Dear Madam:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office you will be further notified as to fees due before the issuance of your license.

Mildred E. Schofield
Mountain Home, Idaho

Dear Madam:

This will acknowledge receipt of notice in duplicate for publication in connection with beneficial use proof, and also your authorization to have the notice published in the Idaho Statesman, Boise, Idaho, all in connection with Permit No. 17614.

A copy of the notice was mailed to the newspaper with instructions to publish it once a week for four consecutive weeks prior to October 24th, 1938; however, there was some slip-up and the notice did not get published in last Sunday's paper. For this reason we have changed the date for your proof to October 31st, and unless we hear from you this week to the effect that this date does not meet with your convenience, the notice will be so published in next Sunday's issue of the Statesman.

About ten days prior to this date depositions, consisting of one for the holder and one each for two witnesses, will be mailed to Frank Farley, Notary Public, Mountain Home, Idaho, so that he will have them in ample time for the proof.

On the date designated you should appear at Mr. Farley's office with two disinterested witnesses who are familiar with the terms of the permit and the works constructed thereunder, for the purpose of executing the depositions.

Very truly yours,

Dear Sir.

While in your office Monday
the 26th of Sept.

I returned some papers to ~~you~~ your office
in regard to my Application for Permit No. 17614
my papers were for completion of works.

I understood it was to be put in the
newspaper of the County I gave the Boise
statesman. but so far it has not ~~appeared~~
been printed. as we take all the papers
Sunday and Daily.

I was told that Oct. 24 I was to go before
a Notary Public with witnesses.
but it has to be advertised 40 days before
the hearing.

Please tell me if I am mistaken in regard
to this.

my completion of works does not expire
until the 10th of december.

I have already given you my report of
the completion of work and paid my 5.00
and my check has been cashed.

Do I get the same copies of the Boise statesman
as you do. maybe it was missed in the paper
they send us. as I have been told they print
a second copy for out of town people.
if it has been advertised and you can find it
send me a clipping. so I can go in and pay for it
the next time I come to Boise.

Thanking you for all your kindness

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mildred E. Seofield
Mountain Home, Idaho

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. 17614 you are required to complete your diversion works on or before December 10, 1938. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. Paris

Dear Sir,

I received some Papers from you in regard to final proof on my Water permit, the papers were delayed for some cause for just a week, they were post marked Boise the 6th and Mt. Home the 12th and I received them the 13th of October.

Mr. Schofield and I came to Boise about the middle of Oct. or in just a few days after receiving the papers, as soon as we could get away from the Ranch, as we were very busy, and asked for an extension of time to make our final proof, as our work is not yet completed, and the lady in your Office fixed up an extension paper allowing us 2 years more, and said a notice would be in the paper, but we have seen no notice in the statesman or Capital News, and we take both papers, as the lady and gentleman in your office said it would be O.K. we supposed every thing was fixed up, as we have received no other word from you.

The Number of my permit is 17614

You were not in the office, but the Lady said she could take care of the extension for us.

Will enclose stamp for reply.

I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided, the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS
