STATE OF IDAHO DEPARTMENT OF WATER RESOURCES

JUN 20 1983

CLAIM TO A WATER RIGHT

Department of Water Resources

Western Regional Office
Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983 Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim

Wells

Gentlemen:

This office acknowledges receipt of your correspondence concerning the above referenced claims to a water right. The Department will not schedule a hearing in the matter or evaluate for conformation or censure the right claimed, since Section 42-244, Idaho Code, states in part the following:

"At anytime after the filing of a claim, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources."

If we can be of further assistance, please contact us.

Very truly yours,

DAVID B. SHAW

Western Regional Supervisor

RE: Claim No. 61-4143

Dear Claimant

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244. IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or surporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly

DAVID B. SHAW Western Region Supervisor

Dear Mr. Wells:

In researching our records on your water rights per my letter of February 21, 1984, I found only one application for permit filed for domestic, commercial and irrigation purposes. However, the fees you have submitted to date for the one application total \$105 and the fee for the application is only \$45.

At the time I wrote my letter in February I did not know another application had been filed. I returned your claim forms recommending an application for permit be filed on the commercial and domestic and the irrigation portion be left on the claim. The other claim filed for wastewater also needed more information per the copy of my letter enclosed.

If you do not wish to file any more water rights than the application for permit now holding pending the outcome of Idaho Power's lawsuit over Swan Falls, then please notify us and the \$60 fee previously sumbitted with the claims will be refunded to you. If you are going to file the two claims along with another application for permit covering the three acres mentioned in my last letter then an additional \$30 fee needs to be submitted with the completed form.

If we do not hear from you within three weeks, your \$60 fee will be refunded. Please contact us if you have any questions.

Sincerely,

JAN GROVER

Senior Water Resource Agent

February **7**, 1984

Philip I. Wells Box 83 Mountain Home, ID 83647

Dear Mr. Wells:

We are now in the final processing of the claims received in our June, 1983 mandatory claims filing program. Before we can process your claims some additions and changes need to be made.

The claim for irrigation of 3 acres plus commercial use reflects that the commercial use in the store and restaurant began in 1975. Persuant to the Idaho Code a claim cannot be filed for a groundwater source if the date of first use is later than March 25, 1963. Any later uses must file an application for permit even though the system is in and operating. The irrigation use of 3 acres can be left on the claim and processed with the 1956 priority date. However, the commercial use will have to be included on the enclosed application for permit form. I have completed this form for you and it now needs your signature on page 3. Please note on Item No. 7, I have put one year as your system is now completed.

Your use is within the drainage basin of the Snake River above Swan Falls which is now involved with our Department in a law suit over Idaho Power Company's water rights at Swan Falls. Therefore, we are holding all applications being filed until the law suit is resolved. You can establish a priority date by filing now. However, whether or not your application is approved depends on the outcome of the law suit mentioned above. There is a fee for filing an application for permit and it is based on the amount of water being filed on. The Department recommends certain amounts of water for commercial establishments. For a restaurant, store with restrooms and campground with restrooms and showers the Department allows 0.09 cubic feet per second. The fee for this is \$30 and is circled on the fee schedule on the back of the enclosed instruction sheet. Note that the claim form has been changed to indicate only the irrigation use. Please

Philip I. Wells February 7, 1984 Page 2

initial these changes asterisked and return the claim with the application.

Your other claim for wastewater also needs more information before processing can continue. Under Item No. 1, date of priority, it would be to your advantage to find the earliest date the water was put to the beneficial use claimed. If this date cannot be located we will have to list 1950 as the first date. Under Item No. 2, I have changed the source to just show wastewater. Please complete the tributary of this item, which would be the river or creek the wastewater flows into if not contained. On Item No. 3 we need an amount of water which would be the average amount. If this is unknown, then the usual amount recommended for irrigating one acre is one miner's inch of water. For 20 acres this would be 20 inches or 0. Cubic feet per second. The period of use would be during the irrigation season for your area. Even though you may not use it for this entire season, it would include whatever portion of the time you did use the water. The irrigation season for your area is March 15 to November 15. Please make the necessary changes and initial each change.

If you have any questions concerning these filings, please do not hesitate to contact us.

Sincerely,

JAN GROVER Senior Water Resource Agent
