Dear Mr. Tappan:

I wish to explain my water-filing as you will note I applied for .84 C.F.S. and am now filing for only .67 C.F.S. This is due to that being the amount my pump produces under present 15 H.P. motor, and also the amount of land I am applying the water to. If there are any further questions please let me know and I will come to Boise if necessary.

Sincerely yours,

Dear Mr. Toppa:

In filling out my application for final proof on water, under permit no. G. 28227 I set date of Sept 28, which I figured would allow necessary time to allow the publication in weekly newspaper, Glenns Ferry Gazette for the four consecutive weeks as required, and would be sufficient time to complete final proof before Oct. 26, 1964.

Hoping I have properly filled in necessary information. The amount of water filled for is the amount that was measured on Nov 20, 1961 by field man of your Department using water meter.

Dear Mr. Steen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28227 are due not later than **Oct. 26, 1964**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

RE: Permit No. G-28227

Mr. J. Wilson Steen
Box 871
Glenns Ferry, Idaho

Dear Mr. Steen:

This is to inform you of the results of the discharge measurement made on your well November 20, 1961. The measurement was made through our Sparling Meter No. 6219.

Pump discharge = 0.84 c.f.s. or 42 miner's inches; temperature 64°.

Also, a discharge measurement was made on your hot spring with the Sparling Meter. The measurement was made approximately 100' south of your house where the hot water discharges into an open ditch through a 6" steel pipe.

Spring discharge = 0.80 c.f.s. or 40 miner's inches; temperature 144°.

Hope you will find this information useful.

APPLICATION FOR PERMIT TO APPROPRIATE SUBTERRANEAN WATERS

(WELLS)

Enclosed: Application (Form No. 3) for Permit to appropriate the Subterranean Waters of the State of Idaho - together with pamphlet "Regulations and Instructions" and two blank plats for sketch maps.

To complete a water right, two proofs are required:

Proof of Completion of Works and Proof of Beneficial Use of the water. These proofs become due at the same time, however, they may be made at any time after the application is approved. The maximum time allowed (question 10) is five years. You should allow ample time for completion of works and beneficial use of the water.

Before filing your application with this department, be sure that all questions are answered fully and that the name and complete address of the applicant is given. If an agent is to handle all matters pertaining to the permit, please insert his or her name in the upper-right-hand corner of the first page of the application.

Include the following with your application:

Forms No. 0 - sketch maps, in duplicate. The maps are to be drawn in ink, and by cross-hatching or in color show the lands to be irrigated (or the place of use) within each 40-acre subdivision. Give the section number, township and range, and clearly show the location of the point of diversion (well).

Filing Fee - In accordance with the amount of water filed on--
rate given in pamphlet.

Note: Question 6 (a) should be filled in when the application does not include irrigation water.

Question 11 is to be filled in only by corporations or associations.

After the application is approved and signed by the State Reclamation Engineer, the Governor and the Secretary of State, it will be returned to you as a "Use Permit".
