Dear Mr. Kreutzer:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ~~Mountain Home News~~ all submitted in proof of completion of works and beneficial use on Permit No. G-29948.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Re: Permit No. G- 29948

Emil Stegemann
Airway Trailer Ct.
Route #1, Box 12
Mountain Home, Idaho

Dear Mr. Stegemann:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29948 are due not later than **July 18, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

State Reclamation Engineer

Re: Permit No. G-29948

Mr. Emil Stegemann,
Airway Trailer Court,
Rt. 1, Box 12,
Mountain Home, Idaho.

Dear Mr. Stegemann:

We enclose Permit No. G-29948 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

Departmental Receipt No. G-6238, which was issued covering payment in the amount of \$5.00 for the filing fee of the above mentioned permit, was given to you while in our office.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

Very truly yours,

GEO. N. CARTER

Re: Application for Permit

Eril Stegemann
Airway Trailer Court
Route #1, Box 12
Mountain Home, Idaho

Dear Mr. Stegemann:

Returned herewith is your application for permit with attached check for \$10.00.

The quantity of water claimed must be shown in a unit of flow of water. You show five acres of land however you claim the water is to be used only for domestic use. For domestic use only, you can claim 0.1 cubic feet per second or 45 gallons of water per minute to provide for future use. Any water license you may obtain under the permit will depend upon the capacity of your pump or pumps or upon beneficial use of the water, which ever is least. You can also show irrigation if you desire.

Kindly complete the sketch maps enclosed, showing the location within the section, township and range or enclose two plats of Garrett's Addition which show your location and also the section subdivision, township and range and the location of the wells.

The application must be signed on page 3. The fee for the application will be \$5.00.

Very truly yours,

GEO. M. CARTER
State Reclamation Engineer
