BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

J. W. Zimmerman
(Applicant)

**NOTICE OF APPLICATION FOR
WATER PERMIT**

Notice is hereby given that J.W. GRIMMETT Route 1, Box 677 Mountain Home, ID has on August 23, 1977 submitted Application No. 57-7200 for a permit to appropriate 0.30 cubic feet per second of water from a groundwater source by means of pump, sprinkler system within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 12 T3S-R6E B.M., Elmore County to be used from Jan 1 to Dec 31 for stockwater and from Mar 15 to Nov 15 for irrigation of 15 acres within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 12 T3S-R6E B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Director of the Idaho Department of Water Resources, 92 South Cole Road, Boise, Idaho 83705 on or before September 19, 1977.

03S	06E	12	SESE	15		15

Total number of acres irrigated: 15

PLACE OF USE:

STOCKWATER, same as IRRIGATION use

CONDITIONS OF APPROVAL AND REMARKS

1. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
2. Stockwater use is for 6 horses and range cattle.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources. Signed and sealed this 18th day of

April, 2000.

MICROFILMED

APR 23 2000

Acting for KARL J. DRNER, Director

BEFORE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PETITION TO)
CORRECT WATER RIGHT LICENSE)
SUBMITTED BY J W. GRIMMETT)
_____)

**PRELIMINARY ORDER
CORRECTING LICENSE**

This matter having come before the Department of Water Resources ("Department") as a result of the filing of a petition to correct a water right license, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

- 1 When issued on November 15, 1977, Permit 61-07459 was approved for the irrigation of 15 acres and a stockwater use, with proof of beneficial use due on December 1, 1978.
- 2 Proof of beneficial use of this permit was submitted on March 2, 1978, stating all 15 acres of irrigation had occurred and the stockwater use was in place
3. On June 18, 1991, a Department field examiner ("examiner") conducted an examination to verify the water use developed in accordance with the permit. The examiner met with the right holder's spouse, not with the right holder. The examiner reported that water was being beneficially used for only 4.3 acres of irrigation and stockwater use.
4. The examiner completed a theoretical measurement on the irrigation system and found that the well could produce 0.22 cfs of water, which is sufficient for the irrigation of 15 acres
5. On June 3, 1992, the Department advised the right holder that a license would be issued for 0.14 cfs of water for the irrigation of 4.3 acres and stockwater use.
6. The Department did not receive a response from the right holder, and on July 10, 1992, the license was issued as proposed on June 3, 1992.
- 7 On December 7, 1989, the right holder submitted a claim for this water right in the Snake River Basin Adjudication
8. Department staff investigated the claim and recommended the claim as licensed for only 4.3 acres of irrigation and stockwater use.

MICROFILMED
APR 28 2000

- 9 When Department staff submitted the recommendation for decree for this right in the Snake River Basin Adjudication, the right holder objected to the recommendation. In his objection the right holder stated that all 15 acres of land had been irrigated from a groundwater source since 1972, along with the stockwater use
10. On June 9, 1999, J.W. Grimmett ("right holder") filed a petition to correct Water Right License 61-07459 ("license") by adding acres to the license which were irrigated during the permit development period.
11. September 17, 1980 NAPP infrared aerial photography shows irrigation occurring on all 15 acres identified in the permit. The lands also appear to be irrigated on a 1974 USGS ortho-photo quadrangle that pre-dates the permit.
12. Five citizens purporting to have knowledge of the right holder's irrigation practices have signed a statement describing water use on all 15 acres during the permit development period and that a well had been utilized to accomplish said irrigation since 1972.
13. In his June 9, 1999, petition the right holder states that he did not appreciate the significance of the field examination in the licensing process.
14. On April 12, 2000, the Department received a copy of a "Petition for Exclusion of Land to the Board of Directors of the Mountain Home Irrigation District". The petition identifies real property located in Elmore County and included the lands identified under this permit and owned by James Grimmett. Irrigation District officials stated the lands under this permit had been excluded from the District in 1977 when they received the petition.
15. On April 12, 2000, a Mountain Home Irrigation District official informed the Department that the Petition for Exclusion of Land was the official document which excluded the permit holders land from receiving irrigation district water and therefore, the only water available to the permit holder since 1977 was his groundwater.

CONCLUSIONS OF LAW

- 1 The Department issued License 61-07459 as described in the beneficial use field report based on the field investigation of June 18, 1991.
2. The beneficial use field report does not accurately portray the water use developed by the right holder in accordance with Permit 61-07459.
3. The Department should correct the license to show the beneficial use of water developed in accordance with the permit.

ORDER

IT IS HEREBY ORDERED that Water Right License 61-07459 issued by the Department on July 10, 1992, is **CORRECTED** by.

REVISING irrigated lands to 15 acres as developed under Permit No. 61-07459, and allowing the theoretical calculation of water that was found of 0.22 cfs during the field investigation and a maximum diversion volume of 60.0 acre feet of water per annum for irrigation purposes.

An Amended Water Right License shall be prepared to incorporate the corrections hereby ordered.

Dated this 18TH day of APRIL, 2000.

NORMAN C. YOUNG
Administrator, Water Management Division

State of Idaho
Department of Water Resources

Total number of acres irrigated: 4.3

PLACE OF USE: STOCKWATER, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.0 afa per acre for the lands above.

IN THE MATTER OF PERMIT
NO. 61-7459 IN THE NAME OF
J. W. GRIMMETT

ORDER ADVANCING
DATE OF PRIORITY

This matter having come before the Department of Water Resources (Department) as a result of preparing Permit No. 61-7459 for issuance of a license, the Department finds, concludes and orders:

FINDINGS OF FACT

1. The Department approved Application for Permit No. 61-7459 to appropriate the public waters of the State of Idaho with a proposed priority of AUGUST 23, 1977.

2. On APRIL 03, 1987 the Department advised the permit holder that a license examination fee was required before an examination could be conducted to confirm the extent of use developed under the permit. The examination fee was due on JUNE 02, 1987.

3. The license examination fee was received on JUNE 30, 1987, 28 day(s) late.

Microfilm

JUL 28 1992

CONCLUSIONS OF LAW

1. The Director may advance the priority date of the permit one day for each day the license examination fee is late, pursuant to the provisions of Section 42-217, Idaho Code.

2. The date of priority of Permit No. 61-7459 should be advanced 28 day(s).

ORDER

IT IS HEREBY ORDERED that the date of priority of Permit No. 61-7459 is advanced to SEPTEMBER 20, 1977.

Dated this 9th day of June, 1992.

Dear Claimant:

Enclosed are copies of the Notice of Completed Administrative Procedure and pertinent water right(s) recently sent to the Snake River Basin Adjudication Court in Twin Falls. These documents are now required to be filed by the Department in order to notify the Court of any changes to your water right.

The change to your water right was a result of an approved license. This notification to the Court does not affect the previous approval of this license or your water right. You will be notified of any future action on your water right by the SRBA Court or Water Resources.

Please contact this office if you have any questions concerning this notification.

Sincerely,

Adjudication Section

RE: Water Right No. 61-07459

Dear Water Right Holder:

The Department of Water Resources (the Department) has issued the enclosed amended license confirming that a water right has been established in accordance with the permit referenced above. The amended license, which supersedes the license issued on July 10, 1992, is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. The purpose of the amended license is to correct the number of acres which were irrigated during the permit development period. The preliminary order can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described in the enclosed information sheet.

If you have questions, please contact me at (208) 327-7946.

Sincerely,

A handwritten signature in cursive script that reads 'Shelley Keen'.

Shelley W. Keen
Water Rights Supervisor

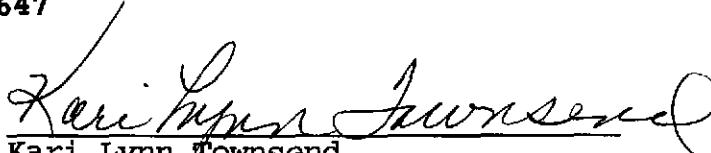

Enclosure

CERTIFICATE OF MAILING

I hereby certify that on the 19th day of April, 2000, I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (Approved License) to the person(s) listed below:

Water Right No. 61-07459

J W GRIMMETT
RT 1 BOX 677
MOUNTAIN HOME ID 83647

Kari Lynn Townsend
Secretary

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. **A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below.**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

CERTIFICATE OF SERVICE

All documents intended to be part of the Department record in connection with a preliminary order shall be served upon the representatives of each party of record. Every document filed with and intended to be part of the agency record must be attached to or accompanied by proof of service by the following or similar certificate

I HEREBY CERTIFY (swear or affirm) that I have this day of _____, served the foregoing (name(s) of document(s)) upon all parties of record in this proceeding, (by delivering a copy thereof in person: (list names)) (by mailing a copy thereof, properly addressed with postage prepaid, to: (list names)).
(Signature)

MICROFILMED

APR 28 2003

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when (a) the petition for reconsideration is disposed of, or (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

RIGHT TO HEARING

Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department is otherwise provided by statute, any person aggrieved by any decision, determination, order, or action of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the Department, who is aggrieved by a denial or conditional approval ordered by the Department, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the Department to contest the denial or conditional approval upon filing with the Department, within fifteen (15) days after receipt of the denial or conditional approval, a written permission stating the grounds for contesting the action by the director and requesting a hearing.

APPEAL OF FINAL ORDER TO DISTRICT COURT

If a preliminary order becomes final, any party aggrieved by the final order or orders previously issued in the case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which (a) a hearing was held, or (b) the final agency action was taken, or (c) the party seeking review of the order resides, or (d) the real property or personal property that was the subject of the agency action is located. The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. See Sections 67-5270 through 67-5273, Idaho Code.

PETITION FOR EXCLUSION OF LAND
 TO THE BOARD OF DIRECTORS OF THE MOUNTAIN HOME IRRIGATION DISTRICT:

The petition of James Grimmett and Marion Grimmett, husband and wife, Howard Gardner and Anna L. Gardner, husband and wife, Lucretia Phelps, Martin Rodriguez, Bryan Miller and Julie Miller, husband and wife, Richard Johnson and Christie Johnson, husband and wife, respectfully represents:

I

The above petitioners are the owners of the following described real property located in the County of Elmore, State of Idaho, and particularly described as follows:

That portion of the Northeast Quarter of the Southeast Quarter of the Southeast Quarter of Section Twelve, Township Three South, Range Six East, Boise Meridian, commencing at a point which is the Northwest Corner of said Northeast Quarter of the Southeast Quarter of the Southeast Quarter of Section Twelve, and running thence East a distance of 396 feet, thence running South a distance of 660 feet, thence running West a distance of 396 feet, thence running North a distance of 660 feet to the point of beginning, containing six acres, more or less.

The Northwest Quarter of the Southeast Quarter of the Southeast Quarter of Section Twelve, Township Three South, Range Six East, Boise Meridian, containing ten acres more or less.

A tract of land bounded as follows: Beginning at the Northwest Corner of the Southwest Quarter of the Southeast Quarter of the Southeast Quarter of Section Twelve, Township Three South, Range Six East, Boise Meridian, and thence running East 660 feet to the Northeast Corner of the Southwest Quarter of the Southeast Quarter of the Southeast Quarter of said Section Twelve; thence South 94.38 feet, thence West 660 feet, thence North 94.38 feet to the point of beginning, containing 1.43 acres more or less.

II

The above described real property comprises approximately 17.43 acres; that the above described lands are now located within the boundaries of the Mountain Home Irrigation District and form a part of said district. Portion of said lands will hereafter be

MICROFILMED
 APR 28 2000

used for residential purposes and will not be used as agricultural or farming lands. Other portions of said lands will remain agricultural but have an adequate water supply from other sources.

WHEREFORE, your petitioners pray that said lands be excluded from the boundaries of the Mountain Home Irrigation District and that an order be made and entered by the Board of Directors changing the boundaries of the district to exclude the above described lands.

DATED this 29 day of August, 1977.

RE: 61-07459

Dear Mr. Grimmett:

Pursuant to my conversation with Barry Peterson on April 3, 2000, the following information is being requested by the Idaho Department of Water Resources (IDWR) pertaining to the above-mentioned water right recommendation:

1. Any and all documents pertaining to the sale of your shares in the Mountain Home Irrigation District to Mr. Vernal Hawkes,
2. Any electric bills you may have saved pertaining to the pump for the well dug in 1977. Please include any bills you may have for the years 1977 and 1978.
3. Well log records for the well that was drilled in 1977.

If you have any technical questions, or other questions pertaining to this request, please contact Kay Walker in the Allocations Bureau at: 327-7944.

As you are aware, a Status Conference is set for April 14, 2000 at 10:00 a.m. This hearing will be conducted by telephone.

Thank you for your courtesy and cooperation.

Sincerely,

Becky J. Harvey

Re: 61-07459

Shelley

James Grimmett filed an objection in the SRBA for this water right recommendation. After looking at the file and talking with Kay, it appears that the way to resolve this subcase is to file a NAP and have the claimant/objector proceed with a request to amend the license.

My question is Is the document entitled "*To Whom It May Concern*" which has been signed by Mr. Grimmett's neighbors sufficient to start the re-examination of the license? If not, what exactly is needed?

There is a hearing set in the SRBA on **February 17, 2000** so we would like to get a NAP filed prior to that date so that the parties won't have to appear.

Attached for your information is the adjudication objection (referred to as the legal), claim and water right license files

Thank you.

Becky

OBJECTION TO WATER RIGHTS FINDINGS

Subcase 61-07459
James W. Grimmett
Mountain Home, ID
June 9, 1999

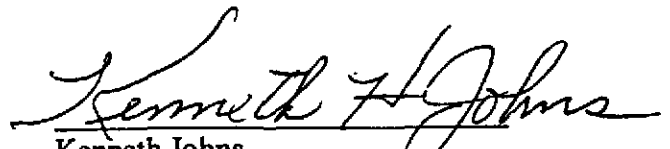

To Whom It May Concern:

When the water resource officer came around in 1992, we did not realize or appreciate the significance of her visit and she saw only the 4.3 acres that was then being irrigated. We wish we had given a more thorough history of the beneficial use of our water and land.

We purchased the land in 1963 from Mr. Vines and irrigated with water shares in the Mountain Home Irrigation District. We sold those shares to Vernial Hawkes and had a well-dug in 1972 from which we irrigated the full 15 acres. In 1977, we had a second well dug. From the 1977 well we irrigated the full 15 acres until the drought years of the early 1990s.

The following long time citizens of the area attest by signature to my irrigating the full 15 acres beginning in 1963 (including the period of Aug 23, 1977, through March 2, 1978) through the 1980s.

RE: Claim to a Water Right No. 61-07459

James W. Grimmett
Rt. 1, Box 677
Mountain Home, ID 83647

Dear Mr. Grimmett:

In response to the notice of error you submitted on the proposed recommendation of the above referenced claim, I offer the following information:

I have talked with the field examiner who conducted the examination of your irrigation system from your well, our regional supervisor and our State Office in regard to the license issued on the above referenced claim. In order to request an increase in the number of acres licensed under this right you will need to do a couple of things to initiate a reinvestigation of this water right.

1. You need to submit a request for this investigation. You should include the reason you believe the number of acres was incorrectly licensed and why the entire system was not shown to our examiner when she conducted her exam.
2. You need to include with your request some convincing documentation showing the total number of acres that were irrigated from your well during the permit period of August 23, 1977 through March 2, 1978.
3. All water right approvals, including amended licenses, are now issued as orders of the Department. Once issued, orders do not become final for 21 days after issuance. Because of this timeline, if you wish to pursue this matter you need to submit an objection to the Snake River Basin Adjudication Court in Twin Falls when you receive our final recommendation of this claim. We will be sending this Director's Report to the Judge next week so you should receive your notice soon. Be advised that I have not changed any of the information previously reported to you.

RECEIVED
FEB 23 2000

I am sorry I did not get this information out to you sooner. I have been busy preparing memos and having meetings to figure out what could be done to pursue your request. If you have any questions in regard to this, please do not hesitate to contact me. Also, if you wish to submit an objection to the Court, I can send the objection form out to you. If you don't take this action at this time, you will have no alternative but to submit an application for permit for an additional water right to irrigate the acres not covered under License No. 61-07459.

Sincerely,

A handwritten signature in black ink that reads "Kay Walker". The signature is fluid and cursive, with the first name "Kay" and last name "Walker" clearly distinguishable.

MEMORANDUM

DATE: February 3, 1999

TO: Kay Walker

FROM: Shelley W. Keen *SWK*

RE: Request to amend license 61-07459

I have reviewed your memo requesting that IDWR consider amending water right license 61-07459, which was issued to J. W. Grimmatt on July 10, 1992, to increase the authorized number of irrigated acres. In order to proceed, I will need the following items.

- A request signed by the right holder himself.
- Because the authorized development period did not extend beyond 1978, the 1987 NAPP photography cannot be used as the basis for amending the license. I will need good information demonstrating that more than 4.3 acres were irrigated prior to March 2, 1978, the date proof of beneficial use was submitted for the permit.
- Aerial photography is not necessarily a good indicator of the source of irrigation water. Therefore, I will need good information demonstrating that additional irrigated acres on Mr. Grimmatt's land were, in fact, irrigated with water from the source well for this right.

All water right approvals, including amended licenses, are now issued as orders of the department. Once issued, the orders do not become final for 21 days even if no petition for reconsideration is filed. Within 28 days of the order becoming final, the decision can be appealed to district court. Because of this timeline, it will not be possible to complete the licensing amendment process this week even if the required information is submitted immediately.

Memorandum

To: ~~Mr. Grimm~~

From: Kay Walker

Through: Gary Spackman, Regional Supervisor

Lg & Lori Graves, Field Examiner

Date: 01/05/99

Re: License 61-07459

In review of this file for recommendation in the SRBA, I prepared my recommendations based upon the field examination conducted by Lori Graves on June 18, 1991 and the License issued July 10, 1992. When our SRBA recommendations were sent out to Mr. Grimm, the license holder, he disagreed with my recommendations because he irrigates more land than the 4.3 acres licensed. ~~I asked Mr. Grimm why he had not contested the license when it was issued and mailed out to him. His neighbor piped up and stated that Mr. Grimm was not a fighter.~~

In review of the 1987 NAPP photo Mr. Grimm had irrigated more than 4.3 acres. His well had problems due to the drought and he quit irrigating all the land. When Lori conducted her exam, she called and set up an appointment to meet with the permit holder. When Lori arrived at their place Mrs. Grimm was busy in the kitchen and just pointed to the land being irrigated on the day of the exam. She did not offer any information in regard to the lands that had been irrigated previously under the permit. Lori conducted her exam and submitted her findings to the state office for licensing.

I am caught in the middle of this situation now. Mr. Grimm is not happy with the proposed recommendations; he cannot receive another water right for the extra acres due to this property being located in the Mountain Home Groundwater Management Area (established 11/1992); the land was irrigated on the 1987 NAPP photo which we base our SRBA recommendations on for beneficial use claims along with field examinations; drought conditions prior to the beneficial use examination could not be controlled by the permit holder.

I am attaching a GIS shape file which shows all of the land owned by Mr. Grimm and the 4.3 recommended acres. Please review this information and see if we can offer additional acres under this right which would require an amended license. Mr. Grimm has stated he had work done on his well and that it can now irrigate the entire place.

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

=====

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.
2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.
3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

$$1. \quad \frac{4.3}{\text{Found Acres}} \times \frac{4.5}{\text{Irr. Req.}} = \frac{19.35}{\text{AFA}}$$

$$* 2. \quad \frac{(10) \text{ HP} \times 8.8 \times (.50) \text{ EFF}}{(\underline{110}) \text{ Dyn Level} + (2.3 \times (\underline{40}) \text{ PSI})} = \frac{217}{\text{Theor. Div. Rate}} \text{ CFS}$$

$$3. \quad \frac{122}{\text{Theoretical Div. Rate}} \times \frac{246}{\text{Days in season}} \times 1.9835 = \frac{107.3}{\text{AFA}}$$

Note: for electrical motors

EFF = 0.70

for diesel motors

EFF = 0.60

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Re: Permit No. 57-7200

J. W. Grimmett
Route 1, Box 677
Mountain Home, Idaho 83647

Dear Mr. Grimmett:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Boise.

Sincerely,

JANICE RENK

Re: Notice of Application for Water Permit No. 57-7200 -- J. W. Grinnett

Mountain Home News
P. O. Drawer 0
Mountain Home, ID 83647

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due after allowing all just credits and that no part of the same has been paid."

(Signature of Claimant)

Please send the affidavit of publication and publication billing to this office before September 19, 1977.

Sincerely,

RITA FLECK
Secretary

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that J. W. GRIMMETT
Route 1, Box 677 Mountain Home, ID
has on August 23, 1977 submitted Application No. 57-7200
for a permit to appropriate 0.30 cubic feet per second ~~xxxxxx~~
~~per second~~ of water from a groundwater source
by means of pump, sprinkler system
within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 12 T3S-R6E B.M., Elmore County

to be used from Jan 1 to Sec 31 for stockwater and from Mar 15 to Nov 15
for irrigation of 15 acres
within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 12 T3S-R6E B.M.

If issued, this permit will be subject to all prior water rights. Pro-
tests against the granting of the permit must be filed with the Director of
the Idaho Department of Water Resources, 92 South Cole Road, Boise, Idaho
83705 on or before September 19, 1977.

C. STEPHEN ALLRED

Director
