has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated November 5, 1991; and has submitted Proof of Beneficial Use on January 19, 1993. An examination indicates that the works have a diversion capacity of .190 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.10 CFS	3.0 AF

LOCATION OF POINT(S) OF DIVERSION:

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The right holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this right.
6. Domestic use is for 5 homes.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

Witness the seal and signature of the Director, affixed at Boise, this 16TH day of NOVEMBER, 1993.

PROOF DUE NOTICE

RE: PERMIT NO. 57-07550

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

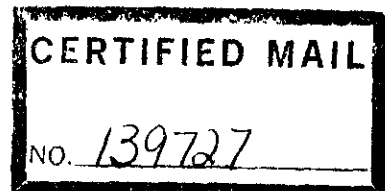

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 57-07550

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS

Dear Ms. Parrill:

We have received the Notice of Claim to a Water Right filed for Cascade Water Corporation on property in Owyhee County. Enclosed is Receipt No. W013775 for the \$25 fee also submitted.

This claim was filed as a result of our 2nd Round Commencement Notice sent recently to Owyhee County property owners who appeared to own irrigated land for which no claim had previously been filed in their name. This land may have been under an irrigation district or a city water system, for which claims have been filed, however, notice was still sent to insure that property owners were legally notified in case there are other water sources used. A 1st Round Commencement Notice was sent on October 14, 1988, to allow owners to file on domestic or stockwater uses prior to March 1, 1989, and all other uses by January 19, 1989. Any person that received a notice in the 1st Round mailing who did not file a claim, then received a notice in the 2nd Round mailing, and has now filed, is required to pay a late fee. This is mandated by Idaho Code Sec. 42-1409(b). You did receive a notice in both 1st Round and 2nd Round, therefore, a \$50 late fee is also required, in addition to the regular filing fee, in order to file this claim. The regular filing fee for this type of claim is a \$50 flat fee, plus \$100 per cfs, which makes the regular filing fee for your claims \$60, plus the \$50 late fee, for a total of \$110. An additional \$85 is now due.

Before you decide whether to pay this additional fee, or not, please note that there is another type of filing that could be made. On March 25, 1963, Idaho Law began mandatory permit filings on groundwater sources developed after that date. Your claim states that January 9, 1974, was the date of first use, which should have required a new filing at that time. Therefore, the Department may not recommend this claim with the 1974 priority date due to this mandatory filing law. You can proceed with this claim and object to the court concerning the Department's recommendation. Or you can now file an application for permit which is the form that should have been filed in 1974. An application for permit will give a priority date of the day it is filed, rather than the 1974 priority date. Enclosed is an application for permit form which can be completed and filed.

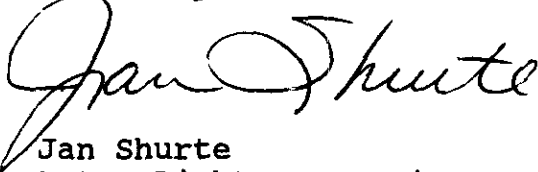

FEB 10 1992

This also requires a filing fee based on the cfs applied for. The fee for .10 cfs is \$30.

If you decide to file the claim, please return it with the additional \$85 due within 10 days from the date of this letter. If you decide to file an application for permit instead, please return the completed application form and an additional \$5, which with the \$25 fee previously submitted totals the \$30 fee required. If we do not receive either the claim or application for permit, or both, plus the fees within the 10 day period, we will assume you do not wish to file and the claim will be rejected and the \$25 filing fee returned.

Please feel free to contact this office if you have any questions concerning this letter.

Sincerely,

A handwritten signature in cursive script that reads "Jan Shurte".
