Re: Permits Nos. 20241 and 20242

Mr. C. A. Bottolfsen
Arco, Idaho

Dear Mr. Bottolfsen:

We acknowledge receipt of the depositions of Mr. Warren E. Stauffer and two witnesses, also Affidavit of Publication in the Arco Advertiser; all submitted in proof of Beneficial Use under Permits Nos. 20241 and 20242.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, the Field Engineer for this Department will try and contact Mr. Stauffer at the time he makes the examination in order that he may arrange to show him over the grounds.

We return the Certificates of Completion of Works issued under these two Permits, which were included with the Beneficial Use Proofs.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. No corporation; acting for self

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 20241; Date of Permit, Dec. 22, 1947; Date of Priority, same. 12-22-47

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground water from well; point of diversion is in the NW¹/₄ NE¹/₄ Sec. 22, Twp. 6 North, Range 29 East, B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Depth of well 88 ft., 18ⁱⁿ/_{ft} casing; turbine pump; discharge approximately 160 inches; not measured but believe it will discharge 160 inches. Depth to water 48 feet.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All cultivated land in NE¹/₄ of Sec. 22, Twp. 6 North, Range 29 E. B. M.
Have ditches, and similar improvements to cover above lands.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. irrigation

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 3.2 second feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. No corporation.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Have used entire flow for irrigation purposes.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Have right in Blaine County Canal Co. for ¹⁶⁰~~300~~ shares, but inadequate supply has made it necessary to use the pump and its entire flow was used for purpose of irrigating said lands.

Dear Mr. Bottolfsen:

Reference is made to your letter of August 2, 1950, requesting the necessary forms for making final proof on Permits Nos. 20241 and 20242, in the name of Warren E. Stauffer.

Our records show that both Proof of Completion of Works and Beneficial Use are due on these two Permits. Proof of Completion of Works may be made on Form 6 enclosed (one for each Permit). A fee of \$5.00 should accompany each.

of Beneficial Use proof
Notice should be made in duplicate on Form 10 enclosed for each Permit, setting the time and place for making the proof. The time, of course, should be set sufficiently far ahead to allow for the statutory four weeks publication. Both copies of Form 10 to be returned to this Department together with Form 11 which is authorization for us to have the notices published in the designated county newspaper at Permit Holder's expense.

We shall then send a copy of the notices to the newspaper with instructions in regard to publishing, and shall send you the necessary forms of deposition to be used in making the proofs.

Dear Mr. Stauffer:

We enclose herewith Permits Nos. 20241 and 20242, and direct your attention to the limitations and conditions of same as given on the fourth page, under approval of the State Reclamation Engineer.

As you will note, Permit No. 20241 has a priority date of December 22, 1947, and Permit No. 20242 has a priority of December 26, 1947.

The statutory proofs required on both these permits are due at the same time, however, and this will enable you to save a little expense, when the time comes, if you wish to proceed under both permits.

Otherwise, you may proceed to make the proof on either one at any earlier date, if you are prepared to do so, although these proofs are not actually required until the dates set out in the permits.

Mr. Mark R. Kulp.

Dear Sir -

Enclosed find permit for water filing,
also my check for amount of filing fees.

Under question #15 you ask the
present water right appurtenant to my land.
That is really hard to answer, as it
depends on the snow fall. Some years
if it doesn't snow much, we have
very little water. Other years a fair
amount of water. But we never have
enough water for what land we
~~have~~ have.

As to question 2, I will let you
fill in, as under the above conditions
I will ~~probably~~ need all the present
statutes allow.

Dear Mr. Stauffer:

We are in receipt of your letter of December 11th, in regard to filing on two wells in the North Half of Section 22, Township 6 North, Range 29 East, B.M., and enclosing a sketch map showing the location of the wells, and the land upon which the water is to be used.

We enclose two forms of application, which we have partially filled out from the information contained in your letter.

You may complete these by filling in the following:

Under Question 11, give the dimensions of the ditch by which the water is to be conveyed from the well to the land; or if pipe is to be used, correct Question 6 accordingly, and give size and length of pipe under Question 11.

Under Question 13, give the additional time, if any, that you will require for complete application to beneficial use, after the works are completed.

Under Question 15, describe fully the present water right appurtenant to this land- the amount and priority date.

The applications to be signed on the third page, on the line indicated.

Under Question 2, state the amount of water applied for. The maximum that can be allowed under the statutes, is one inch to the acre, which on the 160 acres would amount to 3.2 second feet.

The filing fee is at the rate shown on the fourth page of the application.

We note that you wish different priorities for these two wells, and as the priority date is the date the application is filed in this Department, we suggest that you file the one you wish first ahead of the other.

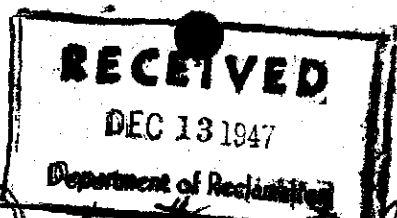

Very truly yours,
