**STATE OF IDAHO**  
**DEPARTMENT OF WATER RESOURCES**

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 57-07581 Telephone No. 465-8465

2. Name(s) of Permit Holder(s): Idaho Fish + Game Dept.

3. Mailing Address: 3101 S. Powerline Road Nampa Id 83686

4. Source of Water: Groundwater / Agric. Runoff If **GROUNDWATER** (well), Date Drilled: mo.        / yr.

- a. Well Driller: \_\_\_\_\_ Drilling Permit Number: - - -

- b. **OPTIONAL:**  
 Pump Horsepower: \_\_\_\_\_ Pressure (psi): \_\_\_\_\_ Dynamic pumping level (ft): \_\_\_\_\_

- 5. Use(s) (as authorized by the water right permit):**

Domestic (No. of households): \_\_\_\_\_ Stockwater (No. and type of stock): \_\_\_\_\_

Other: *Fisheries and Recreation (see attached)*

6. Total rate of diversion and/or volume for which proof is submitted: 1 cfs cfs OR 95.5 acre feet

- 7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)**

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

**Measuring Device:** Is a measuring device required? Yes or No X

Has the measuring device been installed? Yes          or No x

**Flow Measurement Port:** Is a flow measurement port required? Yes        or No x

Has the measurement port been installed? Yes      or No   x  

- 8. Fee Enclosed: \$** \_\_\_\_\_ **(See Fee Schedule on back of the instructions for filing proof of beneficial use)**

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Dennis Hardy & Dale Allen Telephone Number: 465-8465

Address: 3101 South Powerline Road Nampa Id 83686

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Andy Gden for Al VanVooren Date: 12/14/98

### ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No , and said application is hereby .

1 Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS

b Proof of construction of works and application of water to beneficial use shall be submitted on or before , 19 .

c The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

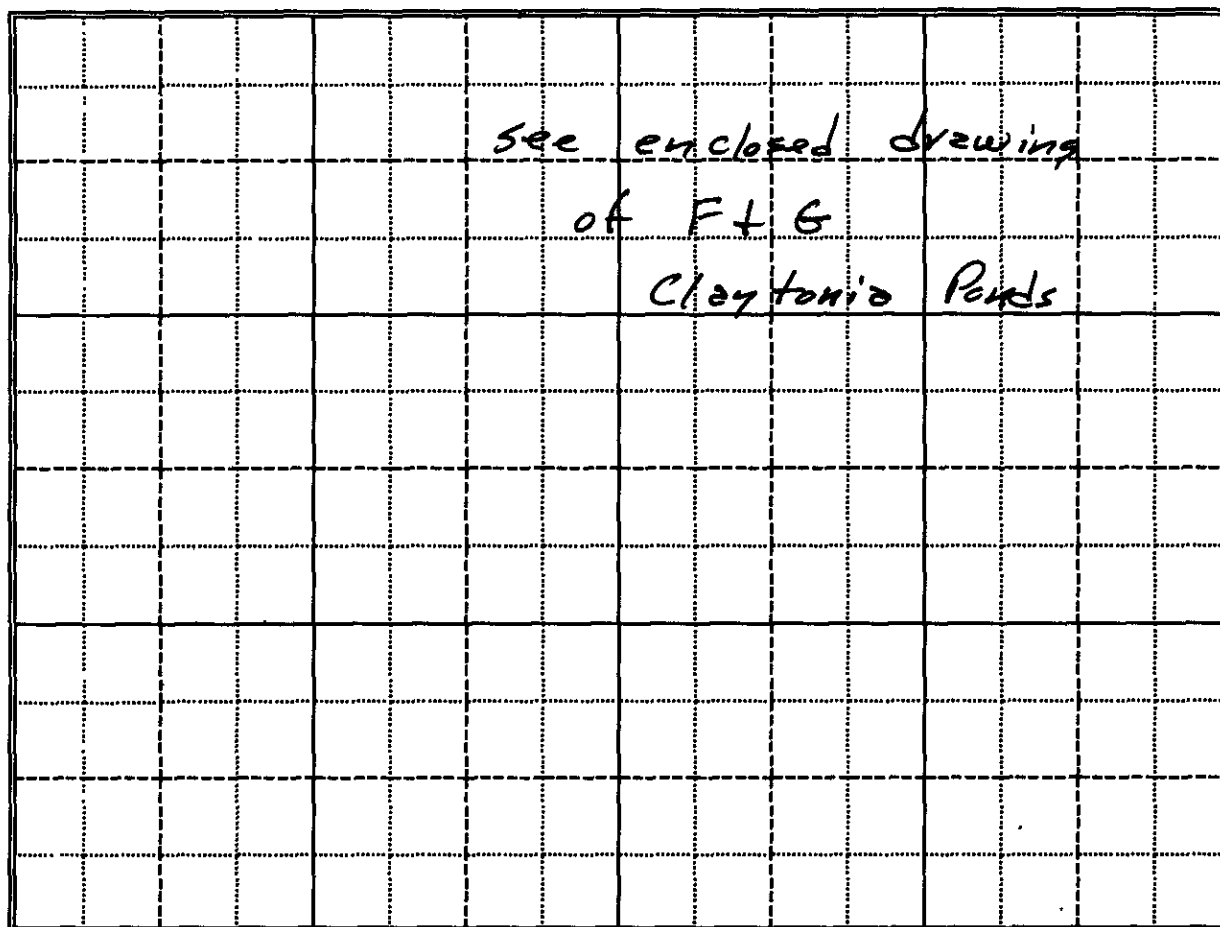

d The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit

e. Other

#### D. FLOW MEASUREMENTS

1.

| Measurement Equipment | Type | Make | Model No. | Serial No. | Size | Calib. Date |
|-----------------------|------|------|-----------|------------|------|-------------|
|                       |      |      |           |            |      |             |
|                       |      |      |           |            |      |             |

2. Measurements: None - all inflow channels were dry. Waste water and drain water inflow to the ponds would vary throughout the irrigation season.

E. NARRATIVE/REMARKS/COMMENTS

called Cliftonia Ponds,

1. This permit is for two Fish and Game wildlife ponds that were developed from old abandoned gravel pits. The ponds receive drain and waste water from the adjacent farm land during the irrigation season, and from sub-surface seepage through-out the year.
2. An unnamed drain supplies water to Pond #1 and Pond #2; and Pond #2 also receives water from Pond #1 through a 12" cnp pipe. A 5' dia. conc. box w/slide gate control, diverts water from the drain into Pond #1, through a 12" cnp pipe. The end of the drain empties into Pond #2.
3. Two waste water farm ditches, and a 10" pvc waste water pipe drains into Pond #2. Pond #2 also receives farm and operational wastewater from a ditch near the SE corner. This ditch collects wastewater from 2 farm ditches, and from an 18" cnp waste pipe w/concrete inlet on an Irrigation District lateral.
4. All the waste water is from farmland served by the Gem Irrigation District. There was no surface water inflow into the ponds at the time of the exam. There are a total of 6 surface water inflows to the ponds.

Have conditions of permit approval been met? ☒ yes ☐ no

5. The 18" cnp pipe w/concrete inlet on the Irrigation District lateral may have served this land before the gravel pits were developed. Now, it may be used to dump operational waste water into Pond #2.

## F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method: None - all inflow ditches were dry. The size of all the inflow waste water ditches, pipes, and the unnamed drain could handle more than 1.0 cfs. An estimate of inflow is as follows:

1) 24" Drain Pipe @ 50% full:

$$Q = \left( \frac{\pi D^2}{4} \right) (3 \text{ fps}) (50\%) = 4.7 \text{ cfs}$$

2) 10" PVC pipe @ 50%:

$$Q = \left( \frac{\pi D^2}{4} \right) (3 \text{ fps}) (50\%) = 1.04 \text{ cfs}$$

3) 12" + 18" pipe at SE

$$Q = \left[ \frac{\pi D_1^2}{4} + \frac{\pi D_2^2}{4} \right] (3) (50\%) = 3.83 \text{ cfs}$$

## G. VOLUME CALCULATIONS

### 1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} =$$

~~4) End of drain at 0.5 cfs~~, 4) Two farm ditches @ 0.25 cfs

6) Seepage -

Unknown

### 2. Volume Calculations for Other Uses:

Note: It would probably not be possible to measure all the inflow.

The inflow is at least 1.0 cfs or more.

Allow 1.0 cfs Div. Rate.

Capacity of Ponds: Pond #1: Vol. =  $(550') (250') (12' \text{ deep}) \frac{AF}{(66)(66)(10)} = 37.9 AF$

Pond #2: Vol. =  $(1100') (350') (18' \text{ deep}) \frac{AF}{(66)(66)(10)} = 159.1 AF$

## H. RECOMMENDATIONS

### 1. Recommended Amounts

Total Cap. = 197.0 AF

Allow 95.5 AFA in Perm.

| Beneficial Use        | Period of Use<br>From | To    | Rate of Diversion<br>Q (cfs) | Annual Volume<br>V (afa) |
|-----------------------|-----------------------|-------|------------------------------|--------------------------|
| Wildlife              | 01/01                 | 12/31 | 1.0                          |                          |

**PROOF ACKNOWLEDGMENT LETTER**

**RE: PERMIT NO. 57-07581**

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **WESTERN** Regional Office of the department in Boise at (208)334-2190.

Sincerely,

**JULIE L. YARBROUGH**

Senior Secretary, Water Allocation Bureau

MICROFILMED

FEB 11 1999

To: CYNTHIA ROBEI ON@NRPB@IDFGHQ  
From: ANDY OGDEN  
Cc:  
Bcc:  
Subject: Claytonia Pond Beneficial Use Documentation  
Attachment:  
Date: 12/14/98 11:57 AM

Regional staff estimates hunters and fisherman use of approximately 200 per year and swimmers and other users at 1200 per year. Total public use of 1400 user days per year would be a fair estimation.

The pond currently supports a fisheries dominated by nongame fish (mostly carp) but the fisheries staff plans to treat the pond this winter and re-stock it with bass, bluegill and catfish next spring/summer. These efforts will require about \$1500 of fisheries funds.

With a more desirable fisheries established, we expect sportsman use of the pond to increase in the future but we can't provide a reasonable estimate of future use until the fisheries is recovered.

RE: Proof of beneficial use for water right no. 57-07581

Dear Sirs:

I have enclosed a completed form and check (#070668) for proof of beneficial use for the above-referenced water right permit. Please send me a receipt for payment so we may clear our books. If you have questions regarding this matter, please call me at 334-2597. Thank you.

Sincerely,

*Cindy Robertson*

PROOF DUE NOTICE

RE: PERMIT NO. 57-07581

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1999. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH  
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 57-07581

Dear Permit Holder:

Enclosed is a copy of your approved application for permit.  
Please be sure to thoroughly review the "CONDITIONS/REMARKS:"  
listing on the permit.

As a permit owner you must commence the excavation or  
construction of the diverting works within one year of the date  
the permit was issued, and you must proceed diligently until the  
project is completed. The date shown under condition no. 1  
is the date when the project must be completed. You will receive  
a "Proof Due Notice" from this Department approximately 60 days  
prior to the completion date requiring you to file either a Proof  
of Beneficial Use form stating that the project has been  
completed or file a Request for an Extension of Time in which to  
file the proof statement.

Sincerely,

A handwritten signature in dark ink, appearing to be 'JJ', followed by a horizontal line.

=====

Comments: Date: 02/09/1994 User-ID: ZIMMERMA Subject: DIVERSION DESCRIPTION  
Headgate and pipeline, low head dikes with control structure and  
excavated gravel pits for 2 interconnected ponds.  
Water comes primarily from irrigation return flows during the  
irrigation season; there is also a small amount of groundwater  
seepage into two interconnected ponds. combined storage in ponds  
approximately 95.5 AF. (per application)  
Multiple sources are integrated by serving common pond system.  
Points of diversion include one headgate from an unnamed drain,  
three waste water ditches flowing into ponds, and groundwater via  
excavated sites (seepage only, no wells). (per Steve Lester)

FILE 57-07581

NAME OF PARTY Cindy Robertson Fig 334-2597 (State office, Walnut St.)  
EMPLOYEE Steve Lester

RE: \_\_\_\_\_

As far as C. Robertson is aware:

1) both ponds interconnected & will remain that way - so can consider one development.

2) Sources

a) sewer drain - headgate & pipe

b) ground water - seepage in excavated area

c) waste water - at least 3 areas where this enters system as indicated by "irrig. returns" on Applicant's map.

Conclusion-

This is a single development consisting of 3 sources feeding the 2 ponds.
