NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that RICHARD A. WYLLEY &/OR LEE WYLLEY 5290 E. 24th N., Mtn. Home, ID has on 10-10-75 submitted Application No. 61-7241 for a permit to appropriate 0.44 cubic feet per second of water from a groundwater source by means of well and pump within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7, T. 3 S, R. 7 E, B.M. Elmore County to be used from Jan. 1 to Dec. 31 for domestic use and from Mar. 15 to Nov. 15 for irrigation of 20 acres within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7, T. 3 S, R. 7 E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, Statehouse, Boise, Idaho, 83720. on or before Nov. 10, 1975.

WATER RIGHT LICENSE

WATER RIGHT NO. 61-07241

Priority: October 10, 1975

Maximum Diversion Rate:

0.04 CFS

Maximum Diversion Volume:

1.2 AF

This is to certify, that RICHARD A WYLLEY

841-F POHUKAINA ST
HONOLULU HI 968135322

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated October 10, 1975; and has submitted Proof of Beneficial Use on October 31, 1977. An examination indicates that the works have a diversion capacity of .180 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

SENE, Sec. 7, Township 03S, Range 07E
ELMORE County

PLACE OF USE: DOMESTIC
TWN RGE SEC

03S 07E 7 SENE

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 30 day of FEBRUARY, 1993.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF EXTENDING THE PROOF DUE
DATE IN CONNECTION WITH PERMIT NO. 61-7241
IN THE NAME OF RICHARD A. WYLLEY &/OR LEE WYLLEY

ORDER

WHEREAS, on October 10, 1975, Richard A. Wylley and/or Lee Wylley filed with the Department of Water Resources an application for permit to appropriate 0.44 cubic feet per second of groundwater to be diverted within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7, Twp. 3S, Rge. 7E, B.M., Elmore County, to be used for domestic and irrigation purposes; and,

WHEREAS, on November 17, 1975, the Department approved said application and issued Permit No. 61-7241 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before December 1, 1976; and,

WHEREAS, on November 30, 1976, the Department received a request from the permit holders for an extension of time; and,

WHEREAS, it appears that under the circumstances, the permit holders have been proceeding with reasonable diligence and have given good cause for delay;

IT IS, THEREFORE, HEREBY ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 61-7241 be extended to December 1, 1977.

Dated this 2 day of December, 1976.

RE: Assignment of Permit #61-07241

Dear Mr. Wylley:

I am in receipt of the licensing amendment and fee on the above referenced permit. I note that you have marked out the name of Lee Wylley from the amendment form. In order for us to change the right holder of record and issue the license in your name only, an assignment of permit is required.

I have enclosed a partially filled out assignment form for your convenience. It must be signed and notarized, then returned to this office. I will withhold the file from processing 15 days to allow time for you to return the form. If I have not received the assignment by the end of that period the license will be issued with both names.

Regardless of whose name the license is issued in, the right will become real property and appurtenant to the land described on the license. Proof of ownership of the property is proof of ownership of the right.

If you have any questions in this matter, please contact me directly and I will try to assist you. Thank you for your prompt response in this matter.

Sincerely,

PAMELA SKAGGS
Water Resource Agent

RE: Water Right No. 61-07241

Dear Water Right Holders:

I am receipt of the information you provided regarding the irrigation portion of above referenced water right.

After careful review and consideration of the information provided and the evidence of the field examination, the Department finds no conclusive evidence of consistent irrigation beyond a domestic yard in more than the prior 5 irrigation seasons. There is evidence that in some years water was applied to more than just the yard area, however, the irrigation does not appear to be consistent enough to be recognized for this license.

I am recommending that the license will be issued as previously described on the licensing amendment sent to you on 05-12-92 and again on 06-05-92. An amendment is still required to correct the legal descriptions of the point of diversion and place of use to correspond with the Department's field examiner. Enclosed for your convenience is another amendment form in the event the previous ones have been misplaced.

Please sign and return the amendment with the \$20.00 filing fee. If I do not receive the amendment within fifteen (15) days, I will have no alternative but to proceed with canceling the permit.

I appreciate your concern in this matter and if you have any questions please feel free to contact me directly at 327-7943.

Sincerely,

PAMELA SKAGGS
Water Resource Agent

Dear Mr. Wylley,

In response to our discussion today concerning your inquiry about your irrigation history on land in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 7 T3S R7E, near Mountain Home, Idaho.

I reviewed the aerial photo records of the Agricultural Stabilization and Conservation Service (ASCS). The 1988 color slide of the area clearly defines demarcation lines between apparent pasture boundaries within the 10 acres. The 1990 color slide shows those same pasture boundaries as well as some green appearance to portions of the pasture.

I hope this information is useful to you, and please feel free to call 587-3616 or stop in if I can provide further information.

Sincerely,

July 7, 1992

Dear Sirs:

I was in the Real Estate business in Mountain Home for twenty years, from April 1971 through March 1991. Mr. Richard Wylley bought his property in the early '70s from Swearingen Real Estate. Mr. Wylley cleared and fenced the property within months after he purchased it.

The property has always been well maintained and does not have sagebrush on it. He has grown lots of corn and other vegetables on the property.

In 1988, '89, and '90 I drove by Mr. Wylley's property on a regular basis because one of my sales associates lives in the same subdivision. I noticed that the place, 5290 N. 24th E., was in good shape and remained green. The acreage was obviously being watered on a regular basis.

Mr. Wylley is a very good citizen, a retired military person and a man of his word. I feel that whatever misunderstanding has taken place should be quickly rectified before unnecessary costs and embarrassments occur.

Very truly yours,

Ron Swearingen

To Whom It May Concern:

I own the property adjacent to Dick Wylley's (5290 N. 24th E. in Mtn. Home) and have observed the irrigation of that property to grow feed for cattle during the summers of 1987 through 1989. I also observed another renter watering the land to provide feed for his horses in the summer of 1991.

Please feel free to contact me if I can be of any further assistance.

RE:

Office Visit in Response to Shank's letter
& licensing Amendment

Owner disputes examiner's findings & maintains that
±10 acres have been irrigated at least once every 5
years. Said that a few scattered sagebrush are
found along back end of land but not throughout
property.

I advised him to obtain info to verify irrig.
within 5 yrs. prior to 1991 exam. Recommended
ASCS as place to start. He will look for
photo coverage & also get letters from neighbors.

TO DO:

- 1) Photographs + ASCS. photo from orig. exam - by Owner
- 2) look at new info he will have id - by IOWA
- 3) 2nd field visit with owner present? - by IOWA
- 4) let Shank know to hold licensing process ✓

called her
today &
left msg.

SUBJ: Irrigation?

On June 29, 1992, Mr. Wylley made an office visit to comment on the field exam licensing recommendations and the amendment letter he received. During my field exam of the property 6/18/1991, I found only domestic/stock use of the well and and no irrigation except for a small lawn. Mr. Wylley now only owns 10 of these acres but insists that they have been irrigated within the last 5 years. At the time of the exam, Mr. Wylley's nephew told me that the last crop on the 10 acres was corn ~7 years ago. Mr. Wylley said that statement was false and is in the process of obtaining evidence of irrigation. At the time of the exam, Mr. Wylley was in Honolulu.

RE: Licensing Amendment Recommendations

On this date, I spoke with Steve Lester (Western Region). The right holders visited their office recently in response to the licensing amendment they received. They do not agree with the amendment (specifically, the removal of irrigation).

The Wylley's were told that they should submit evidence to show that water has indeed been used for irrigation. Upon submittal of the evidence, it will be reviewed to determine whether a re-examination or reconsideration of the original exam is warranted.

Steve asked that this file be placed on call-up for October 1.

RE: WATER RIGHT NO. 61-07241

Dear Water Right Holders:

We previously forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received the amendment. If we do not receive it within fifteen (15) days, we will assume you no longer have any interest in the permit and cancellation proceedings will begin. Enclosed for your convenience is another amendment form in the event the first one was misplaced.

If you have any questions, please contact us.

Sincerely,

PAMELA SKAGGS
Water Resource Agent

System Description (continued)

3. **Narrative:** Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

A 8" submersible well supplies water to domestic trailer home and lawn. The surrounding acres have not been irrigated for at least 1 year according to Dick's nephew which was obvious due to the lack of irrigation means for the acres and the existing sagebrush. The well also supplies water to 2 horses.

If answer to Item 5 is Yes, describe in remarks and attach photo.

Remarks: SUBMERSIBLE USED FOR DOMESTIC

FEB 17 1993

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

=====

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.
2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.
3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

1.
$$\frac{.06}{\text{Found Acres}} \times \frac{4.5}{\text{Irr. Req.}} = \frac{.27}{\text{AFA}}$$
2.
$$\frac{(5) \text{ HP} \times 8.8 \times (.70) \text{ EFF}}{(200) \text{ Dyn Level} + (2.3 \times (23) \text{ PSI})} = \frac{.12}{\text{Theor. Div. Rate}} \text{ CFS}$$
3.
$$\frac{.12}{\text{Theoretical Div. Rate}} \times \frac{246}{\text{Days in season}} \times 1.9835 = \frac{58.6}{\text{AFA}}$$

Note: for electrical motors
EFF = 0.70
for diesel motors
EFF = 0.60

Data Requires Verification ☐
Measurement Required -- ☐
Measurement Not Required ☒

Calculation data sources:

Found acres = .06
HP = 5 HP
Dyn Level = 200 - well log est.
PSI = 23 - owner's est.

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

MAILED
JUN 28 1987

FEB 17 1993

page 2

Examination Fee Notice

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is available from the department upon request. A listing of certified water right examiners is also available.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

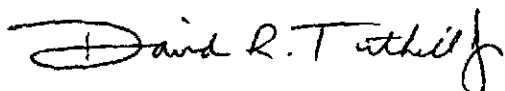

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The license examination fee schedule, on the back of the enclosed information sheet, shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be returned to this office. If you have questions or concerns please feel free to call at (208) 334-2190, or to visit the office at our new location near the airport, at 2735 Airport Way.

Sincerely,

Dear Mr. Wylley:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Boise.

Sincerely,

JANICE RENK

Re: Permit No. 61-7241

Richard A. &/or Lee Wylley
5290 N. 24 E.
Mountain Home, Idaho 83647

Dear Mr. & Mrs. Wylley:

One of the conditions of approval of your water Permit No. 61-7241 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

RE: Application for Permit No. 61-7241 - Richard A. Wylley &/or Lee Wylley

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear in the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

--- (Signature of Claimant) ---

Sincerely,
