IDAHO DEPARTMENT
OF WATER RESOURCES
900 N. Skyline
Idaho Falls, Idaho 83402-1718

Dear Mr. Jones:

Enclosed is an Application for Transfer on behalf of the Pancheris for their lands and the appurtenant water rights in Sections 9, 16, 21, 28 and 33 of Township 9 North, Range 27 East. As you can see from the enclosed map there are seven pivots as well as wheel lines on the north end and the south end. The Pancheri's idea is to eventually replace the ditch from Wet Creek with a pipeline and to have all of the mainline for all of the pivots and wheel lines connected. There is enough fall from the headgate on the ditch to where it will enter the pipeline at the north end of the property to generate approximately 75 pounds of pressure under gravity flow at that point. Then all of the wells will be used to inject water into the system in the amounts needed to make the system work.

I have not tried to complete Part II since I believe you will have the most recent information on all of these water rights at your disposal more readily than I. We have also enclosed our check in the amount of \$970.00 for the filing fee. If we may be of any assistance or provide additional information, please contact us at your convenience. Thank you for your kind assistance.

Very truly yours,

Kent W. Foster

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

From: Sharla

Date: November 8, 2001

Re: Combined Diversion Rate

On this date, Ernie Carlsen notified me of an amended transfer that occurred last week modifying the combined rate of diversion limitation under Rights 33-84, 33-85, 33-7015 and 33-10998. Because the AJ records were not immediately updated in the computer database, I prepared the transfer approval for 68885 using the old combined limitation, unaware of the amended transfer.

The transfer had not yet been mailed out when the error was brought to my attention so the approval document was changed and re-signed. The combined rate of diversion under the four rights also affected the grand total under the newly approved transfer so those changes were also made in the new approval document. The transfer had already been updated in the database, which means that I am unable to make the changes to the updated AJ records. Regional AJ staff will be responsible for changing the appropriate records to match the amended combined totals.

MEMORANDUM

To: Transfer 68885

From: Sharla

Date: November 7, 2001

Re: Proof of Ownership and Point of Diversion Changes

Proof of ownership for original lands and transferred lands has been completely addressed by either the tax notices or Skip's memo regarding contact with the assessors office. The only place of use not covered by either of these is the SW, S28. On this date, I spoke with Butte Co. Assessor's office and they confirmed that this ¼ is owned by Jerry and Marilyn Pancheri (Jerry is the president of Pancheri Inc).

The application for transfer as originally typed shows the pd in Section 5 for Rights 33-84/85/90E/10070. A second pd was listed for 33-85, and a third pd for 33-85 was listed in Section 36. The purpose of the transfer only indicates changes to the place of use, no changes to the points of diversion. In pencil, the third pd has been crossed out, Right 33-10070 was added to the pd in Section 18, Rights 33-84/10070 were crossed off of the first pd, and Right 33-10998 was added to the first pd description.

I discussed the point of diversion descriptions with Ernie Carlsen at length. We agreed that the pd in Section 18 should have also been crossed out and the pd for Rights 33-85 and 33-10070 should have been left with the Section 5 description. Ernie suggested that the transfer approval address the source change for 33-85 the same way it was addressed in a previous transfer (5795) for rights 33-90E and 33-10070. Therefore, conditions will be carried on all three rights stating that diversion under each of the three is based on water availability according to their priority dates from their original sources. Ernie felt comfortable with this remedy even though the Director's Report still shows Dry Creek as the source for 33-85.

When this transfer is approved and a mail message is sent to Don Shaff and Ernie Carlsen letting them know the transfer has been approved, I will attach a copy of this memo so that Don will be aware of the change made on 33-85

Re transfer of water right.

Higgins & Ambrose,
Attorneys at law,
Mackay, Idaho.

Gentlemen:

The application of Selestia S. Taylor for transfer of water right is now on file in this office, recommended by water commissioner George Coates. Upon receipt of \$1.00 fee the certificate will be issued.

In regard to these applications I would say that the application should be first filed in the State Engineer's office where it will be checked and forwarded to the water commissioner of the district in which the change is to be made. The water commissioner will set the date and place for hearing and will notify the applicant or his agent. The notice is published over the State Engineer's name and not the agent or attorneys of the applicant, as in the above instance. We then have a complete record of the application on file here. However, as there have been no protests filed against this application, the certificate will be issued upon receipt of the required fee.

Very truly yours,

F. P. KING,

State Engineer.

Re ~~Trans.~~ of water.

Mr. John S. Parks,
Arco, Idaho.

Sir:

The application of Celestia S. Taylor for transfer of water right on Little Lost River has just been received at this office. The notice was published by Higgins and Ambrose, attorneys for the applicant, and, it was for this reason that we had no record of the transfer at the time you made inquiries in regard to same. The hearing was taken January 10th, at Mackay, before Mr. George Coates, Water Commissioner, and he recommends the issuance of the certificate of transfer, as there were no protests.

Very truly yours,

F. P. KING,

State Engineer.
