State of Idaho
Department of Water Resources
Water Right License

WATER RIGHT NO. 57-07614

Priority: March 30, 1995

Maximum Diversion Rate:

0.33 CFS

This is to certify, that CITY OF MARSING

PO BOX 125

MARSING ID 83639-0125

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated March 7, 1995; and has submitted Proof of Beneficial Use on June 24, 1996. An examination indicates that the works have a diversion capacity of 0.330 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
MUNICIPAL	01/01 to 12/31	0.33 CFS	

LOCATION OF POINT(S) OF DIVERSION: Lot 1(NWNW), Sec. 3, Township 02N, Range 04W
OWYHEE County

PLACE OF USE: See Remarks

CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
5. Place of use is City of Marsing and surrounding service area.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 27th day of MAY, 1998.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 57-076-14 Telephone No. 208-896-4122

2. Name(s) of Permit Holder(s): City of Marsing

3. Mailing Address: P.O. Box 125, Marsing, Id 83639-0125

4. Source of Water: Well If GROUNDWATER (well), Date Drilled: mo. 4/25 yr. 95

a. Well Driller: Pete Cope Drilling Permit Number: 57-95-415-0

b. OPTIONAL:

Pump Horsepower: 7.5 Pressure (psi): 3.2 Dynamic pumping level (ft): 130

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: _____ cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes ✓ or No _____

Has the measuring device been installed?

Yes ✓ or No _____

Flow Measurement Port: Is a flow measurement port required?

Yes _____ or No _____

Has the measurement port been installed?

Yes _____ or No _____

8. Fee Enclosed: \$ 100.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: John Larsen Telephone Number: 208-896-4205

Address: Box 125 MARSING ID.

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder:

John Larsen Mayor 6-10-96

Permit To Appropriate Water

NO. 57-07614

Proposed Priority: March 7, 1995

Maximum Diversion Rate:

0.40 CFS

This is to certify, that CITY OF MARSING

PO BOX 125

MARSING ID 83639-0125

has applied for a permit to appropriate water from: GROUNDWATER

and a permit is APPROVED for development of water as follows:

BENEFICIAL USE

PERIOD OF USE

RATE OF DIVERSION

MUNICIPAL

01/01 to 12/31

0.40 CFS

LOCATION OF POINT(S) OF DIVERSION: Lot 1(NWNW), Sec. 3, Township 02N, Range 04W
OWYHEE County

PLACE OF USE: See Remarks

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 1996.
2. Subject to all prior water rights.
3. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
5. Construction of the well must comply with Idaho well construction standards.
6. The issuance of this right in no way grants any right-of-way or easement across the land of another.
7. Place of use is City of Marsing and surrounding service area.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

TEST WELL & OVERLAP

Per 3/24/95 telecon with city engineer Mike Holladay, a test well is to be drilled in SWNESW, S34, T03N, R04W but this is not a point of diversion. Only the proposed production well in NWNW, S1 is the P/D (aka Well #7).

City has additional wells, including but not limited to Well #1 in same QQ plus well(s) in Canyon County, for which water is piped across river @ bridge.

RE: WATER RIGHT NO. 57-07614

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

MICROFILMED

JUN 9 1988

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

Shelley W. Keen

E. NARRATIVE/REMARKS/COMMENTS

A 14" well equipped with a 7.5 HP
submersible pump helps supply water
to the city of Marsing. The water is
pumped into a aeration tank then
booster pumped into a 76' high water
tower. The water is then delivered
to Marsing's municipal system
via 6"-8" mainline. At this time,
this well and an older well supply
the system (57-04003)

The purpose of the aeration tank is
to allow the water to breath off
methane and hydrogen sulfide and
also allow the sand to settle.

No other rights are used except
statutory claims 57-04003 for the
older well. The claim listed the P/O
in the NENE, but was corrected in the
SRBA to the NWNW.

Have conditions of permit approval been met? ☒ yes ☐ no

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 57-07614

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since the proof was received after the proof due date of June 1, 1996. Please note that the priority date has been advanced to March 30, 1995.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, contact the **WESTERN** Regional Office in Boise at (208) 334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

ACTUAL NUMBER OF CONNECTIONS*: 370

Is this figure correct? ☒ Yes ☐ No

If No, indicate the correct number of connections: _____

* Connection Definition: Each structure, facility, or single family residence connected to a water system, and which is or could be used for domestic water purposes, is considered a single connection. Multi-family dwellings and apartments, condominiums, and office complexes are considered single connections unless individual units are billed separately for water by the water utility, in which case each such unit shall be considered a single connection.

Based on the number of connections shown above, your FFY 1997 Annual Fee Assessment is:

FFY 1997 Annual Fee Assessment: \$1,480.00

Annual fee assessment notices will be mailed by September 1, 1996 and are due by October 1, 1996. If your system has 250 connections or more, you may pay on an annual, quarterly, or monthly basis. If the form is not returned, the system's annual fee assessment billing will be based on the number of connections shown above.

LAPSE NOTICE

RE: PERMIT NO. 57-07614

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1996. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

March 31, 1996

CITY OF MARSING
PO BOX 125
MARSING ID 836390125

PROOF DUE NOTICE

RE: PERMIT NO. 57-07614

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 57-07614

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit Is Approved

Date 3-28-95

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

RECEIVED

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum distance of 50 feet and 100 feet respectively from a septic tank.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. The well drilled under this permit shall not be pumped for production purposes until a water right approval is issued.

MAR 22 1995

WATER RESOURCES
WESTERN REGION

Dear Rob.

I am writing this letter to explain the emergency which exists at the City of Marsing. In the 1980's the city drilled wells across the river from Marsing in Canyon Co. in hopes of finding water with no natural gas which is common to the Owyhee Co. area around the town. These wells served the City until 1994 when they became affected by excessive surface water contamination. The high nitrate levels caused us to put the citizens on notice of high nitrate levels and we told the DEQ we would find another source for the city's water needs and went back to well no. 1 which had been taken off line as it is high in methane and hydrogen sulfide. We applied modern technology to this well and began to use it again as it passed all the IOC, SOC and VOC tests. We began to study existing wells in the area for data leading us to a new site and have been plagued with the problems which led the city to go to Canyon Co. earlier, that is gas and sand.

What has happened is that we have run out of time. Well No. 1 lacks the capacity to supply the city when we have the large influx of migrant workers as this has the effect of tripling our population in the summer months. The only option we have to get more water by May is to drill another well at the same site about 50 feet from well No. 1. We are wishing to do this because, we know we have the technology to handle the water from this well site. The water will pass DEQ requirements; The well will be on property owned by the city and dedicated to this use; We feel there will be no water rights impact on other users near us as all the people near the new well are on city water and depend on our success not on wells of their own.

We are hoping for at least 60 gallons per minute as this will get us by until another more viable well site can be developed.

We are asking for you to have mercy on us and issue the well permit without the water rights inquiry as we have to act quickly to have any hope of getting this well on line before we start running out of water. We feel this 8 inch well cannot produce much impact on the aquifer. We know it is our fault for not getting our engineers to get the paper work in sooner, but were ignorant of the time it would take to get the permit. We here hope you can make an exception in our case and we "throw ourselves on the mercy of the court"

Cecil Bish
