3. kwalker 6/30/2005 Permit Review

Comment: Application falls within Salmon Clearwater & Wilderness moratorium areas, also falls in Salmon River Wild & Scenic are. Mitigation plan proposes to use water from their decreed Lemhi River right to mitigate use of water from this proposed well. The Lemhi River right is for 0.03 cfs per acre so I took a proportionate amount of that right to be recommended for mitigation. The volume of water is based on field headgate requirement for this area of 3.5 af/ac. Standard season of use for this area is 3/15 through 11/15 - regional office had adjusted during data entry. Recommend approval as proposed.
