PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 57-07285 Telephone No. 834-2155

2. Name(s) of Permit Holder(s): John W Jones

3. Mailing Address: Hc 79 Box 2135 Orem UT 83650

4. Source of Water: Well If GROUNDWATER (well), Date Drilled: mo. 1 1977

a. Well Driller: Unknown Drilling Permit Number: _____

b. OPTIONAL:
Pump Horsepower: 30 Pressure (psi): _____ Dynamic pumping level (ft): 65-100

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: 40 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes _____ or No _____
Has the measuring device been installed? Yes _____ or No _____

Flow Measurement Port: Is a flow measurement port required? Yes X or No _____
Has the measurement port been installed? Yes X or No _____

8. Fee Enclosed: \$ 100.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: John W Jones Telephone Number: 834-2155

Address: Hc 79 Box 2135 Orem UT 83650

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

Department of Water Resources

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 57-07585

Name(s) of Permit Holder: John W Jones

Mailing Address: HC 79 Box 2135, Oreana Id 84050

Date Proof is Due: _____ Telephone No. 834-2155

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

1) Irrigation well cased all the way down (347') 2) Installed
30 hp 3 phase pump 3) Cleared brush/grown crops on 50 of proposed
new acreage 4) Recontoured 5 additional acres - 101 hrs on TD 15 INT.
CRAWLER TRACTOR & DOZER. Costing \$ 22,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Have been unable to obtain reasonably
priced sprinkler pipe to irrigate remaining
acreage

Permit holder(s) request an extension to MAY 1, 1999.

FEE: \$50.00

John W Jones
(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

MICROFILMED

MAY 22 1997

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to May 1, 1999.

Signed this 9th day of May, 19 97.

J. Glen Saylor
Chief, Water Allocation Bureau

State of Idaho

Total number of acres irrigated: 20

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 1997.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. The right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
5. Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
6. Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
7. The Director retains jurisdiction of this right and/or subsequent license issued to change, add or remove any requirement as determined to be appropriate.
8. The right holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this right.
9. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

2. Measurements: None - operating pressure is 35-45 PSI.

E. NARRATIVE/REMARKS/COMMENTS

of irrigation

1. This permit is for 20 Ac.^a from ~~the~~^a well, which was drilled in 1972. Within the SWNW, 28 Ac. has been gravity irrigated with surface water from Picket Creek under WR 57-00041A. The well was drilled to provide supplemental irrigation to the same land under 57-00041A, but only for^a 15.0 Ac. portion under WR 57-04025. At that time, a smaller pump in the well served some sprinklers, and pumped water into the existing gravity ditches. For this permit, the owner installed a larger 30 Hp pump in the well, leveled 3 tracts of hilly land (New land - 1.9 Ac., 3.1 Ac., 2.0 Ac. = 7.0 Ac.), and expanded the pressure sprinkler system to cover more of the land irrigated under 57-00041A. The sprinkler system also feeds water into the old ditch system at the two concrete diversion boxes.

2. There is no measuring device in the system (Cond. 4). A weir could be placed ~~at~~ at the concrete diversion boxes to check the output of the well when the rest of the sprinklers are off.

3. The ~~owner~~^{owner} obtained this permit to include the acres not allowed under the adjudication for 57-00041A, + 57-04025, and to add in the 3 tracts of new land (7.0 Ac.) he developed by

Have conditions of permit approval been met? ☐ yes ☒ no, leveling some hills.

(No measuring device in system)

4. Handline sprinkler laterals with 1/8" 4033er are set from the mainline risers.

Additional Computation Sheets Attached

$$\phi_{\text{flow}} = (0.02 \frac{\text{cfm}}{\text{ft}^2})(20 \text{ ft}^2) = 0.40 \text{ cfm}$$

$$Q = \frac{(8.8)(30 \text{ ft})(70\%) }{65' + (35 \text{ psi})(\frac{34'}{14.7 \text{ psi}})} = \underline{1.27 \text{ cfs}} > 0.40 \text{ cfs}$$

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \frac{(20 \text{ Ac.})(4.5 \frac{\text{AF-A}}{\text{Ac.}})}{1} = 90.0 \text{ AF-A}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \frac{(0.40)(246)(1.9835)}{1} = 195.2$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 90.0$$

H. RECOMMENDATIONS

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	03/15	11/15	0.40	90.0
Totals:			0.40	90.0

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 57-07585

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary, Water Allocation Bureau

RE: Permit No. 57-07585

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit. The time within which to submit proof of beneficial use is extended to **May 1, 1999**. Please note that the department has granted this extension based on **due diligence**. It is important that you work diligently toward the completion of the development during the construction period allowed since the department **will not** be able to grant additional extensions based on due diligence.

Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

Please contact me at (208)327-7953 if you have any questions regarding this matter

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

JOHN W JONES
HC 79 BOX 2135
OREANA ID 83650

PROOF DUE NOTICE

RE: PERMIT NO. 57-07585

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 57-07585

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

- 26A - Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
- 01K - The right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
- 051 - Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.
- 052 - Diversion and use of water under this right is subject to an annual use fee if rules are subsequently promulgated which provide for the submittal of the fee.
- 053 - The Director retains jurisdiction of this right and/or subsequent license issued to change, add or remove any requirement as determined to be appropriate.
- 803 - The right holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this right.
- 03A - The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

I, Joe E. Aman, being first duly sworn, depose and say:

1. That I am a citizen of the United States of America, and at all times hereinafter mentioned was and now over the age of twenty-one years, not a party to nor interested in the proceedings hereinafter mentioned.

2. That during the time of the publication of the notice hereinafter mentioned, I was and now am the publisher of **The Owyhee Avalanche**, a newspaper of general circulation printed and published weekly, on Wednesday of each and every week, in the City of Homedale, County of Owyhee and State of Idaho.

3. That the said **The Owyhee Avalanche** has been printed and published continuously and uninterruptedly in said County during a period of more than seventy-eight weeks prior to the first publication of the attached notice.

4. That said notice of which a printed copy, taken from said newspaper, is hereto affixed, was published in the regular issue thereof, and not a supplement thereto, in said

newspaper, in

2 (two)

(consecutive) calendar weekly issue(s) of said newspaper, in the following date(s):

March 16 and 23, 1994

Signed

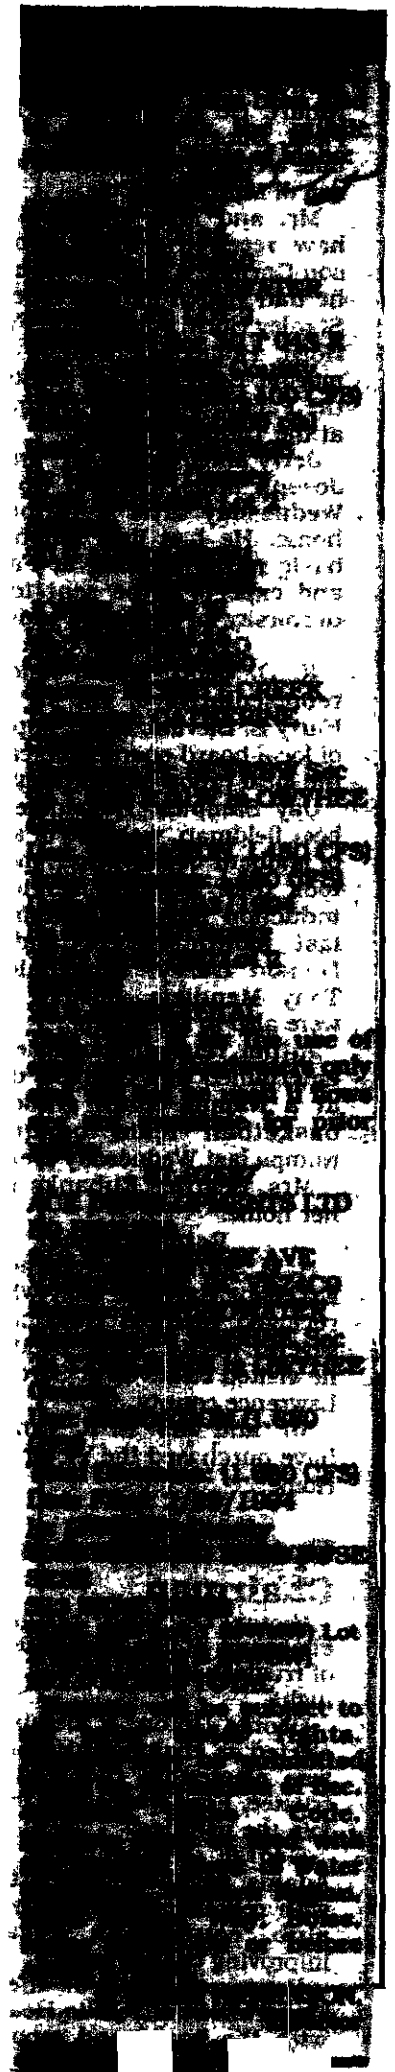

Joe E. Aman

Subscribed and sworn to before me this 23rd day of March A.D., 1994

RE: Application for Permit

Dear John and Sue:

Enclosed is a partly completed application for permit to appropriate additional water from Pickett Creek for the remainder of your irrigated acres. Since you have already filled out one application, this application as I have written it should be clear to you. Please feel free to correct any items and/or supply additional information as needed.

Information that is required to complete the application is:

6a. A description of the Pickett Creek diversion works.

11a. Who owns the land at the Pickett Creek diversion?

11c. Do you have a right-of-way or other arrangement for access to the diversion point and the ditch for maintenance purposes? If the arrangement is verbal, you may say so.

Sign the application and return it with a \$45.00 filing fee.

For your information, I have also enclosed a copy of your first application showing the changes I made to include the additional acreage. Increasing the rate of flow to 20 inches, or .40 cfs, raises the application fee to \$45.00. A balance of \$15.00 is needed for this application filing fee. A receipt for \$30.00 paid previously is also enclosed. The fees may be paid with a single check.

Finally, I have included a portion of the rules and regulations for Stream Channel Alterations. Rule 2,4 does confirm that no permit is required for the general removal of debris provided that no equipment is working below the high water mark of the stream. Rule 2,3 is specific to an irrigation diversion works such as your Pickett Creek diversion and allows work in the stream channel only in the immediate vicinity of the diversion structure.

Please feel free to call if you have other questions or need assistance.

Sincerely,

Cindy Hodges
Sr. Water Resource Agent
