Subject: Request for Expedited Issuance of a Drilling Permit – Woodside School

Dear Jim:

As a follow-up to your email of May 26, 2005, I have enclosed an application for drilling permit and a request to expedite the issuance of a drilling permit. The Blaine County School District is anxious to drill this well in order to meet construction schedules for this facility.

Please contact me with any questions.

Sincerely,

Terry M. Scanlan, P.E., P.G.

Well ID # 404534

Well Tag No. D0036626

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This permit is Approved on Friday, June 10, 2005.

1. This drilling permit is valid for two (2) months from the approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the local Health District or the Idaho Department of Environmental Quality which may be required prior to construction of this well. The local Health District should be contacted for septic tank/drainfield locations. Domestic wells must not be drilled closer than 100 ft. from any drainfield and 50 ft. from any septic tank. Public Water Supply wells must not be drilled closer than 100 ft. from any drainfield or septic tank.
3. The well shall be constructed by a driller currently licensed in the state of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals that may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho. If the well being drilled is associated with approved water rights(s) use of the well must comply with conditions of said water right(s).
7. If a bottom hole temperature of 85 Degrees F (29.44 oC) or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department of Water Resources immediately.
8. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or its contractors to contact "Dig-line" (Dig-Line is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Dig-Line " Number for this location is 1-800-342-1585
9. Please be advised that this drilling permit should be considered and treated as a preliminary permit. If you are in disagreement with this preliminary permit you have fourteen (14) days of the service date of this permit to petition the Idaho Department of Water Resources for reconsideration, pursuant to Section 67-5243, Idaho Code.
10. The well tag for the drilling permit/start card shall be securely and permanently attached to the well casing through welding or by the use of four closed end domed stainless steel pop rivets. The tag attachment will be done at the time of completion of the well, and prior to removing the drill rig from the drill site.
11. Applicant requests issuance of this Drilling Permit prior to approval of a Water Right or Transfer of a Water Right. Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the diversion of water from this well may not ultimately be approved for use.

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Blaine County School District No. 61 Applicant, requests
issuance of a Drilling Permit prior to approval of water right permit. The
request is made for the following reason(s):

The School District is currently constructing Woodside Elementary School.
Landscaping is scheduled for late summer and early fall. The District needs to
have an irrigation source available prior to planting. As a result, the well must be
completed by early July 2005, so that a pump system can be ordered and installed
for operable by in late August 2005. The School District has a pending Application
for Permit (37-21177) and a pending application for transfer (No. 71677) for
irrigation purposes. Both applications were advertised without protest. The School
District recognizes that the drilling permit application will not constitute
an approval to divert water for beneficial use.

Applicant understands that the drilling permit does not constitute a permit to inject any type
of fluid into the well and does not authorize use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction
he accepts all risk that the well may not ultimately be approved for use.
