WATER RESOURCES
WESTERN REGIONNOTICE OF CHANGE OF ~~WATER RIGHT~~ OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are on the back of this page.

Incomplete forms will be returned.

1. Water Right No(s): 57-07584, 57-07635, 402-10138, 57-10494, 57-10493, 57-07631, 402-10137, 57-10496, 57-07186, 57-07220, Transfer 3628, 02-02384, A57-11527, 55-10234, 55-04021, 55-02094, 155-13663, 55-13677, 55-10346,
Adjudication Claim No(s): 55-10203

2. The following REQUIRED information must be submitted with this form:

A. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE or other legal document indicating your ownership of the property and water rights or claims in question, WITH ATTACHED LEGAL DESCRIPTION.

AND

B. PLAT OF PROPERTY or SURVEY MAP for parcel of ten acres or less. (These are usually attached to your deed or on file with the county.)

OR

C. For water rights or adjudication claims involving ten or more irrigated acres, a USDA Farm Service Agency AERIAL PHOTO with irrigated acres outlined and point(s) of diversion clearly marked.

3. Name and Address of Former Owner/Claimant

4. ~~New Owner/Claimant(s)~~

Joe Parkinson

Name Connector (Check one): ☐ and, ☐ or, ☐ and/or

OWYHEE County

PLACE OF USE: STOCKWATER

TWN RGE SEC

04S 02E 14 Lot 2(NWNW)

PLACE OF USE: DOMESTIC

TWN RGE SEC

04S 02E 11 Lot 2(SWSW)

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

Comments: Date: 2/12/1997 User-ID: SLESTER

Subject: ADDITIONAL INFORMATION

Two existing wells in same QQ. Appears that 1988 well (drilling permit 57-88-W-0012 issued for D/1) and 1994 well (drilling permit 57-94-C-0006 issued for irrigation re 57-07584) will be used for 1 home and up to 105 range cattle & horses. Irrigation well used on land shown in cross-hatching on map. No d.p. follow-up required. Irrigation right is via T4237 issued in early 1994. Other phone numbers: 408-654-0940 (CA work) and 208-342-5827 (local residence?).

Per Nov. 1994 personal conversation with GLS @ S.O.: can approve up to .04 cfs exempted use in GWMA but not beyond that flow rate for 42-111(1)(a) without justification. Note that .04 cfs allows up to 29 afa, which is more than enough volume for proposed uses. This reviewer does not recommend approval exceeding .04 cfs.

Replied by

Comments: Date: 5/27/1997 User-ID: SLESTER

Subject: FINAL CLARIFICATION

Per applicant's 4-22-97 e-mail message: only the north well will be used for home & stock. The south well is for irrigation in T4237 (57-07584) & is n/a to new application.

North well is d.p. 57-88-W-0012; well log shows 8", 123' cold water well.

Domestic is for 1 home and stock is for 105 range cattle and horses.

Disregard 2-12-97 Comments that indicate two intergrated wells. No drilling permit followup is needed.

Limit approval to .04 cfs, which provides more than enough volume for uses within GWMA.

Applicant overpaid (\$100 for .24 cfs originally filed) & \$50 overpayment to be applied to transfer that will be needed for right 57-07631 (see my 4-7-97 letter to applicant about overall water right issues).

Department of Water Resources

WATER RESOURCES
WESTERN REGIONNOTICE OF CHANGE OF ~~WATER RIGHT~~ ^{ADDRESS} OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are on the back of this page.

Incomplete forms will be returned.

1. Water Right No(s): 57-07584, 57-07635, 402-10138, 57-07631, 402-10137, 57-07186, 57-07222, Transfer 3628, 02-02384, 457-11527, 55-10234, 55-04021, 55-02094, 155-13663, 55-13677, 55-10346,
Adjudication Claim No(s): 55-10203

2. The following REQUIRED information must be submitted with this form:

A. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE or other legal document indicating your ownership of the property and water rights or claims in question, WITH ATTACHED LEGAL DESCRIPTION.

AND

B. PLAT OF PROPERTY or SURVEY MAP for parcel of ten acres or less. (These are usually attached to your deed or on file with the county.)

OR

C. For water rights or adjudication claims involving ten or more irrigated acres, a USDA Farm Service Agency AERIAL PHOTO with irrigated acres outlined and point(s) of diversion clearly marked.

3. Name and Address of Former Owner/Claimant

4. ~~New Owner/Claimant(s)~~

JOE PARKINSON

Name Connector (Check one): ☐ and, ☐ or, ☐ and/or

New Mailing Address

123 W. Highland View Dr.

City, State and ZIP Code

Boise, ID 83702

New Telephone Number

(208) 342-5827 ; Fax 208-345-1817

5. Date you acquired the property

6. If you have acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). If this applies, describe in detail your portion of each water right or adjudication claim in the spaces below. If necessary, attach additional pages.

Number of acres you irrigate _____ Number and type of stock _____

Diversion rate in CFS _____ Number of homes _____ Other uses _____

If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.

7. Signature of New Owner or Claimant(s)

Sept 15, 1998

(Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.)

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims..

RE: WATER RIGHT NO. 57-07635

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

FILED
FEB 23 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name and title.

Shelley W. Keen
Water Rights Supervisor

MEMORANDUM

TO: File 57-07635

FROM: Sharla

DATE: January 20, 1998

RE: Recommendation Adjustment(s)

The final license recommendations for Permit No 57-07635 are based on the following.

H RECOMMENDATIONS

Stockwater	1/1 - 12/31	0.04 cfs	0.7 afa
Domestic	1/1 - 12/31	0.04 cfs	1.2 afa
	TOTALS	0.04 cfs	1.9 afa

Volume for stockwater for 102 cattle for 150 days/year = 0.6 af, for a total stock volume of 0.7 af.

Examiner: Dan Tomich
Exam Date: November 6, 1997

E. NARRATIVE/REMARKS/COMMENTS

1. The water system consists of an 8" well, and a ~~800'~~^{500'} 2" PVC buried pipeline, which supplies water to one stock trough and 1 home.

The system is controlled by an air tank, and pressure switch + gauge located in the house.

2. The system operating pressure is 30-60 psi.

3. 102 range cattle and 3 horses use the system. The cattle are normally using the ~~the~~ water during the late fall and winter period; Nov. 1 to April 1. The horses are there 12 months / year.

Have conditions of permit approval been met? ☒ yes ☐ no

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 57-07653

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's WESTERN Regional Office in Boise at (208) 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "Julie L. Yarbrough". The signature is written in dark ink and is positioned above the printed name and title.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 57-07635

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

MICROFILMED

AUG 19 1997

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

Subj: Water Rights

Dear Steve,

Thanks for your letter of April 7.

1. With respect to 57-07570 (Pixley), please let me know if they will simply add the stockwater onto the water right, and then I can drop my Late Claim.

2. On 57-07631 (well # 4 at Snake River for stock water), I amended it as Ron suggested; if you prefer a transfer, that would be fine. I sure appreciate your offer to draft a transfer for me, and I look forward to receiving it. You guys have surely been great to work with.

3. On 57-07635 (Cove domestic/stock) and 57-07584 (Cove irrigation), what you describe in your letter is correct. The northern well (57-07635) is domestic only for one house and the stock water tank; the irrigation is (57-07584) is irrigation only; and the two are not connected together.

Please call me any time at 408-954-0940; fax 408-727-0530. Best regards, Joe Parkinson

RE: WATER RIGHT FILINGS IN OWYHEE COUNTY

Dear Mr. Parkinson:

Several matters have come up regarding three water rights for portions of your Owyhee County land ownership. This letter outlines the items and suggests the best courses of action to address your concerns.

PERMIT NO. 57-07570, PIXLEY CREEK

Recently, Shelley Keen of the department's state office ("Orchard Street") relayed your concern about the inclusion of stock water use in this irrigation permit. There appears to be a solid foundation suggesting that stock use can be part of the right.

The proof of beneficial use for the permit was filed on November 29, 1993. The regional office will schedule a licensing field examination this spring to verify the extent of development in the permit. Your stock water concern will be given every consideration during that field exam.

PERMIT NO. 57-07631, BONUS COVE RANCH WELLS (Sec. 15)

You filed an application for amendment on February 5, 1997 to change the place of use plus slightly increase the number of stock covered by this permit. Apparently, a new well was added to two existing wells within the terms of the permit to serve a common pipeline system.

The two older wells are evidenced by recently decreed right nos. 57-10493 (domestic and stock uses) and 57-10496 (domestic). All of the wells for the decreed rights and permit are within T4S R2E Sec. 15.

The proof of beneficial use for this permit was filed on January 6 of this year. By definition, completion of the proof filing precludes additional development under the permit. However, the licensing field examination can also be conducted for this permit. Once the permit is licensed, your amendment application can be modified into a transfer application to accommodate your proposed changes. The transfer application should also add the third well to the two decreed rights since all of the wells constitute a common system (to be confirmed via field examination).

MICROFILMED

AUG 19 1997

April 7, 1997
Page 2

The licensing field exam will be scheduled this spring by this regional office. Once the licensing report is prepared, I will draft a transfer application for your consideration. Meanwhile, this office will hold the amendment application and will apply the \$50 amendment fee that you paid to the upcoming transfer filing.

**APPLICATION FOR PERMIT NO. 57-07635
BONUS COVE RANCH WELLS (Sec. 14)**

On January 21, 1997 you filed an additional application to establish a new domestic and stock water right from two existing wells located in T4S R2E Sec. 14. There followed several e-mail messages between you and Ron Howerton of this office to clear up some confusion about the setup of the wells and uses per well.

It appears from your information that the southern well is the irrigation diversion per Transfer No. 4237 (License No. 57-07584), while the northern well has served the stone house and stock uses listed in this application. You stated that the wells are not hooked together.

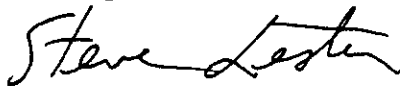

Therefore, it appears that Application No. 57-07635 should reflect just the northern well to be used for the stone house and stock uses. The filing will be modified to include that well but not the other one (stated two existing wells in your application). Please let me know within ten days if that conclusion is incorrect.

SUMMARY

I hope this letter clarifies some of these details regarding the above water rights scenarios. No action is needed on your part unless my conclusion about no. 57-07635 is incorrect. In that event, please contact me by calling 208-334-2190 or via e-mail (slester@idwr.state.id.us).

Thank you for your patience in these matters. Please let me know if you have any questions or concerns.

Sincerely,

Steve Lester
Water Rights Supervisor

Subj: Re: REPLY TO BONUS COVE WELL RESPONSE

Ron, thanks, the limitation to 0.04 is no problem. I just want to be sure my limited use there is legal, whatever the limit may be, and that I have proof of it in case I ever decide to sell the property, as it will certainly be worth more if all these water rights are clearly established. Thanks again for your help. Joe

Joe,

Thanks for clearing up the Stone House well and irrigation well.

Steve originally asked me if both wells were hooked up and I didn't think they were...

He asked me this in regards to your application 57-07635, he was starting to process it when it appeared to him that possibly both wells were connected.

Since you cleared this issuse up, any other questions Steve may have will probably only be related to the new application.

I asked him what was the main issue? He said that this will be limiting the application to 0.04 CFS for both uses because its in a Ground Water Management Area.

So for new water uses that started after the area was designated a Groundwater management area in (1982), IDWR may only approve it as 0.04 for Domestic and up to 0.04 CFS for Stock Water for with the total of only 0.04 CFS for the combined uses.

Exempt uses such as Small Domestic and Stock require a drilling permit, but not an appropriation permit. Since you do want to document the uses, as in this case, IDWR has to limit it.

For non-exempt uses like irrigation from groundwater, a person

had to transfer that use in from another groundwater management area like you transferred for irrigation. (Or transfer within the same groundwater management area) You transferred irrigation from another groundwater area for your right A57-07584, from Richard Reineke's groundwater right A51-02192A. Then after the transfer was approved, you needed a well drilling permit.

So, I thought I would bring you up to date on why I asked you about the 2 wells.

Ron Howerton

Subj: Re: BONUS COVE WELLS

Ron, the irrigation well has never been hooked up for domestic purposes to the stone house. The irrigation well is a large pump and I believe could only be used for irrigation. I just called Russ to confirm that is the case, and he confirms it. I am unclear how there could be confusion on this point.

The domestic well has been used for the stone house ever since it was constructed (in 1993 or 1994 as I recall); then for the stock tank that was added (in 1995 as I recall). That is the sole purpose of the domestic well. That domestic well was dug back in the late 80's but then not used as I decided against building the house in the location that would have been several hundred yards up river from the present location (as I did not want to be so high above the river). Once the stone house was built at its present location, we used the domestic well.

The irrigation well was actually drilled and installed as I recall after the stone house was built, so the stone house would have already been using the domestic well before the irrigation well was dug. Again, as far as I know these two wells are not connected. Please call if there are further questions. Telephone # 408-654-0940. Joe

Joe,

I had a few questions about the 2 wells at Bonus Cove Stone house area.

When I did the field exam in December 1994, Russ showed me the Irrigation well and land it irrigated.

During the exam he said that the irrigation well was also used for the Domestic Stone House. Was this correct?

He didn't tell me that the original Domestic was planned to be hooked up later or if it was being used at that time.

Was the Domestic well between the irrigation well and the Stone House hooked up later or at that time?

If so, when was it hooked up?

Does the irrigation well and the Domestic well now connect in a way that both can be used for the home?

If both can be used for the Stone House, then are they both be used for the irrigated land? Claim A57-07584?

I gave Steve Lester your E-mail address, he will be asking you

some other related questions for the application you sent in in January. 57-07635.

If he does send some questions, please respond to his questions separately.

Thanks,

Ron Howerton
