FAXED

RE: Your Property Located In Sec. 27 T. 11S R. 24E, Cassia County

Dear Mr. Gibby;

This letter is being written per your request in order to satisfy P & Z requirements for your proposed construction project. We have received your application for a water transfer to provide ground water for the proposed expansion of your existing feedlot from 1000 head of beef cattle to 4000 head.

Processing of your application will take some time due to the large backlog of applications that are being reviewed, but we will get to it as soon as possible. Please keep in mind that you cannot use more than 13,000 gallons of ground water per day at this facility until the transfer is approved (assuming that this does occur).

If I can be of further assistance, feel free to contact me.

Regards,

James E. Stanton
Sr. Water Resource Agent
