CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.

RE: WATER RIGHT NO. 57-07557

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

FILED
FEB 2 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

FEB 25 1980

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

E. NARRATIVE/REMARKS/COMMENTS

A 2 HP pump provides water to ~1 acre of lawn via buried rainbird sprinkler system. The pond had previously been inspected for license 57-07285 in 1983. Since then, the pond has changed shape however the volume has remained ~ the same 5.4 af. The pond is located in a spring area just south of the Snake R. Spring water naturally drains into and arises within the pond area. The water from the pond is only plumbed to the back lawn area adjacent to the pond.

License 57-07285 is for stockwater storage from the same pond. A domestic well supplies water to the home and front lawn area. No other wts are used

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{1 \times 4.5 = 4.5}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{.03 \times 246 \times 1.9835 = 14.6}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{4.5}$$

2. Volume Calculations for Other Uses:

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 57-07557

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since the proof was received after the proof due date of June 1, 1996. Please note that the priority date has been advanced to April 6, 1992.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning the field examination, contact the WESTERN Regional Office in Boise at (208) 334-2190.

Sincerely,

JULIE L. YARBROUGH

RE: PERMIT NO. 57-07557

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to June 1, 1996. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extensions based on due diligence.

RE: Change in Ownership of Water Rights

Connie R. Williams
385 E. Robindale Rd.
Las Vegas, NV 89123

Dear Ms. Williams:

The Campbells came in to visit me today regarding the water rights that are appurtenant to the property you sold to them in Owyhee County. Thank you for informing them about the water rights and giving them my name.

We completed a Change of Ownership for the Snake River water (A02-07241) and the water from the springs (A57-07285) for stockwatering. Enclosed you will find a copy of the Change of Ownership form for your records.

We cannot change the ownership on the Application for Permit (57-07557) that you filed in April quite so easily. In Idaho, an application for permit to appropriate water is considered personal property and only the permit holder of record can take action to change it. I have enclosed a partially completed form entitled "Assignment of Application for Permit". Please sign this form in the presence of a Notary Public and return it to this office at your earliest convenience. Once we receive the signed and notarized form we will be able to show the Campbell's as owners of this application.

Thank you for all your help in getting these water right matters completed. If I can be of any help to you in the future, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

RE: WATER RIGHT APPLICATION(S) BEING HELD DUE TO MORATORIUM

Dear Interested Party:

An Application(s) for Permit for a water right(s) in your name has been held due to a moratorium declared by the director of this department on May 15, 1992. The moratorium was established because of limited water supplies caused by another year of drought.

The water supply situation in your area has improved this year. The director rescinded the moratorium in your area on April 30, 1993. Processing of your application(s) can now proceed. I will assume that you want to proceed with the application unless this office hears from you by May 14, 1993. You can contact me or other staff by calling (334-2190) or writing to the above address.

Sincerely,

A handwritten signature in cursive script that reads "Steve Lester".

RE: Application for Permit No. 57-07557

Dear Applicant:

Your application for permit to appropriate irrigation water from springs was received on 4/3/92. Due to continued drought and the need to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/92 concerning water right applications proposing new consumptive uses of public water. Your application cannot be processed for possible approval until the moratorium ends. Delays related to department decisions do not affect the date of priority or seniority of an application.

This office will hold the application pending future developments in the water supply situation and will inform you of any changes. You might be able to locate someone with a valid water right with available water to sell or lease for your needs if necessary. If so, an Application for Transfer of Water Right should be filed at this office to legally change the right(s) prior to any sale or lease.

Please let me know if you need additional information.

Sincerely,

Steve Lester
Water Rights Supervisor

MORATORIUM EXEMPTION QUESTIONNAIRE

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, ~~PLEASE~~ Department of Water Resources
COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated with surface water in the past?

except about 2 acres

- Do you summer fallow any of your irrigated land? If so, how many acres?

the 2 acres above

- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the name of canal or water district.

Benn Irrigation

- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season?

all 10 yrs

- What crops have you grown in the past ten years?

pot corn green alfalfa

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.

Dated this 1 day of June, 1992.
