RE: WATER RIGHT NO. 61-07663

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the printed name and title.

Shelley W. Keen
Water Rights Supervisor

2. Measurements: None - Static well water: 90' - Winter,
120' - Summer, Pressures - 35 psi to 60 psi for
 Pump operations

E. NARRATIVE/REMARKS/COMMENTS

1. This permit is for Stockwater from a well drilled in May 1987. The well is also the P/D for 61-07435, which serves 8 AC. of irrigation to the East of the well, and Stockwater.
2. The well pumps water to a Stock trough located about 200' East of the well, which is also a P/D for 61-07664. 61-07664 pumps surface water from Mud Springs Creek. The line to this trough is 1 1/2". The well also pumps water through another 1 1/2" line to another Stock trough located in the NENE Section 7. There are two Stock troughs on this system.
3. 75 Range Cattle use the water from Sept. 1 to July 1 each year.
4. At the time of the exam, The Stock trough located 200' East of the well was not there. The trough is placed there when the cattle are present. The pipe serving this trough was present at the trough site.

Have conditions of permit approval been met? ☒ yes ☐ no

APPROVED
FEB 11 1991

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method: None, Theoretical Cal.

The pump was sized to pump irrigation water for 61-07435.

For 75 Head

$Q_{allowed} = 0.03 \text{ cfs}$

Permit = 0.02 cfs.

$$Q = \frac{(8.8)(514P)(70\%)}{90' + (35 \text{ psi}) \left(\frac{34'}{14.7 \text{ psi}} \right)}$$

$$= 0.18 \text{ cfs} > 0.02 \text{ cfs.}$$

G. VOLUME CALCULATIONS

1 Volume Calculations for Irrigation:

$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$

Stock $V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (0.02)(365)(1.9835) = 14.5 \text{ AFA}$

$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} =$

2. Volume Calculations for Other Uses:

Stockwater: Sept. 1 to July 1.

$$Vol. = \left(\frac{12 \text{ GPD}}{1 \text{ Head}} \right) \left(\frac{75 \text{ Head}}{1} \right) \left(\frac{305 \text{ Days}}{\text{Ann.}} \right) \left(\frac{\text{AF}}{325,850 \text{ Gal.}} \right) = 0.84 \text{ AFA}$$

Allow 1.0 AFA

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Stockwater	01/01	12/31	0.02	1.0
Totals:			0.02	1.0

2. Recommended Amendments

☐ Change P.D. as reflected above

☐ Add P.D. as reflected above

☐ None

☒ Change P.U. as reflected above

☐ Add P.U. as reflected above

☐ Other

The first Plu on Permit is correct. The second Plu should be NENE, Sec. 7.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 61-07663

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Nina Shields
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 61-07663

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist
