Permit To Appropriate Water

NO. 61-07664

Proposed Priority: May 1, 1991 Maximum Diversion Rate: 0.18 CFS

This is to certify, that **STANLEY NORSTEBON**
MILDRED NORSTEBON
RT 3 BOX 651A
MOUNTAIN HOME ID 83647

has applied for a permit to appropriate water from:

MUD SPRINGS CREEK tributary of **SQUAW CREEK**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	03/15 to 11/15	0.16 CFS
STOCKWATER	01/01 to 12/31	0.02 CFS
	Totals	0.18 CFS

LOCATION OF POINT(S) OF DIVERSION: LOT 6(NENSW), Sec. 6, Township 02S, Range 06E
ELMORE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
02S	06E	6	NESW	8		8

Total number of acres irrigated: 8

PLACE OF USE: STOCKWATER

TWN RGE SEC
02S 06E 6 LOT 6(NWSW)

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **September 1, 1992**.
2. Subject to all prior water rights.
3. Any license issued by IDWR pursuant to the permit or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
4. Diversion and use of water under this permit is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
5. The Director retains jurisdiction of the permit and/or subsequent license issued to change, add or remove any requirement as determined to be appropriate.

RE: Water right number(s): 61 7664

Dear Water Right Holder(s):

The purpose of this letter is to notify you in advance that present drought conditions in Eastern Idaho may result in the flow of the Snake River falling below the minimum stream flow of 3,900 cubic feet per second ("cfs") established by the Swan Falls Agreement at the Murphy gage on the Snake River. Your water right bears a later priority date than July 1, 1985, the priority date for the minimum stream flow. As a result, if the flow falls below 3,900 cfs, the department will send you another letter advising you to cease diversion of water.

This notice is being provided so that you have advance warning to make arrangements to minimize impacts to growing crops or other loss that could occur if your water diversion is curtailed. Such arrangements may include temporary transfers as provided under Section 42-222A, Idaho Code, for areas declared a drought emergency. Declaration of a drought emergency can be initiated by petition of the Board of County Commissioners to the director of this department subject to approval by the Governor.

There are many variables that affect stream flows in the Snake River. Normally, the flows in the Snake River at Murphy gauge are lowest during June and July.

Information about your water right can be found on the department's website at the following address: <http://www.idwr.state.id.us/apps/ExtSearch/SearchWRAJ.asp>. Real time flow data for the Murphy gage can also be found at the following address: <http://www.idahopower.com/riversrec/waterlevels/streamflow/showgraph.cfm>

Thank you for your cooperation in this matter. If you have questions, please feel free to contact the department.

Sincerely,

Gary Spackman
Water Allocations Bureau Chief

E. NARRATIVE/REMARKS/COMMENTS

1. This permit is for 8 Ac. of irrigation and stock water from surface water of Mud Springs Creek. The system serves one stock trough located about 150' South of the pump, and 8 Ac. of irrigation to the East. The stock trough is one of the same troughs(2) served from a well under WR 61-07663. The 8 Ac. of irrigation is the same tract served by the same well under WR 61-07435. For irrigation, the owner first uses the surface water from Mud Springs Creek until it gets too low, then pumps well water as needed. The well water under 61-07435 is a supplemental supply to this right.
 2. 75 Range Cattle use this water from Sept. 1 to Dec. 1 each year.
 3. The pump unit is located in an excavated pond ~~that~~ that is fed from Mud Springs Creek by 2 excavated channels. The pump unit is mounted on top of a 30" comp pump with a board walkway. A 2" line supplies water to the 8 Ac. of irrigation. The irrigated tract has 1 wheel line served by a 2" buried mainline with 10 riser turnouts. The wheel line has 32, 9/64" nozzles.
- Have conditions of permit approval been met? ☒ yes ☐ no
- MICROFILMED
4. This water right was obtained 25 2000 means to reduce the amount of water pumped from the well under 61-07435. The well pumps to the pond where the pond pump is located.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 61-07664

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 61-07664

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

RE: APP. NO. 61-7664/Trust Water Processing

DATE: 9-4-91

The above application is a new trust water filing which has been advertised by the region and forwarded to the state office for final review.

Based on review of the file, the irrigation use appears to represent a new use. All acreage under the application shall count as trust acreage. I recommend continued processing of the application and attaching trust conditions to any approval.

Re: Application for Permit

Dear Stanely &/or Mildred:

The application for permit for Mud Springs Creek must be held due to trust water or "Swan Falls" delays.

Trust water includes surface and ground water considered hydraulically tributary to the Snake River upstream from Swan Falls Dam. A moratorium on trust water uses was recently lifted due to a negotiated settlement that allows an orderly approval of outstanding and new applications. Applications in the trust water area will be subject to delays related to availability of water and dates of priority for other applications (applications are processed in the order of dates of priority). This office will keep you informed of developments in the trust water area.

Please let me know if additional help is needed.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Lori White'.

Dear Legal Dept.:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before AUGUST 26, 1991.

Yours truly,

GAIL GARRETT
Secretary
