Place of use location for WILDLIFE is the same location as described for: STOCKWATER

Pou County: OWYHEE

Conditions of Approval:

- R37 - This right, when considered with all other rights common to the
- same grazing allotment, shall be limited to the quantity of water
- beneficially used by the number of stock within the allotment.

Remarks: Stockwater use is for 400 range cattle.
Source is known locally as Curley Spring #8534, Juniper Spring
Allotment #0525.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 57-07510

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P57-07510

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

FILE _____

NAME OF PARTY Paul Termon - BLM Boise Dist.EMPLOYEE Steve LesterRE: Recent BLM applications for permit (follow up to 12/7/89 request for information)

(1) application where "PIT TYPE RESERVOIRS 50' x 100'" are shown:

use $5\frac{1}{2}'$ as mean depth to calculate actual volume stored. Each appl. = 1 reservoir, want 1 appl. for each reservoir (v. combining several into 1 appl.).

(2) Also -

OK to modify water use descriptions based on info in appl. & add appropriate cfs based on # hd. if applicable.

For example:

if 225 hd cattle shown, rate = .07 cfs from IDWR chart.

$(.07)(19835) = .1 \text{ A.F./24 hrs. can be stored}$

Reservoir = $50' \times 100' \times 5.5' = 27,500 \text{ ft}^3 = .6 \text{ A.F.}$

Thus, appl. should include:

a) .07 cfs Stockwater

b) 0.6 A.F. Stockwater storage

c) also show same amounts for wildlife although

d) not additive.

e) Not necessary to show use from storage since water will not be diverted from reservoir.

Does not represent an increase in the amount of water in application, just clarifies & reserves based on application info.
