Dear Mr. Romrell:

Pursuant to your letter of March 2, 1971; we have researched our files and find Willard Bell has apparently filed on two wells on the lands that you have purchased from him. We are enclosing copies of these permits for your reference.

We wish to call your attention to the fact that evidence of beneficial use should have been submitted on or before February 8, 1954 for permit No. 33-2063, and June 10, 1955 for permit No. 33-2060. If beneficial use is submitted at this time, the priority of the two above referenced permits will be reduced the number of years beneficial use was late. If you wish to attempt to preserve the original priority of these two permits, you may do so by filing claims in connection with the permits. We are enclosing these claims for your consideration.

We also wish to advise you that our records indicate the two permits are still in the name of Willard Bell. Before you could complete these permits, Mr. Bell would have to assign his interests in the permits to you. We are also enclosing these forms for your consideration.

If you should have any further questions, please advise.

Yours very truly,
