

**NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10:00 a. m. on the 5th day of September, 1945, at Mountain Home, County of Elmore, State of Idaho, before James A. O'Neill, county recorder, proof will be submitted of the application to beneficial use of 300 acre feet per annum of the waters of Warm Springs creek, a tributary of Bennett Creek, in accordance with the terms and conditions of Permit No. R-722 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the persons or corporation holding said permit are A. B. Hall, Glenns Ferry, Idaho.

The use to which said water has been applied is irrigation and domestic purposes.

The amount applied to beneficial use is 300 acre feet per annum.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 23; E $\frac{1}{2}$ SE $\frac{1}{4}$, Section 22; NE $\frac{1}{4}$, Section 27; W $\frac{1}{2}$ NW $\frac{1}{4}$, Section 26; all in Township 4 South, Range 8 East, B M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is No name.

The right to take water from such works is based upon Permit No. R-722. The source of supply from which such water is diverted is Warm Springs Creek, a tributary of Bennett Creek.

The date of priority which said user is prepared to establish is April 7, 1942.

MARK R. KULP
State Reclamation Engineer
(8-23)

AFFIDAVIT OF PUBLICATION

State of Idaho }
County of Elmore } ss.

Rupert L. Cline, Publisher of the Glenns Ferry Gazette, being first duly sworn, on his oath deposes and says:

That he is and was during all of the times hereinafter mentioned, the publisher and printer of the GLENN'S FERRY GAZETTE, which was and during all of said times hereinafter mentioned, a newspaper of general circulation, published weekly and regularly at Glenns Ferry, in the County of Elmore, State of Idaho, and that the notice of which the annexed is a true and correct copy, has been published in said newspaper for a period of 3 weeks, commencing on the 2nd day of

August, 1945, and ending on the 23rd

day of August, 1945, both dates inclusive, and in each and every one of the consecutive issues of said newspaper during said time and that said notice so appeared in

four consecutive issues of said newspaper.

That said notice was published in the newspaper proper and not in a supplement thereof;

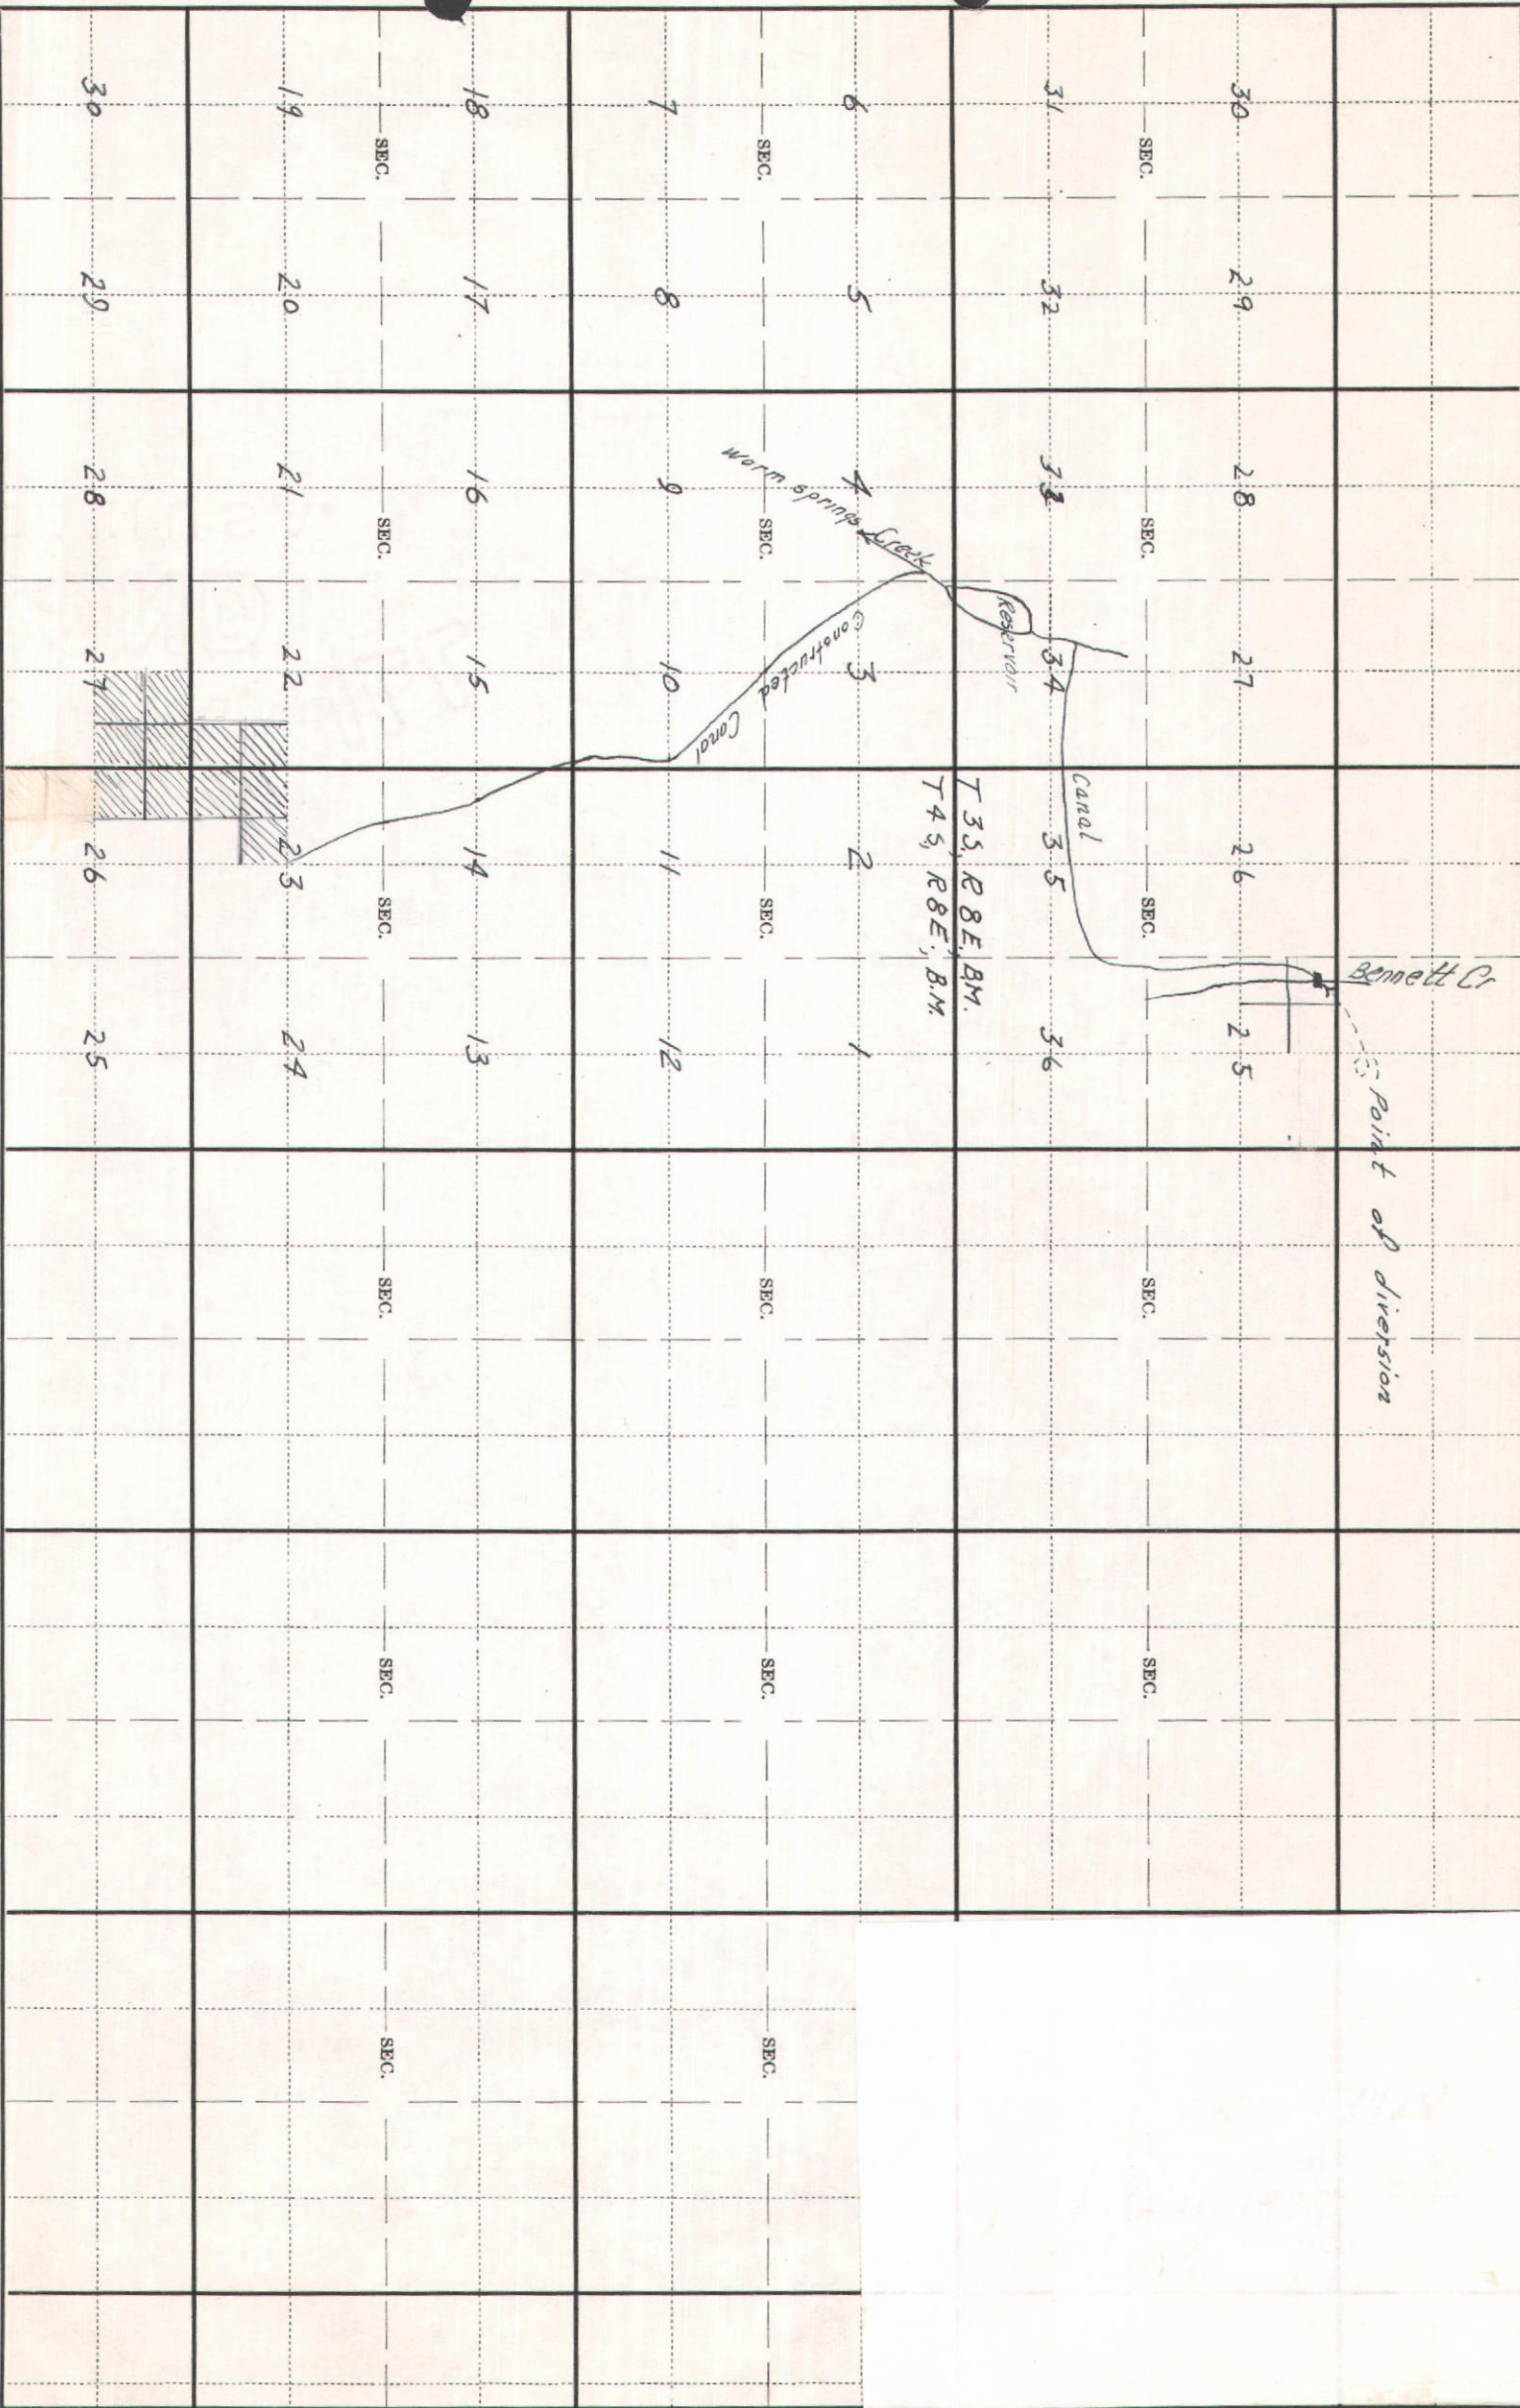

That said Glenns Ferry Gazette has been continuously and uninterruptedly published and of general circulation at and in Glenns Ferry, County of Elmore, State of Idaho, during a period of more than seventy-consecutive weeks prior to the first publication of said notice.

APPLICATION FOR PERMIT

To Construct a Reservoir and Store and Appropriate
The Public Waters of the State of Idaho

61-2225

Application No. R 26762
Permit No. R 722

1. Name of Applicant: **A. B. HALL**
- Postoffice address: **Glenns Ferry** County **Elmore** State **Idaho**
- I. If applicant is a corporation, give:
 - (a) Date and place of incorporation:
 - (b) Amount of Capital Stock: \$
 - (c) Amount paid in: \$
 - (d) Names and addresses of directors:
- II. The financial resources of the corporation are:
 - (a) Cash on hand: \$
 - (b) Treasury Stock: \$
 - (c) Bonds to be issued: \$
 - (d) Other resources:
2. Quantity of water to be stored: **300** acre feet per annum.
3. Source of water supply is **Warm Springs** (Creek) (River) (Spring), a tributary of **Bennett** River.
4. The outlet of the proposed reservoir is located **S 84°35'E/** feet, distant from the **NW** corner of Section **3**, Township **4 S**, Range **8 E**, B. M. and is in the **NW ¼ of NW ¼ of Section 3**, Township **4 S**, Range **8 E**, B. M. County of **Elmore**
5. Fill out either (a) or (b).
 - (a) The reservoir is located in the channel of **Warm Springs** (Creek) (River).
 - (b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located (bearing) feet distant from the corner of Section , Township , Range , B. M., and is in the ¼ of ¼ of Section , Township , Range , B. M.; width at bottom feet, width at top feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.
6. (a) The area of the high water line of the reservoir is **28.5** acres.
- (b) The reservoir capacity is **164.07** acre feet.
7. Height of reservoir dam **30** feet, length at top **1800** feet, length at bottom **81.5** feet, size of outlet **1** diameter feet by feet. The dam is to be constructed of materials as follows: **concrete core wall yellow clay loam in upper half of structure; upstream face rip rap with lava rock, sand, gravel, and clay in lower half of structure;**
- (If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)
8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of **Warm Springs Creek** (Creek) (River) ? **No.**
- (b) Water stored in reservoir will be carried in the channel of **Warm Springs Creek** (Creek) (River) a distance of **3/8** miles to point of diversion located **S 6°58' W, 1976'** feet, distant from the **NE** corner of Section **4**, Township **4 S**, Range **8 E**, B. M., and in the **SE ¼ of NE ¼ of Section 4**, Township **4 S**, Range **8 E**, B. M.
9. Amount of water claimed from (Creek) (River) (Spring) in addition to that stored in reservoir cubic feet per second.
10. Water is to be used for **irrigation and domestic** purposes.
11. If for mining, milling, power or manufacturing purposes give:
 - (a) Point of use of water (bearing) feet, distant from Corner of Section , Township , Range B. M. and is in the ¼ of ¼ of Section , Township , Range , B. M.
 - (b) Amount of power generated: **H. P.**, under feet head.
 - (c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet distant from the corner of Section , Township , Range , B. M., in the ¼ of ¼ of Section , Township , Range B. M.
12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. , which is hereby referred to and made a part hereof.

13. Kind of diversion works: **dam and headgate**

(Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: **2** feet, length at top **50** feet, length at bottom **50** feet. The dam is to be constructed of materials as follows: **concrete and rock**

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width **4** feet, Height **2** feet.

16. Diversion Canal: Width at bottom **3** feet, width at water line **6** feet, depth of water **1** feet, Dimensions of Flume **none** Diameter of Pipe inches; Length of Conduit **1 3/4** miles. Average grade per mile **30** feet.

17. Estimated cost of Works: Storage Works: \$ **4,000.00** Diversion Works: \$ **100.00**

18. Time required for completion of work **5** years.

19. Time required for complete application of water to proposed beneficial use is **2** years.

20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
4 S	8 E	23									40	40	40						120
		22													40			40	80
		27	40	40	40	40													160
		26					40	40											80
																			440

Total Number of Acres to be Irrigated

Remarks: **Supplemental late water right for 440 acres now irrigated from Bennett Creek**

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and store and appropriate the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

Re: Permit No. 61-2236
License No. 61-2092 & 61-2225

Bennett Creek Ranch, Inc.
Box 686
Mountain Home, Idaho 83647

Gentlemen:

This office has received the assignments of permit submitted in connection with the above referenced permit and licenses.

The assignment for Permit No. 61-2236 has been recorded, however, we wish to advise you that the Department has no procedure for changing the records of ownership once a permit has been licensed. When a license is issued, it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the sales transaction.

We will place the executed assignments in our files for future reference as to present ownership under Licenses 61-2092 and 61-2225.

We also acknowledge receipt of the proof affidavit submitted for Permit No. 61-2236. Before a license can be issued, it will be necessary for a field examination to be made by a representative of the Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time the exam is conducted so that you may show him the system.

Should you have questions regarding the above matters, please feel free to contact us.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

Re: Permit No. R-722

Mr. Carl E. Tappan
State Reclamation Engineer
State House
Boise, Idaho

Dear Mr. Tappan:

An examination was made February 25, 1965, of a reservoir dam constructed about 1906 in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 3, Township 4 S., Range 8 E., under the above permit, and belonging to A. B. Hall. The original dam was constructed to a height of about 20 feet and a short time later was raised 12 feet. The upper face of the dam is riprapped. The outlet is constructed of concrete with an opening of approximately 1' x 1.5' at the outlet end. It is equipped with a metal gate, with sloping stem operated from the top of the dam. The raised dam was constructed to a length of about 1/2 mile, with a crest width of approximately 6 feet. Some time later, an extension of this dam was made at the eastern end, approximately 800 feet long but at an elevation about 3 feet lower than the main structure. A short time previous to viewing this dam water had overtopped the extended easterly portion and had also run around the easterly end, causing considerable downcutting. This overflow had very recently been stopped by dozing rough earth fills on the extended portion as well as around its easterly end. The planned spillway at the western end of the dam had been raised with 2" x 12" planks set on edge and held in place with steel pins driven into the ground.

The water surface stood at about four feet below the main dam. Wave action had sluiced the earth from behind the riprap and allowed it to settle to below the crest in many places. The width of the crest had been eroded to a width of about 3 $\frac{1}{2}$ feet at one point.

The main dam is covered with a heavy growth of large sage

R-722

brush. The structure appeared to be quite impervious to seepage, only one small seep area was observed below the dam.

This dam should be repaired by:

1. Removing the brush from the crest and the upstream face of the main dam.
2. Rebuilding the crest to a full 6 foot width and constant elevation.
3. Clearing obstructions from the planned spillway at the westerly end of the main dam.

Very truly yours,

HORTON G. HAIGHT
Field Engineer

Re: Permit No. R-722

Mr. A. B. Hall
Glenns Ferry, Idaho

Dear Mr. Hall:

We enclose herewith License and Certificate of Water Right issued under your Permit No. R-722 confirming your right to store and appropriate 164.07 acre feet per annum of the waters of Warm Springs Creek, a tributary of Bennett Creek, with priority of April 7, 1942, for irrigation and domestic use on 369 acres in the N $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 23; E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 22; NE $\frac{1}{4}$ of Section 27; and W $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 26, Township 4 South, Range 8 East, B.M., Elmore County.

We are also enclosing Departmental Receipt No. 19830 for the \$22.00 fee in connection with beneficial use proof.

Re: Permit No. R-722

Mr. A. B. Hall
Glenns Ferry, Idaho

Dear Mr. Hall:

We have on file the report of the field engineer on examination for Proof of Beneficial Use under your Permit No. R-722.

This report shows that you are irrigating 369 acres of land in the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 22, NW $\frac{1}{4}$ SW $\frac{1}{4}$ and W $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 23, and W $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 26 and NE $\frac{1}{4}$ of Section 27, Township 4 South, Range 8 East, B.M.

Therefore, upon receipt of the statutory fee of \$22.00, being at the rate of \$2.00 for each legal subdivision in which the land is located, a license will be issued for 164.07 acre feet per annum of the waters from Warm Springs Creek, a tributary of Bennett Creek.

Very truly yours,

REPORT OF ENGINEER

Permit No. R-722

This proof is for Beneficial use

In Water District No. ..

1. Name of applicant A. B. Hall, Glens Ferry, Idaho
2. Source of water supply: Warm Springs Creek, a tributary of Bennett Creek outlet
3. Location of point of diversion: Is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3 ..
T. 4 S. R. 8 E. County of Elmore
4. Describe works as they exist, giving dimensions and capacities of same: An Earth Dam 2600 feet long, maximum height 32 feet, 2-1 slopes, 6 feet top width; Standard type gate control on 2-1 slope, set in concrete. An earth channel Spillway 50 feet wide and two feet deep. Outlet tunnel 14" X 18" of reinforced concrete.
Diversion from the creek channel consists of a reinforced concrete dam 3Ft. high X 100Ft. long; and a ditch 4 feet wide X 1 $\frac{1}{2}$ feet deep.
5. Water is used for: Irrigation and domestic purposes
6. State whether or not water has been turned into works of diversion: Yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):
N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 23;
E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 22;

Permit No. R-722

Examination for Beneficial use

County.....Elmore.....

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make a plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

Re: Permit No. R-722

Mr. A. B. Hall
Glenns Ferry, Idaho

Dear Mr. Hall:

We acknowledge receipt of the depositions of yourself and two witnesses, also the affidavit of publication from the Glenns Ferry Gazette, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in the matter the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this department, will try to contact you at the time he makes the examination, so that you may arrange to show him over the grounds.

Very truly yours,

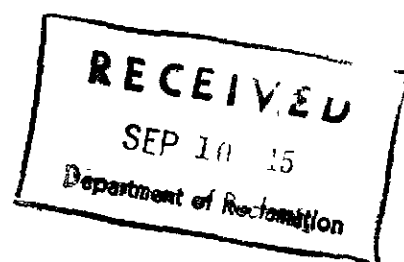

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. R-722

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. A. B. Hall, Glenss Ferry, Idaho, Farmer, Glenss Ferry, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. R-722 April 16, 1942 April 7, 1942

Ques. 4. State source of water supply and give exact location of point of diversion

Warm Springs Creek, a tributary of Bennett River S 6°58' W. 1976' distant from the NE corner of Sec. 4 Twp. 4 S. Range 8 E.B.M. and in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 4 Twp. 4 S Range 8 E.B.M., Elmore County, Idaho. The resevoir outlet is located S. 84°35' E 302.5 ft., distant from the NW corner of Section 3, Township 4 S. Range 8 E.B.M., and is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of said Section, Township and Range. R-722

Ans. Dam 2 ft. high, 50 ft. long at top and 50 ft. long at the bottom, constructed of concrete and rock. The diversion ditch is 3 ft. wide at the bottom, 6 ft. wide at the water line with water depth of 1 ft. The length of the ditch is $4 \frac{3}{4}$ miles with an average grade per mile of 30 ft. and is capable of conveying from the point of diversion to the place of use 12 second feet of water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use. The water is used for domestic and irrigation purposes. The water appropriated under this permit

is available for the following 440 acres: NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 23; NE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22; NE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 27; and NW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 26 all in Twp. 4S R8E.B.M., Elmore County, Idaho. The N $\frac{1}{2}$ SW $\frac{1}{4}$ of Sec. 23 and the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Sec. 22, have been cleared of sage brush, plowed, levelled and 100 acres of these subdivisions planted to crops which were matured by the application of this water thereon. Main laterals have been constructed across the north side of these subdivisions and secondary laterals on these lands. The remainder of the 440 acres is natural meadow land upon which this water has also been applied.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. No other use except domestic.

R-722

R-722

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 3 acre feet for irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. By personal application for beneficial use of the same.

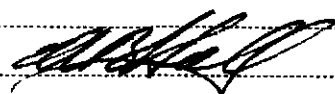

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ques. 10. All the water stored and diverted through the diversion works and the main lateral running across the upper end of the tract and other laterals appropriately located on the lands under this permit, was first used in the fall of 1939 and thereafter throughout the irrigation seasons of 1940, 1941, 1942, 1943, 1944 and 1945 for the purpose of irrigating cultivated crops and meadow lands. In the years 1939 through 1942, both inclusive, I stored under this permit and applied to beneficial use upon these lands an average of in excess of 90 acre feet. In the years 1943 and 1944, I stored under this permit, and applied to beneficial use upon these lands 440 acre feet; thus far during the irrigation season of 1945 I have stored under this permit and applied to beneficial use upon these lands 300 acre feet.

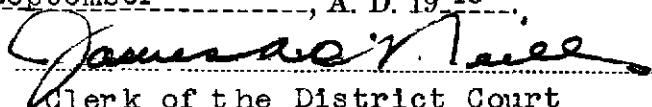

By so using this water to supplement my decreed and flood water rights from Bennett Creek, I have been able to prepare and plant in crops an additional 100 acres as well as apply to approximately 160 acres of meadow hay land water needed for this acreage.

Ques. 11. The past fifty year through ditches constructed for such purpose, myself and my predecessors in interest have diverted and applied to a beneficial use both flood and decreed water rights in Bennett Creek on practically all of these lands, except the 100 acres cleared of brush, levelled and planted to crop as explained in Answer to Question No. 6.

My decreed right in Bennett Creek is for 640 inches of water with priority dates of April 1, 1879, for 150 inches; April 1, 1882, for 140 inches; April 1, 1885, for 100 inches; April 1, 1886 for 20 inches; May 1, 1886 for 10 inches and April 30, 1893, for 220 inches.

~~NOT A VALID DOCUMENT~~

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. R-722

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Samuel S. Blackwell, age 45. Cold Springs Creek, Elmore

County, Stockman. Glenns Ferry, Idaho.

Ques. 2. Are you acquainted with A. B. Hall, the holder of Permit No. R-722 ? How long have you known him and where does he reside?

Ans. All my life. He resides Bennett Creek 12 miles northwest of Glenns Ferry, Elmore County, Idaho

Ques. 3. Have you read or heard read said Permit No. R-722, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use. Warm Springs Creek, S 60° 58' W 1976 feet distant from the NE corner of Sec. 4 Twp. 4 S R8 E.B.M., and in the SE 1/4 NE 1/4 of said Sec. 4 is place of diversion. The works conveying the water from point of diversion to place of use consists of a headgate four ft wide and 8 ft. high. A dam 2 ft. high. 50 ft. long at top and also at bottom, constructed of concrete and rock. The diversion ditch is 3 ft. wide at bottom, 6 ft. wide at the water line with water depth of one ft. The ditch is 4 3/4 miles in length with an average grade per mile of 30 ft.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 12 second feet 12 second feet

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for domestic purposes and irrigating the NE 1/4 SW 1/4, NW 1/4 SW 1/4, SW 1/4 SW 1/4 Sec. 23; NE 1/4 SE 1/4, SE 1/4 SE 1/4 Sec. 22, NE 1/4 NE 1/4, NW 1/4 NE 1/4, SW 1/4 NE 1/4, SE 1/4 NE 1/4, Sec. 27 and NW 1/4 NW 1/4, SW 1/4 NW 1/4, Sec. 26 all in Twp. 4 S R8 E.B.M. Elmore County, Idaho, and the entire acreage in each subdivision has actually been irrigated with said water.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For no other purpose except incidental domestic use.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land which has been reclaimed is a loam formation, nearly level and was covered with sage brush. I estimate 3 acre feet is required for its profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. From 1939 to 1945 I have driven by this property about three or four times a month and have observed the work done in cleaning the land of brush, levelling, plowing, planting, irrigating and harvesting crops on about 100 acres as well as applying the water to the meadow land.

Mr. James O'Neill
County Recorder Elmore County
Mountain Home, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. R-722

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On Sept. 5, 1945, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Mountain Home, Idaho before James O'Neill, County Recorder

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

MARK R. KULP

Glenns Ferry Gazette
Glenns Ferry, Idaho

Gentlemen:

We acknowledge receipt of a copy of your issue of August 2nd, containing notice of beneficial use proof to be made by A. B. Hall on September 5, 1945, which we find to be correct as published.

There was an error, however, in the letter we sent enclosing this notice, as it should be published four times, instead of two-which would make the publication August 2, 9, 16 and 23rd.

Will you please publish the notice four times, instead of twice.

Thanking you, we are,

Very truly yours,

**NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10:00 a. m. on the 5th day of September, 1945, at Mountain Home, County of Elmore, State of Idaho, before James A. O'Neill, county recorder, proof will be submitted of the application to beneficial use of 300 acre feet per annum of the waters of Warm Springs creek, a tributary of Bennett Creek, in accordance with the terms and conditions of Permit No. R-722 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the persons or corporation holding said permit are A. B. Hall, Glenns Ferry, Idaho.

The use to which said water has been applied is irrigation and domestic purposes.

The amount applied to beneficial use is 300 acre feet per annum.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 23; E $\frac{1}{2}$ SE $\frac{1}{4}$, Section 22; NE $\frac{1}{4}$, Section 27; W $\frac{1}{2}$ NW $\frac{1}{4}$, Section 26; all in Township 4 South, Range 8 East, B M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is No name.

The right to take water from such works is based upon Permit No. R-722. The source of supply from which such water is diverted is Warm Springs Creek, a tributary of Bennett Creek.

The date of priority which said user is prepared to establish is April 7, 1942.

MARK R. KULP
State Reclamation Engineer
(8--2.9)
