Subject: Application for Amendment of a Permit-22-13244

Dear Mr. Warner:

Enclosed on behalf of Teton Valley Golf Associates, LP is an Application for Amendment of a Permit for permit number 22-13244, which is associated with a proposed public water system in Teton County, Idaho.

The purpose of the amendment is to add a second point of diversion (POD) in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35, T04N R45E. A public water system well was completed in this tract on August 6, 2004. We anticipate that the second public water system well will also be drilled in this tract, rather than in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 36, T04N R45E. However, we would like to retain the POD in Section 36 to allow flexibility in final design of the water system.

A check for \$50 is enclosed to cover the filing fee for this application. Please contact me at 208-383-4140 with any questions.

Sincerely,

Jennifer S. Sukow, P.E.
