PAUL E. HARRELL

We are listing three permits which seem to have been supplying water through interconnection to the SE $\frac{1}{4}$, Section 20 and E $\frac{1}{2}$ SW $\frac{1}{4}$, in addition to the NW $\frac{1}{4}$, Section 28. The final report from our field examiner in 1962 will clarify the distribution from each permit.

Priority date November 8, 1948; Examined May 20, 1952 (by E. N. Humphrey) Records (letter 6-29-60) show that this well caved in and permission to drill another well within the same 40 acres as the caved well would not affect priority. No further information in pocket.

Paul E. Harrell - (John Logan, predecessor) Application 33953; Permit No. G-26066 - Filed November 14, 1955 for 3.1 c.f.s. from well in SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 20, T. 6 N., R. 29 E., completion of works and beneficial use proofs made November 15, 1960. Examination pending in 1962. Examiner attempted inspection but power was off (August, 1961) Land list - NW $\frac{1}{4}$, Sec. 28, T. 6 N., R. 29 E.

Paul E. & Agnes Harrell - Application 37608; Permit No. G-29604; Filed April 3, 1961 for 2.0 c.f.s. from a well in NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 20, T. 6 N., R. 29 E. Proofs due April 6, 1966. Land list - NW $\frac{1}{4}$, Sec. 28, T. 6 N., R. 29 E., B. M.

RE: Permit No. 20917

Mr. Philip S. York
69 Rosewood
Pocatello, Idaho

Dear Mr. York:

State law requires an inspection on any permit being brought to license in the State of Idaho.

I intend to make inspection in connection with your permit no. 20917 the first thing in the morning on Tuesday, August 8. I will stop at the motel in Arco Monday night and will expect to meet you in Howe sometime between 8:00 and 8:30 on Tuesday morning if you do not contact me in Arco the night before.

Dear Mr. York:

We have corrected the depositions of yourself and witnesses in proof of Beneficial Use on Permit No. 20917 in accordance with your letter.

Before final action is taken the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will contact you at the time he makes the examination in order that you may arrange to show him over the ground.

LEGAL NOTICE

Notice For Publication

NOTICE OF PROOF

APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
8 A.M. on the 5th day of Sept., 1955,
at Pocatello, County of Bannock,
State of Idaho, before Mr. Hugh
Maguire, Jr., Notary Public, Carl-
son Bldg., Pocatello, Idaho, proof
will be submitted of the application
to beneficial use of 6.4 cubic feet
per second of the waters of two
wells in accordance with the terms
and conditions of Permit No. 20917
heretofore issued by the Dept. of
Reclamation of the State of Idaho.

The name and postoffice address
of the person or corporation hold-
ing said permit are P. S. York, 69
Rosewood, Pocatello.

The use to which said water has
been applied is irrigation.

The amount applied to beneficial
use is 6.4 feet.

The place where said water is
used North half, Section 20, T6N
R29E, B.M. and the wells are loca-
ted in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ -
NW $\frac{1}{4}$ of said Section 20.

The right to take water from
such works is based upon Permit
No. 20917.

The source of supply from which
such water is diverted is two pumps
from deep wells.

The date of priority which said
user is prepared to establish is
Jan. 22, 1949. 20917

Re: Permit # 20917

Gentlemen:

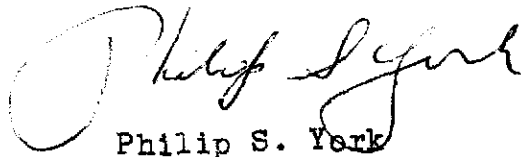

Thank you for your letter of Sept. 9th calling my attention to an error as to the legal description of the land on which the wells are located.

The permit and the published notice are correct and the wells are located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 20 R29 E.B.M. The description as noted on the depositions is incorrect and was an error on my part. Will you please correct the depositions.

Question 7 should state that the water has been applied to the N $\frac{1}{2}$ Section 20 R 29 E B.M.

Attached is affidavit of publications.

Very truly yours,

Philip S. York

RE: Permit No. 20917

Mr. Philip S. York
69 Rosewood Street
Pocatello, Idaho

Dear Mr. York:

We have your letter of September 8 enclosing depositions of yourself and two witnesses offered in proof of beneficial use on Permit No. 20917.

We note that all of these depositions describe the wells as being located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 20, Township 6 North, Range 29 East, B.M.; whereas, the Permit as well as the published notice describe the wells as being in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ NW $\frac{1}{4}$ of the Section.

If this is an error in the depositions, we can correct same upon authorization from you to do so, but if there has been a change in the points of diversion or location of the wells, the Permit will have to be amended and it may require republication.

Also, Question 7 of the depositions of your two witnesses should give the legal description of the land to which the water has been applied.

The affidavit of publication is a necessary part of the proof and the Arco Advertiser was instructed to send this to you. If you have not received it, we suggest that you take the matter up with them at once.

Very truly yours,

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Philip Sanders York
42 Hawthorne
Pocatello, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 20917 you are required to complete your diversion works on or before February 4, 1954. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

RE: Permit No. 20917

Mr. Philip York
42 Hawthorne St.
Pocstello, Idaho

Dear Mr. York:

Reference is made to your letter of August 17, 1953, in regard to proofs on your Permit No. 20917.

Completion of Works proof must be made on or before February 4, 1954, but proof of Beneficial Use does not have to be made until February 4, 1956.

Completion of Works proof can be made on the form enclosed, executed before a Notary Public, and returned to this Department with the statutory fee of \$5.00. This can be done at any time between now and February 4, 1954, but no inspection is required until proof of Beneficial Use is made.

While this proof is not actually due until February 4, 1956, as mentioned above, it can be made at any earlier date. This requires publication once a week for four weeks in a county newspaper and the notice should be made in duplicate on Form 10 enclosed setting the time and place and naming the Notary Public before whom the proof is to be made. The proof may be made at any place convenient for you and your two witnesses, and the time must be set sufficiently far ahead to allow for four weeks publication.

Both copies of Form 10 to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing, and shall send you the necessary forms of depositions to be used in making the proof.

Gentlemen:

I have now completed the pumping project to produce irrigation water as applied for and approved per permit number 20917. I have put the whole of this water to beneficial use and am now irrigation approximately 300 acres.

According to the permit, I have until Feb. 4 1954 to complete said works. Does this mean I have to prove up on the permit by Feb. 4 1954 or do I have until Feb. 4 1956? If proof must be made by 1954 please send me necessary forms so that this can be taken care of this fall in order that measurement by your engineer can be made during good weather.

I would appreciate your comments as to how this proof is to be made.

Thanking you in advance, I am

Very truly yours,

Philip S. York

State Reclamation Engineer,

Dear Sir:

In connection with desert land entries embracing public lands wherein the entrymen using underground water for irrigation purposes, this office has been instructed to obtain from the State Reclamation Engineer, a report to determine whether the driller of the well has filed a log and test of the well as required by State law and, if so, what the flow of the well was determined to be. This information is needed at the time an entryman submits his final proof.

The entryman of this desert entry, Idaho 0289, indicates that the wells were drilled in the N $\frac{1}{2}$ sec. 20, T. 6 N., R. 29 E., B.M., your application No. 28562, Permit No. 20917.

It will be appreciated if the above information can be furnished this office at an early date.

Very truly yours,

Mr. Philip Sanders York

Dear Mr. York:

We acknowledge receipt of your letter of March 31, and note that you are not able to proceed with construction under your Permit No. 20917 on account of restriction by the District Land Office.

Section 41-204 I.C.A. states "---Every holder of a permit which shall be issued under the terms and conditions of an application filed hereafter appropriating twenty-five cubic feet or less per second must, within sixty days from the date upon which permit issues from the office of the Department of Reclamation, commence the excavation or construction of the works by which he intends to divert the water, and must prosecute the work diligently and uninterruptedly to completion, unless temporarily interrupted through no fault of the holder of such permit by circumstances, over which he has no control."---

Obviously the refusal of the Bureau of Land Management to allow you to start construction of a well pending approval of your application for entry is a circumstance over which you have no control and the Department would recognize it as such.

However, there is no statutory procedure by which time for commencement of works can be extended and we would suggest that you file a statement or affidavit to the effect that such a circumstance over which you have no control exists.

Gentlemen:

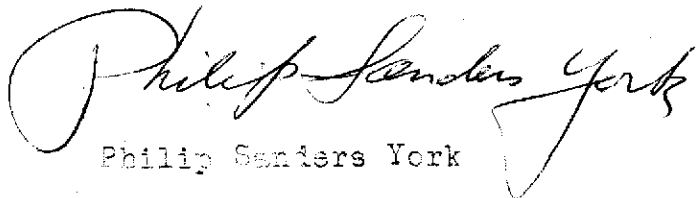

Kindly refer to the above water permit which requires work to be begun on or before April 4, 1949.

My official receipt from the District Land Office, bill number 473, stipulates that I am not to go on this land until notified in writing that I may.

I would appreciate having this date of April 4, 1949 extended until such time that I have been granted permission of entry.

Thanking you in advance, I am,

Mr. Philip S. York
No. 42 Hawthorne
Pocatello, Idaho

Dear Mr. York:

We enclose herewith Permit No. 20917,
together with Departmental Receipt No. 21229 for the
\$3.50 filing fee.

Your attention is directed to the limitations
and conditions of this permit, as given on the fourth
page, under approval of the State Reclamation Engineer.

In your letter of January 31st, you enclosed
your check for \$2.00, and requested that a certified copy
of this permit be furnished the Bureau of Land Management,
C/o Mr. Paul Shepard.

It is our understanding that three certified
copies are required, and if that is the case the cost will
be \$2.50. If only one, the cost is \$1.50. Please
advise us as to your wishes in this matter.

Pocatello, Idaho

Dear Mr. York:

We are in receipt of your application for permit to appropriate subterranean water by wells located in the N¹/₂ Section 20, Twp. 6 N., Range 29 E. B.M.

Our records show that this land is Carey Act land in the Blaine Canal Company's segregation. This land is now under control of the State of Idaho, "Carey Act", until the time that the Government Land office, (Bureau of Land Management) accepts the relinquishment which is on file at Washington D.C. and will convey said land back to Government Domain.

This letter is being written for the purpose of ascertaining what right you claim to said land of which this Department has no record, or if you have any preference rights to the above described land, which this Department may render some assistance in obtaining for you.

Very truly yours,

MARK R. KULP
