.~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. --

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is a lava ash soil, and requires about an inch of water per acre for proper irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None. (I formerly owned an interest in the land, which I sold to Ray Hammond about two years ago.)

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the water used for irrigation of the above lands, and crops grown and harvested thereon, for each of the last three seasons, including the year 1957.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Approximately 190 inches of water.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Same amount. Based upon my observation and experience with irrigation waters.

*H* 23070

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is all used for irrigation of the lands in the SW $\frac{1}{4}$  of Sec. 15, Twp. 6 N., R. 29, E.B.M., as follows: NW $\frac{1}{4}$ SW $\frac{1}{4}$ -30a; NE $\frac{1}{4}$ SW $\frac{1}{4}$ -40a; SW $\frac{1}{4}$ SW $\frac{1}{4}$ -40a; SE $\frac{1}{4}$ SW $\frac{1}{4}$ -40a. The entire 160 acres is fenced. The land is a lava ash soil.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. --

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is good farm ground. It requires about one inch of water for proper irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the lands above described farmed and irrigated from the said well and crops produced thereon for the past three crop seasons.

RE: Permit No. G-23070  
Ray L. Hammond &  
Dean E. Wheeler

Mr. H. William Furchner, Attorney at Law  
Blackfoot, Idaho

Dear Mr. Furchner:

We wish to acknowledge receipt of the copy of notice of proof of completion of works and application of water to beneficial use, which was sent direct to the Arco Advertiser for publication.

We have checked over the publication notice and the same is found to be correct except for the fact that the permit states that the permit is in the name of Ray L. Hammond and Dean E. Wheeler. However, the omission of the name of Dean E. Wheeler may not be of too much importance.

We might add that it is the policy of this department that both copies of the notice of publication be sent to this department and the department in turn authorizes the newspaper to publish same.

Very truly yours,

Re: Permit No. G-23070 Ray L. Hammond

Dear Mr. Kulp:

We are enclosing herewith the notice for final proof on the above permit. We have mailed one notice to the Arco Advertiser for commencement of publication Friday, August 23rd, in order that the publication may be hurried by one week and have requested that a copy of the first publication be mailed to your office.

Mr. Dean E. Wheeler and wife have sold their interest in the property to Mr. Hammond and we have prepared and will secure from them an assignment of their interest in the above permit which will be filed prior to final proof.

Very truly yours,

NOTICE OF PROOF OF COMPLETION OF WORKS  
and  
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M., on the 16th day of September, 1957, at Blackfoot, County of Bingham<sup>2</sup>, State of Idaho, before H. William Furchner, Notary Public, proof will be submitted of the completion of works for the diversion of 3.2 ✓ cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No G-23070 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are RAY L. HAMMOND, Route 2, Blackfoot, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.2 cubic feet per second.

3. ✓ The use to which said water has been applied is irrigation and domestic purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. ✓ The point of diversion of said water is well located in NE $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 15, Twp. 6 North, Range 29 East Boise Meridian, in Butte County, Idaho.

RE: Permit Nos. G-22903 and G-23070

Mr. H. William Furchner, Attorney at Law  
Blackfoot  
Idaho

Dear Mr. Furchner:

In reply to your letter of July 10, 1957, in regard to the  
above captioned Permits.

To give you the desired information required, we are enclosing  
herewith a copy of Permit No. G-23070, which gives you the  
information you wish.

Will state that Permit No. G-22903 is for the amount of 1.6  
cubic feet per second to be used on the  $S\frac{1}{2}$   $SW\frac{1}{4}$  of Section 15,  
Township 6 North, Range 29 East, B. M. Permit No. G-23070  
is for the maximum amount of water allowed, 3.2 cubic feet  
per second, for the  $SW\frac{1}{4}$ , Section 15, Township 6 North, Range  
29 East, B. M.

Unless an early priority of two (2) months, which you would  
be given on Permit No. G-22903 was of any value to the appli-  
cant, we see no reason why you should prove up on Permit No.  
G-22903, as Permit No. G-23270 will give you the maximum of  
water that we could give you under both Permits.

Very truly yours,

MARK R. KULP

Dear Sir:

Mr. Ray L. Hammond has brought me the notices to  
commence final proof of application of water to beneficial  
use in connection with the above permit.

He states that there is another permit for the same  
lands which are above-described upon which he wishes to make  
proof at the same time since all of the water for both permits  
come from the same well located on the above-described tract.

Will you please inform me of the number of any  
additional permit for these lands, together with the amount of  
water appropriated under said permit in order that we may  
proceed to give notice for proof on both permits at the same  
time.

Dear Sirs:

We enclose herewith blank notice for proof of completion of works and application of water to beneficial use under your Permit No. G-23070. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than September 23, 1957.

RE: Permits Nos. G-22903, G-23070

Mr. Ray L. Hammond  
Route 2  
Blackfoot, Idaho

Dear Mr. Hammond:

Reference is made to your letter of April 17 enclosing notice addressed to Mr. W. H. Armstrong that proofs of completion of works and beneficial use are due on or before July 17, 1954 on Permit No. G-22903.

We note your statement that you have purchased this property from Mr. Armstrong and your inquiry as to whether or not you should proceed to make proof on this permit or your permit No. G-23070 in the name of yourself and Dean E. Wheeler.

The records in this department show that the priority date or date of filing on Permit No. G-22903 as July 10, 1952; while the priority date on Permit No. G-23070 is September 15, 1952.

Since priority in that area is rather important, our suggestion would be that you obtain an assignment from Mr. Armstrong on Permit No. G-22903 on the form enclosed and then proceed to make proof of completion of works and beneficial use on that permit, which will give you the earlier priority date.

Later on you can make proofs on Permit No. G-23070 for the additional 80 inches of water with the later priority.

The assignment is to be made on the form enclosed, executed by Mr. Armstrong and wife before a Notary Public and returned to this department with a fifty cent recording fee.

In regard to patents on your land, this department has no information but suggest that you contact the Bureau of Land Management, Federal Building, Boise, Idaho.
