Re: Permit No. G-25688

Mr. Paul Hostetler
Route #1, Box 272
Mountain Home, Idaho

Dear Mr. Hostetler:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-25688 shows the well located in Lot 19 of Section 36, Township 3 South, Range 6 East, and that it is capable of conveying 1 miners' inch (.02 c.f.s.) of water for domestic use. The point of diversion (well) is described on record of the permit as being in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 36, therefore, it is necessary that the permit be amended. We enclose an application for amendment to point of diversion for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totalling \$10.00, we will issue the Certificate of Completion of Works and the License and Certificate of Water Right (fee, five dollars each) confirming the right with priority of May 13, 1955, to the use of .02 second foot of subterranean water, with the point of diversion in Lot 19 of Section 36, for domestic use in Lot 19 of Section 36, Township 3 South, Range 6 East, B.M.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Action is personal rather than corporate.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit #25688 dated May 24, 1955. Priority Date, May 13, 1955

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Unknown subterranean source. Location, 1307' South and 87' East of the Northwest corner of Sec. 36, Township 3S, Range 6E, RM.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well, drilled and cased. 27 feet deep cased with 7" steel pipe, perforated at various depths. Delivery is made with 1/3 HP direct drive electric pump, 1750 RPM with 1" intake and 3/4" discharge. Water level is 8' 6" below surface of ground. Flow capacity measured with a five-gallon capacity bucket, which fills in 25 seconds from a 1/2" faucet at 25 PSI pressure. Can deliver 12 gallons per minute at the pump.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic purposes and for lawn and garden sprinkling. Not in excess of the allowable minimum of 13,000 gallons per day.

Mr. Paul Hostetler
R.D. #1, Box 272
Mountain Home, Idaho

Dear Mr. Hostetler:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25688, to be made at Mountain Home on the 22nd day of May at 10:00 A.M., before W. W. Sanders, Notary Public.

As of this date we have mailed the Notice to the Mountain Home News with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder. The information especially required (using the data published in the Notice as your guide) is:

The time, the date, the place, and before the Notary named in the Publication.

The signatures of the Holder and Witnesses and the Notary's seal are essential.

It is also very necessary that each question be answered in detail.

In returning all the depositions (holder's and two witnesses) to this office, please be sure to enclose the Affidavit of Publication.

Very truly yours,

RE: Permit No. G-25688

Date March 1, 1958

Mr. Paul Hostetler
Mountain Home, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-25688 are due not later than May 21, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

Dear Mr. Hostetler:

We acknowledge your letter of May 13, 1957, in which you requested an extension of time for making proofs of completion of works and application of water to beneficial use in connection with the permit captioned above.

We enclose an "Application for Extension of Time" and ask that you fill in the total cost expended on your water right as of this date and note if the other statements are correct.

Please sign it before a notary and return to this department. We can then allow you another year for making the proofs of completion of works and beneficial use. Do this as soon as possible so that your right will not be jeopardized by not having the extension granted in time.

Dear Mr. Kulp :

I am returning herewith the proof claims and affiliated papers in connection with the permit for water use #G-25688 which you sent me some time ago.

I find that at this time I am not financially able to finish the proof and pay the advertising and related costs, due to some unforeseen circumstances. I do have the installation completed, and in operation. The cost of installation was slightly less than I had anticipated, but due to my inability to pay the balance of the cost to complete the filing of proof at this time, I am wondering if it might be possible to get an extension of approximately 90 days.

Please advise if such an extension of time can be permitted.

Yours truly,
