Dear Sir;

I am returning to you herewith the application for transfer of Water Right in the name of F.G. Farley. I am withholding my signature from this application for following reasons:-

(1) There is a long standing contention in regard to the total amount of water delivered or to be delivered each and every year under the decree. The several Watermasters have undoubtedly tried to make make a fair distribution of the Canyon Creek Waters, but Mr Farley has claimed to me that he has been deprived of some water due him every year for years. In view of the foregoing and the record of water distributed under the decree, it is my opinion that a better and more authoritative determination of the water yield under the decree should be made. This determination should indicate more water under the decree than the amounts on record in order to show justification for the increased acreage applied for.

(2) Certain water users now contend that they will be damaged by the Transfer applied for. These include Mountain Home Irrigation District.

(over)

(3) I am not at all certain that the following allegations will prove to be 'factual':-

- (1) the use of water will not be discontinued
- (2) No lands will be abandoned.

(4) I do not choose to enter into the controversy which I expect to see develop over this application. I do not feel that sufficient information is available to me to justify my taking a stand either for or against this application.

- trust that I have made my position clear.

Very truly yours
Lewis W. Threiner
