Subject: State Water Bank Applications - LaVar Thornton

Dear Cynthia:

On behalf of LaVar Thornton, I am pleased to submit the enclosed water bank applications associated with water right licenses 63-2986, 63-3404, and 63-7474.

Mr. Thornton has recently acquired land adjacent to the currently authorized places of use for water right licenses 63-2986, 63-3404, and 63-7474, and has submitted an application for transfer to create a permissible place of use to include these new lands. He would like to begin irrigation of 97 acres of these lands in the spring of 2004, prior to processing and approval of the application for transfer. He would also like to idle 97 acres that are currently irrigated by these water rights. To accomplish this goal, the enclosed applications propose to (1) lease a 97-acre portion of these water rights to the State Water Bank for one year, and (2) lease 97 acres of irrigation water right from the State Water Bank for one season. The enclosed figures show the acres proposed for irrigation in 2004, and the acres proposed for lease and rental in 2004.

Assuming a diversion volume of 4 acre-feet per acre over the 97-acre place of use, the total volume of water proposed for lease will be 388 acre feet. Based on the administrative fee of \$1.50 per acre, the fee for rental will be \$582. A check for this amount is enclosed.

Please contact me with any questions. We look forward to your approval of these applications.

Sincerely,

Terry M. Scanlan, P.E., P.G.
