WATER RIGHT LICENSE

WATER RIGHT NO. 61-07666

Priority: July 15, 1991

Maximum Diversion Rate:

0.54 CFS

Maximum Diversion Volume:

7.9 AF

This is to certify, that SKIP E OWEN

PO BOX 864

GLENN'S FERRY ID 83623

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 3, 1991; and has submitted Proof of Beneficial Use on September 13, 1994. An examination indicates that the works have a diversion capacity of 0.540 cfs of water from:

WASTE WATER

tributary to LITTLE CANYON CREEK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER	04/01 to 10/31	0.54 CFS	7.9 AF

LOCATION OF POINT(S) OF DIVERSION:

NWNE , Sec. 30, Township 05S, Range 10E
ELMORE County

PLACE OF USE: STOCKWATER

	SESW	NWSE	SWSE
30	NWNE	NENW	Lot 1(NWNW)

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 61D.
6. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
7. Stockwater use is for 1000 range cattle.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

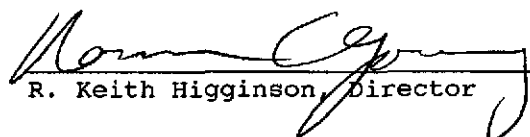

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 61-07666 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 61D.
6. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
7. Stockwater use is for 1000 range cattle.

Witness my hand this 2nd day of MARCH, 19 95.

Acting for

R. Keith Higginson, Director

8 1995

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 61-07666)

IN THE NAME OF SKIP E. OWEN)

ORDER OF
REINSTATEMENT

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before September 1, 1994; and,

WHEREAS, the Department notified the permit holder on June 30, 1994, by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

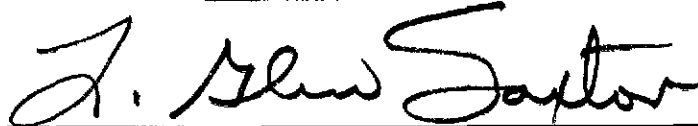

WHEREAS, the Department notified the permit holder on September 7, 1994, that the permit had lapsed for failure to submit an acceptable proof of beneficial use or extension of time; and,

WHEREAS, Section 42-218a, Idaho Code, provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting an acceptable proof of beneficial use on September 13, 1994;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 61-07666 be REINSTATED with an advance in priority to July 15, 1991.

Dated this 15th day of September, 1994.

L. GLEN SAXTON

Chief, Water Allocation Bureau

2 1994

SEP 13 1994

Department of Water, Environment and Heritage

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): 1000+ cattle

Irrigation (No. of acres): _____ Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: 2.4 cfs OR acre feet

- 7. Measuring Device Requirement:** (refer to the approval conditions on your permit and respond accordingly)
(This question is **not optional**. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes _____ or No ☒
Has the measuring device been installed? Yes _____ or No ☒

Flow Measurement Port: Is a flow measurement port required? Yes _____ or No ☒
Has the measurement port been installed? Yes _____ or No ☒

8. Fee Enclosed: \$ 150 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

- 9. Person to contact to accompany the Department representative during field examination of the water system.**

Name: Same as above. Telephone Number: _____

Address: _____

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Sh. O. Tamm Date: 9-9-94
(include your title, if on behalf of company or organization)

			NESE 35	NWSE 30		145
10E	30	LOT 2(SWNW)	20	SENW 5	LOT 3(NWSW) 30	55

Total number of acres irrigated: 200

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **September 1, 1994**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Use of water under this permit is subject to control by the watermaster of State Water District No. 61D.
5. A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works prior to diversion of water under this permit.
6. Any license issued by IDWR pursuant to the permit or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
7. Diversion and use of water under this permit is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.

OCT 01 1991

State of Idaho
Department of Water Resources**Permit To Appropriate Water**

NO. 61-07666

CONDITIONS/REMARKS:

8. The Director retains jurisdiction of the permit and/or subsequent license issued to change, add or remove any requirement as determined to be appropriate.
9. The issuance of this permit in no way grants any right-of-way or easement across the land of another.
10. The rate of diversion of water for irrigation under this permit and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this

3rd day of September, 1991.

RE: PERMIT NO. 61-07666

Dear Water Right Holder:

The above referenced permit is in the process of being reviewed for licensing. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. The amendment reflects changes in the source of water, in the place of use description, and in the nature of use.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

Please review carefully and if you concur, sign and return the amendment within 14 days. The \$50.00 fee you paid 7/15/94 for the Application for Amendment of Permit (later withdrawn) will be applied to the \$50.00 licensing amendment fee due.

Thank you for your assistance and if you have any questions with this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

$$V = \frac{1}{2} \times 3.14 \times (5.25)^2 \times 12 = 259.8 \text{ ft}^3$$

E. NARRATIVE/REMARKS/COMMENTS

- Source = waste water. A 4' ^(diameter x 11' deep) sump ~~into~~ has been constructed into a tile drain system. Water is pumped into 12" main line for distribution to stock tanks, or may be valued into water truck. Measurement was made using a timed fill into tank truck. Source has been ~~modified~~ ^{classified} based on actual development.
- Stockwater is for ~~400~~ 1000 head range, cattle.
- No irrigation use developed. Source was not found to be adequate. Irrigation from King Hill I.D. Stockwater is used year-round, and will be recommended on this right during irrigation season only. A second application will be advised.
- Change in nature of use recommended within implied permit limits, to be handled via licensing amendment.
- All applicable Q's used in place of use, even though stock tanks are not ~~present~~ ^{shown}. With tank truck, water is hauled to areas where ~~tanks~~ ^{mainlines} have not yet been installed. P/u modified to show actual developed P/u.
- Overlaps: 61-305 & 306 (claimed SRBA as A61-10642, combined) are from Little Canyon Creek, used by other owners on neighboring lands east of creek in SE Sec 19 & NENE Sec 30. Other rights are King Hill I.D.

No measuring device. Power panel could be locked if

Have conditions of permit approval been met? ☐ yes ☒ no

necessary.

For this use, meas device requirement could be waived.

MAR 28 1995

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method:

$$1943 \text{ gals in } 8 \text{ min} = 242.9 \text{ gpm} = .54 \text{ cfs}$$

check: HP equation $\frac{5 \times 8.8 \times .7}{12 + (20 \times 2.31)} = .70 \text{ cfs}$

for 1000 head stock
allow .23 cfs

G. VOLUME CALCULATIONS

1 Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = \underline{\hspace{2cm}}$$

2. Volume Calculations for Other Uses:

$$1000 \text{ head} \times 12 \text{ gpd/head} \times \frac{215}{365} \text{ days/year} = \frac{2.58}{325850} = \frac{7.9}{13.4} \text{ AFA}$$

MEMORANDUM

TO: File 61-07666 / Skip E. Owen
FROM: Brenda Chapman
DATE: February 15, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

F. FLOW CALCULATIONS

Because some of the water has to be trucked to various stockwater troughs, the higher, measured rate of flow will be recommended rather than limiting it to what the standard two hour rate of diversion flow for 1000 head of cattle would be.

The standard volume recommendation will remain, however.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Stockwater	4-01 to 10-31	.54	7.9

See Item F.

The season of use dates changed to the currently used Field Headgate Requirement and Season of Use chart. (the permit was originally for irrigation; therefore, the stockwater season of use is limited by the permit.

RE: Water Right Permit No. 61-07666

Dear Skip:

Based on my field examination of your waste water system on Monday, October 17, I have recommended the above right for licensing.

On 7/15/94, you filed an application to amend this permit to change the use to stockwater. Applications for amendment suggest that the proposed changes have not yet occurred. Proof of beneficial use was then filed on 9/13/94. Since it appeared that you had beneficially used the water under the permit for stockwater purposes within the development period of the permit, processing on the amendment was withheld and the beneficial use examination was conducted.

Because stockwater use did occur under the permit prior to beneficial use filing, the permit may be amended through the licensing process. The amendment you filed would have required an advertising period. Licensing amendments do not require public notice but do require the same fee. Since your original amendment filing was not processed, you may withdraw that application and I will arrange for the fee you paid to be applied to the licensing amendment. You will receive the license amendment form for your signature within a few weeks.

Unfortunately, because year-round stockwater was not a part of the original permit, the season of use recommended for license 61-07666 cannot exceed the irrigation season, or 4/1 to 11/1. In order to authorize pumping for stockwater during the non-irrigation season, you must file a second application for permit. I have partially completed the application and it is enclosed.

You may sign and submit the new application for permit with \$50.00 fee to our office. Please return the amendment withdrawal form at that time as well. Please call if you have questions.

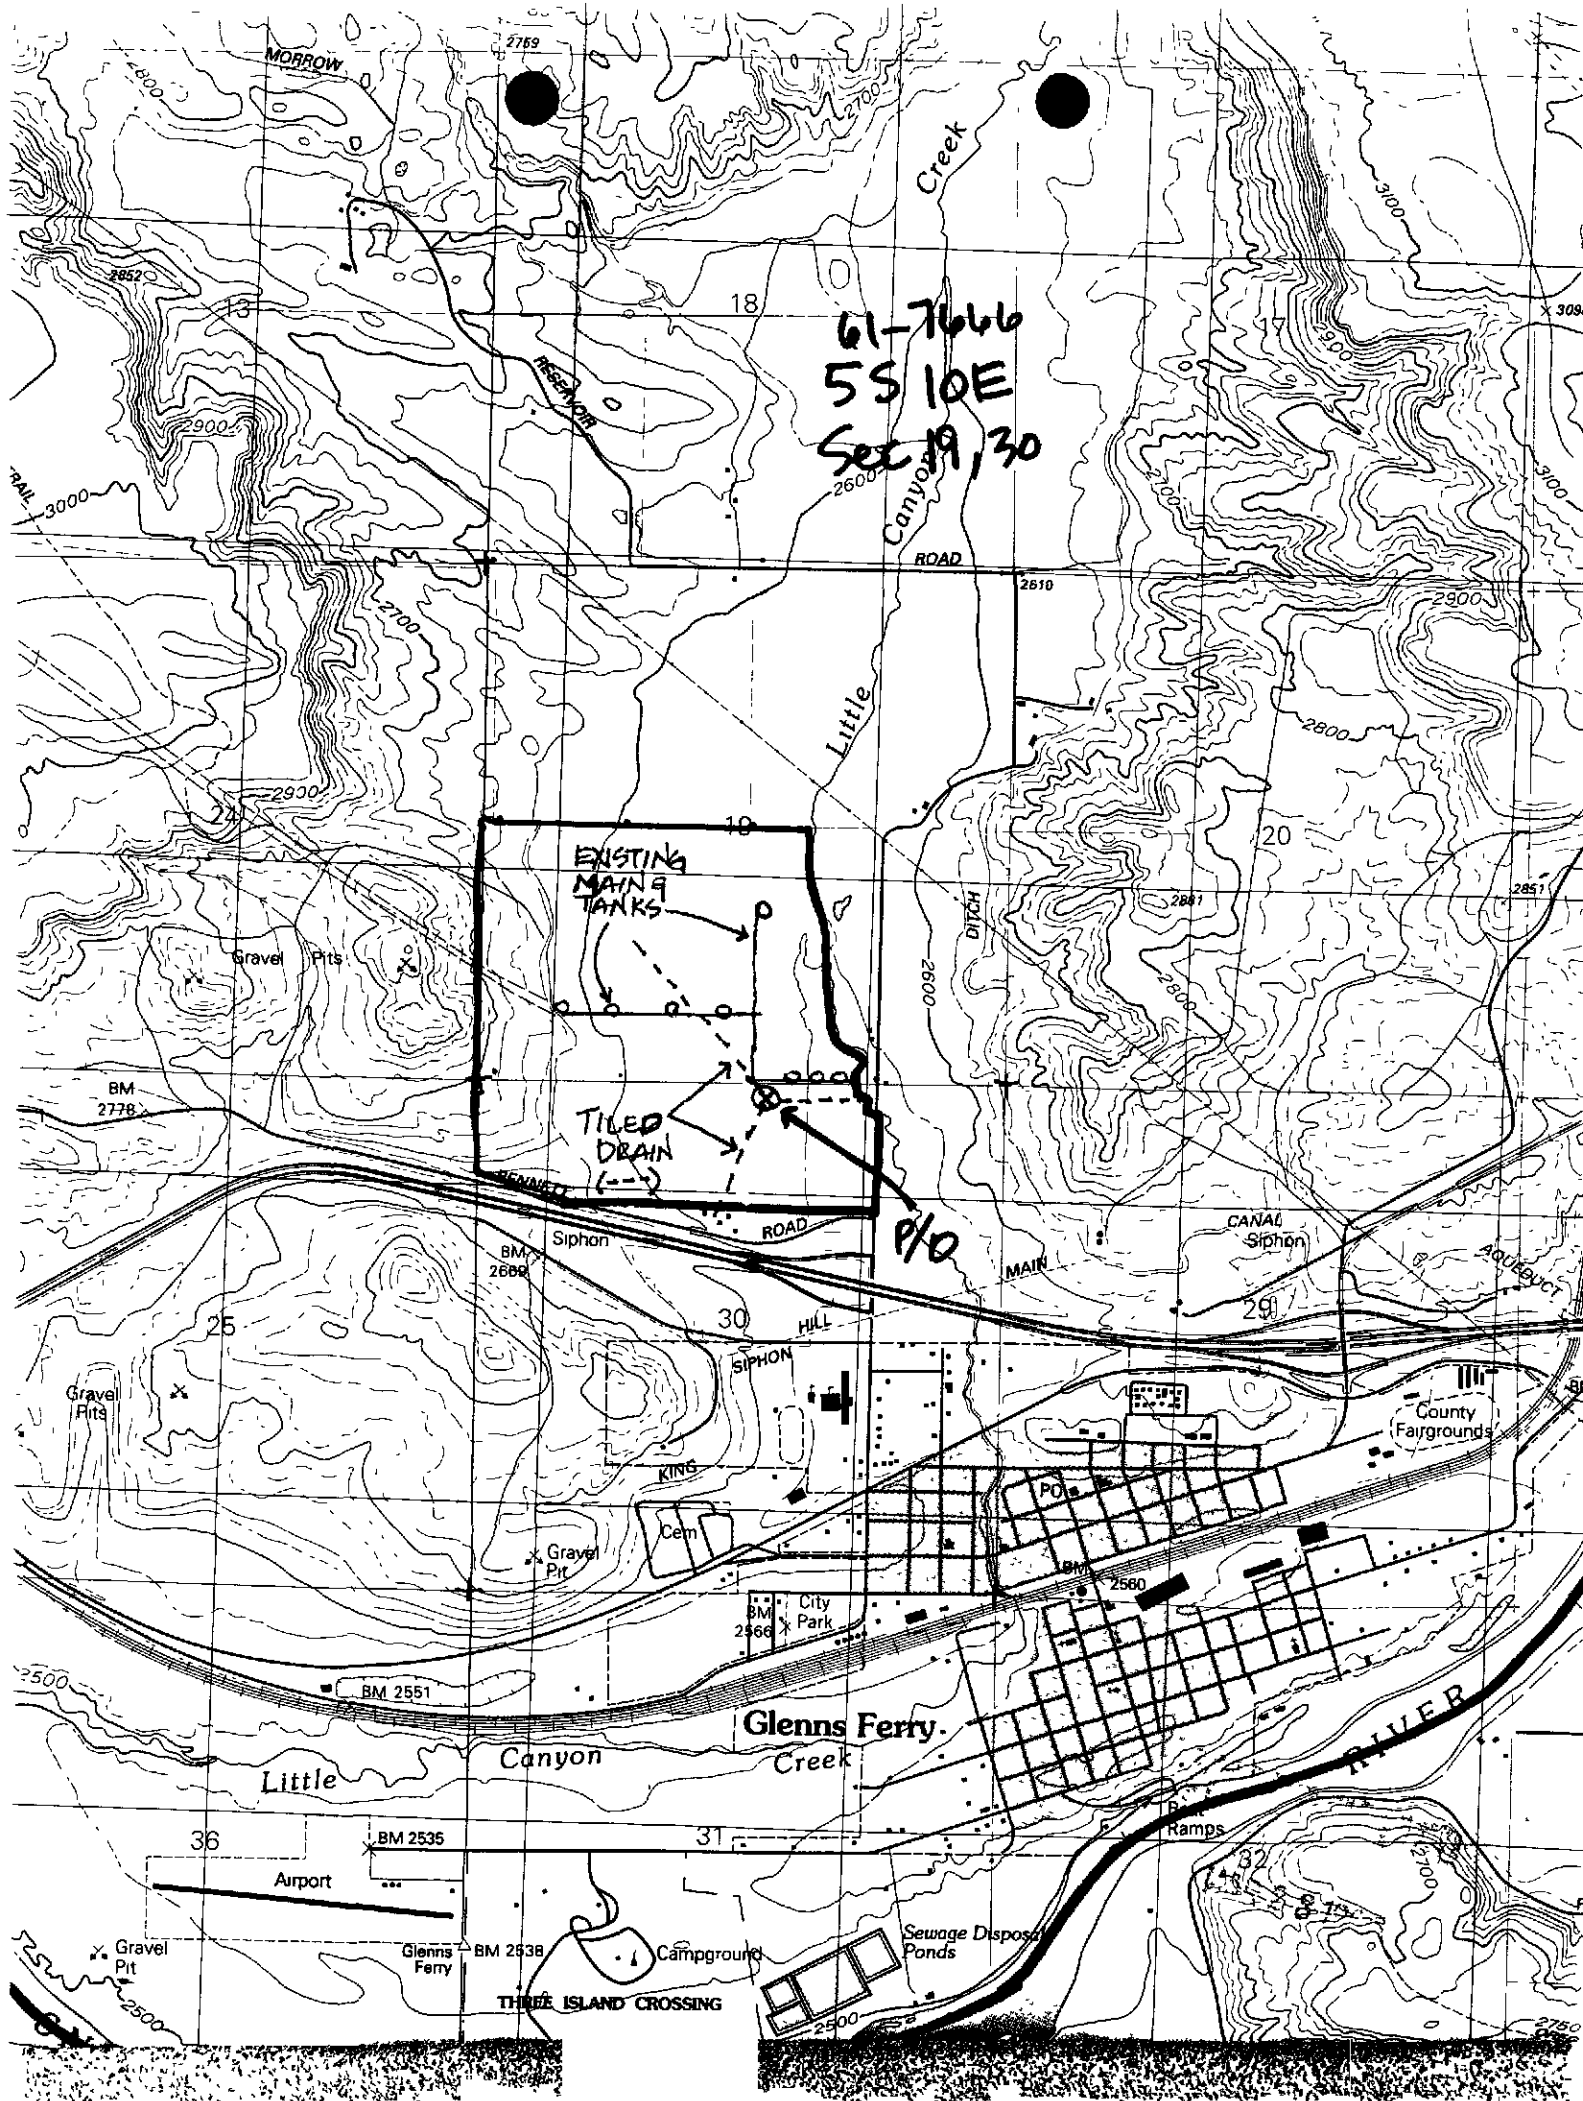

Sincerely,

Cindy Hodges

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 61-07666

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced water right permit.

Enclosed is an order reinstating your permit since the proof was received after the proof due date. Please note that the priority date has been advanced to July 15, 1991.

Additionally, you state on the proof that you will be diverting water for 1000 head of cattle. Your water right permit (copy enclosed) only authorizes diversion of water for irrigation of 200 acres. You cannot change the nature of use of the permit without amending the permit. Your permit also requires the installation of a measuring device which you indicate that you have not installed. If you do not feel that you need to install, or cannot install a measuring device you can request, in writing, a waiver of the condition.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

LAPSE NOTICE

RE: PERMIT NO. 61-07666

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated June 30, 1994. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

RE: PERMIT NO. 61-07666 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

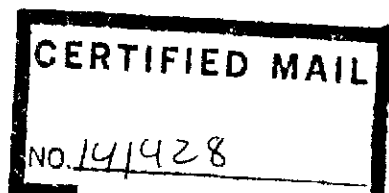

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Water Right No. 61-07666

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

June 8, 1992

SKIP E OWEN
PO BOX 864
GLENN'S FERRY ID 83623

RE: Water Right No. 61-07666

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

GLENN'S FERRY ID 83623

RE: Water Right No. 61-07666

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

JUN 30 1993

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13335 61-07666

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device and lockable controlling works that will enable the watermaster to control the rate of diversion. Also, because you are in an area where water is regulated, please be aware that water for this priority date will not always be available.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions

RECORDED

JUN 30 1993

pertaining to a term review, annual use fee and jurisdiction of
the permit are trust water conditions.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: APP. NO. 61-7666/Trust Water Processing

DATE: 8-26-91

The above application is a new trust water filing which has been advertised by the region and forwarded to the state office for final review.

Review of a 1974 orthophoto and 1980 infrared aerial photo do not provide any evidence that the land under the application has been irrigated with other sources of water and/or other water rights. The water source under this application therefore does not appear to be supplemental. With no evidence of development prior to October, 1984, the acreage shall count as trust acreage.

I recommend continued processing of the application and attaching trust conditions to any approval. *TK*
