NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Hope Land and Water Co., Inc., c/o W. T. Williams, Route 2, Twin Falls, Idaho has received an approved Permit No. 20370/33-2041 issued by the Idaho Department of Water Administration authorizing the diversion of 5.0 cubic feet per second of water from a ground-water source. The priority to be established under this permit is May 7, 1963 and the permit was approved April 7, 1948.

Water is to be diverted by wells from a point within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 23, Twp. 6N, Rge. 29E, B. M., Butte County, to be used for irrigation purposes in the E $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 23; S $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 25; Twp. 6N, Rge. 29E, B.M.

Proof of the application of the water to beneficial use was submitted to the Department on May 16, 1974. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication of this notice.

Dear Mr. Williams:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed is an Order which advances the priority for this permit to May 7, 1963.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use of water. The enclosed Order modifies your permit to comply with these rules and regulations.

We have caused the legal notice for this permit to be published in the Arco Advertiser on June 6, and June 13, 1974. You will be required to submit an affidavit of publication to this office. The affidavit may be obtained from the above mentioned newspaper upon payment of the publication fee. We have asked the newspaper to bill you direct. Upon receipt of the affidavit of publication we will schedule a field examination.

If you have any questions concerning this matter, please contact us.

Sincerely,

D. Darlene Reich

Dear Mr. Williamson:

Pursuant to your phone call of this date, am forwarding the pre-cancellation notices sent on March 27, 1974, to the address of record for Hope Land & Water Company. Also enclosed are two proof of beneficial use affidavits for your use in connection with both permits.

As I mentioned on the phone, the procedures for advertising have been changed. It is no longer required that notice be published for four weeks prior to making proof. You will find enclosed two advertising authorizations; if you will please sign these authorizations and return them with your proof affidavits, we will cause notice to be published in the Arco Advertiser for two consecutive weeks. It is still required that you pay the publication costs; we will advise the newspaper to bill you direct for that charge.

Please submit your proof affidavits before the date set forth in the pre-cancellation order, May 6, 1974, to avoid cancellation of these permits. If you should have any questions or if I can be of further assistance, please advise.

RE: Permit No. 20370

Mr. J. Edwin True
857 Walnut Street
Twin Falls, Idaho

Dear Mr. True:

We acknowledge receipt of your letter of February 6, 1953, enclosing notice for publication in connection with proof of completion of works on Permit No. 20370.

We note that you have not obtained the yield anticipated from the wells you have drilled and anticipate drilling other wells in other locations in order to obtain the required amount of water.

No extension of time can be allowed on this permit as the 5 years will have expired. We suggest that you write a letter requesting an amendment to Permit No. 20370, to the amount your present wells will deliver, and since that is doubtless not more than 6.4 second feet the proof can be made on Form 6 enclosed, without the necessity of advertising.

You may then file a new application for the additional amount from the other wells which would, of course, give you a later priority.

Very truly yours,

MARK R. KULP

Dear Mrs Anderson,

Attached are the necessary form for publication
on permit #20370.

Am sending them along altho I wonder if we might
not be smart to ask for a year extension. Here are the facts.

We have two wells drilled as planned under the
permit. These have been used for 3 seaseon. However the yeald was
not as great as was originally anticipated and we are just now
drilling additional wells on other locations north west of the
original locations. We would have drilled these additional wells
long ago but they are located on government land and we were only
able to procure a right of way last fall late.

Our plan was th request that about half of the
water allocated under permit #20370 be transferred so we could take
it from the new wells now being made. Can this transfer be made
and is it reasonable to hold up the attached proof until we have
completed this change. I realize that this should have been done
long ago but we couldn't anticipate the delay in getting a right of
way from the Government.

May I have your instruction on this matter?
If a few days will not matter I will stop in next time I am in
Boise and talk it over with you then.

Kind regards,

J. Edwin True

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. J. Edwin True
No. 857 Walnut St.
Twin Falls, Idaho

Boise, Idaho, February 2, 1953

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 20370

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before April 7, 1953. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. RULP
State Reclamation Engineer

Re: Permits Nos. 20369 and 20370.

Mr. J. Edwin True
Martaugh, Idaho

Dear Mr. True:

We acknowledge receipt of your letter of May 7th, enclosing proofs in connection with Permits Nos. 20369 and 20370.

Inasmuch as your works are only partially completed, it would be better not to attempt to make any proof at this time, or until the works are fully completed, and the water fully applied to the entire amount of land that is to be irrigated.

Proof of completion of works for a capacity less than the original application would bar proof of beneficial use for more than that amount; and under the present proofs you would only be entitled to a less amount of water than you have filed on.

Your priority date on both these permits is March 29, 1948, and the proofs may be made at any time on or before April 7, 1953, and still retain the same original priority.

We therefore return your checks which accompanied these proofs, and await your further advice in the matter.

Meanwhile, we will record the change of point of diversion applied for in Permit No. 20369.

Very truly yours,

MARK R. KUTP
