CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.
6. Commercial use is for a 50-space RV park, bath house and laundromat.

RE: WATER RIGHT NO. 57-07588

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

SEP 11 1997

MICROFILMED

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen".

E. NARRATIVE/REMARKS/COMMENTS

- Well #1 - An 8" well drilled in 1992 supplies water to 1 home and can be used for emergency back-up for the RV Park. This well has become a secondary well for the park due to poor production. A better 8" well was drilled in 1994 and serves only the RV Park. The well was not plumbed to the home.
- Well #2

Well #1 (just N of home) is equipped with a 5HP submersible pump and 100 gal pressure tank. Well #2 (W of well #1, next to HWY) is equipped with a 1.5HP submersible pump and utilizes a 400 gal storage tank and booster pump.

The RV Park consists of 50 spaces, 1 bath house (4 showers, 4 toilets), and a laundromat (10 washers, 1 toilet, 1 sink basin). Amounts used in the volume equations are estimates based on owner info and IDWR tables.

57-10174 represents another 8" well that serves 2 trailers on the property (separate system). Gerni Irrigation water from the Snake River is used for irrigation. No other water uses are used.

2. Volume Calculations for Other Uses:

int ext domestic use : 1.2 afa

Commercial use:

RV Spaces
 $50 \times 25 \text{ GPD/space} = 1250 \text{ GPD}$
 $1250 \text{ GPD} \times 365 \text{ days} = 456250$
 $456250 / 325850 = 1.4 \text{ afa}$

Bath House
 $50 \text{ people/day} \times 10 \text{ GPD} = 500 \text{ GPD}$
 $500 \text{ GPD} \times 365 \text{ days} = 182500$
 $182500 / 325850 = .6 \text{ afa}$

Laundromat
 $25 \text{ loads/day} \times 50 \text{ GPD} = 1250 \text{ GPD}$
 $1250 \text{ GPD} \times 365 \text{ days} = 456250$
 $456250 / 325850 = 1.4 \text{ afa}$

CAUTION: DO NOT use pump in applications not intended by the manufacturer.
To do so may cause premature failure of pump. Pump is not designed for use when failure occurs under these conditions.

Tested and certified according to Water Systems Association standards.

NOTE: Pumps installed with a GON AIRE Pump require a 100 PSI relief valve. Pumps installed with a conventional tank require a 75 PSI relief valve. Relief valve must be capable of relieving entire flow of pump at relief pressure.

Specifications are subject to change without notice.

RIVER HAVEN R.V. PARK

RULES AND REGULATIONS

The management and staff thank you for visiting our park and hope that you have a very enjoyable stay. If anyone has a problem, please bring it to the attention of the management.

1. Speed limit in the park is 5 miles an hour or less.
2. Checkout time for overnight parking will be 12 noon the following day.
3. No firearms will be discharged in the park at any time.
4. Watch your step per uneven ground, gopher holes, rocks, etc.
5. Open flame fires are allowed in designated fire pits only.
6. Do not swim or wade in the river due to dangerous, strong undercurrents and deep holes.
7. Loud noise or loud music will not be permitted (especially after 10 p.m. and until 7 a.m. the next morning).
8. Animals will be quiet and on a leash. Owners will be responsible for their actions and, also, for the cleanup of their pets.
9. It is recommended that all animals should not be left outside at night, due to coyotes.
10. Help us to keep the grounds clean and attractive. Trash will not be left outside of the R.V.'s. (Dumpsters are provided.)
11. Enjoy and watch the wildlife, but do not bother, chase or interfere with them - they were here first!
12. One vehicle per one R.V. will be permitted to park in predesignated areas. Visitors will park in designated areas only.
13. Price is for two people in one R.V. Any extra person or persons will be \$1.00 each per day.
14. No rowdiness will be permitted. We reserve the right to refuse service to anyone.
15. Please watch the highway when entering and exiting the R.V. park.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 57-07588

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please note that your water right number has been changed from 63-11157 to 57-07588. This number change does not affect or change your water right in any way. Please refer to the new number in any future correspondence.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

MEMORANDUM

TO: FILE NO. 63-11157

FROM: PAM SKAGGS²⁸/STATE OFFICE

SUBJECT: NUMBER CHANGE

DATE: April 5, 1994

=====

During file review an error was found in the original numbering of this water right. The point of diversion and place of use are located next to the Snake River which is the basin boundary between basins 63 and 57. Verification was made using the USGS map included with the Application for Permit and legal description, confirming that this right is located East of the Snake River in Owyhee County and Basin 57.

RIGHT NO. 63-11157 HAS BEEN RENUMBERED TO 57-07588.

PROOF DUE NOTICE

RE: PERMIT NO. 63-11157

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Re: Permit No. 63-11157

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to June 1, 1994. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extensions based on due diligence.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-11157

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: PERMIT NO. P63-11157

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.
