Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley W. Keen

RE: WATER RIGHT NO. 57-07572

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that the point(s) of diversion developed is in a location other than what was described on your permit. Therefore, before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the point(s) of diversion and other information as it will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208)327-7946.

Sincerely,

Shelley W. Keen

E. NARRATIVE/REMARKS/COMMENTS

A 15HP pump is used to deliver Shooply Co water to 2 irrigated acres via 4" intake pipe and 5" buried mainline. There is ~1000' between the P/D + P/U with 25' of lift. The acres are irrigated with handline sprinklers equipped with various nozzle sizes. The system can easily support 1.06 cfs as listed on the permit. The attached pump curve rates the pump at .72 cfs capacity for the system and the pressure gage/sprinkler measurements approximate the system at $\pm$.56 cfs operation at the time of the exam.

The county assesses the property for 3 acres total. One acre was subtracted out for 1 home, trailer shop and misc.

The P/D is shared with 57-07198 and 57-07286. No other wts are used at the P/U except a well for domestic use.

RE: Application for Permit for Shoofly Creek

Dear Applicants:

This office recently received your application for permit to irrigate two acres using water from Shoofly Creek. The use has occurred since 1981 according to the application.

Although a moratorium for most new water rights is in place due to water supply problems, systems in place and used prior to November, 1987 can be exempted from the moratorium. Please provide information confirming that the irrigation was in use prior to late 1987. Some examples of such information include photographs or other evidence from the local SCS or ASCS office, dated photographs showing the pump in use for the acres in question, power records or other pump data, or affidavits from nearby residents or other people having knowledge of the situation. Any reasonable documentation to support your statement about 1981 usage would be sufficient.

If a reply is not received by 2/28/93, I will assume that you cannot obtain the information. In that case, the application will be held due to moratorium conditions. If so, you will be contacted when any changes in the moratorium occur. Delays related to department decisions do not affect the priority date of your application.

If you need more information in preparing a response, please contact me at 334-2190.

Sincerely,

Steve Lester
Water Rights Supervisor
