WATER RIGHT LICENSE

WATER RIGHT NO. 57-07483

Priority: November 3, 1988

Maximum Diversion Rate:

0.52 CFS

This is to certify, that ELIAS JACA

REYNOLDS CREEK

MURPHY ID 83650

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated November 3, 1988; and has submitted Proof of Beneficial Use on May 20, 1991. An examination indicates that the works have a diversion capacity of 0.520 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.52 CFS	
STOCKWATER	01/01 to 12/31	0.23 CFS	
	Totals	0.52 CFS	

LOCATION OF POINT(S) OF DIVERSION:

SESE , Sec. 12, Township 03S, Range 04W
OWYHEE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
03S	04W	12	NESE 16	NWSE 5	SESE 6	27

Total number of acres irrigated: 27

PLACE OF USE:

STOCKWATER, same as IRRIGATION use

CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.

JUN 28 1996

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 57-07483

CONDITIONS OF APPROVAL AND REMARKS

5. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased, or used on any other place of use.
6. This right when combined with the rights listed below and all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual irrigation diversion volume of 94.5 af for the lands above. The combined rights include: 57-00246, 57-00267, 57-01022 and 57-01023.
7. The annual stockwater diversion volume is limited to 22.2 af.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 22ND
day of MAY, 1996.

Acting for

KARL J. DREHER, Director

APPLICATION FOR AMENDMENT
(For Licensing Purposes)
WATER RIGHT NO. 57-07483

Date of Priority: November 3, 1988 Maximum Diversion Rate: 0.52 CFS
Comes now ELIAS JACA
REYNOLDS CREEK
MURPHY ID 83650 and represents to the Director of the

Idaho Department of Water Resources:

That he is the owner and holder of Permit to Appropriate the Public Waters of the
State of Idaho No. 57-07483, and requests that the permit be changed as follows:

Source: **GROUNDWATER**

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.52 CFS	
STOCKWATER	01/01 to 12/31	0.23 CFS	
	Totals	0.52 CFS	

LOCATION OF POINT(S) OF DIVERSION: SESE , Sec. 12, Township 03S, Range 04W
OWYHEE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
03S	04W	12	NESE 16	NWSE 5	SESE 6	27

Total number of acres irrigated: 27

PLACE OF USE:

STOCKWATER, same as IRRIGATION use

Permit holder asserts that no one will be injured by such change and that such change
will be made at permit holder's own risk.

Signed at Boise, this 15th day of May, 1996.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No 57-7483, and said application is hereby APPROVED

1 Approval of said application is subject to the following limitations and conditions.

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 19 91

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 22nd day of May, 1989.

RE: WATER RIGHT NO. 57-07483

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen".

Subj: ELIAS JACA

I took a look at the SRBA exams for Jaca's Reynolds Ck rights. Unfortunately, there were no ASCS maps used to make the recommendations. However, it looks like the QQ line I drew on my ASCS map in 57-7483 is incorrect. If the line between NESE and NWSE Section 12 is shifted to the west, my acres may be adjusted to show 21 ac in NESE and 5 in NWSE. The 6 acres in SESE are not affected. This matches the SRBA claims for found acres in E1/2SE, but does not change my recommendation.

According to a summary of rights on the Gabica (now Jaca) ranch, compiled in 1979 by Keith Anderson, lands in the NWSE Section 12 were in the process of being acquired (from BLM?). The lands were not included in the Reynolds Ck rights 00246 and 00267, with DOP's of 1864 and 1879, but are included in the floodwater rights 01022 and 01023, DOP 1911. They have obviously been a part of the system for some time.

I'm sticking to my recommendation, but am willing to adjust found acres to more closely match SRBA R files. The acres in NWSE are adjacent to the ditch and are still the ones being irrigated. The permit is simply not sufficient to cover all 32 found acres.

MEMORANDUM

TO: File 57-07483 / Elias Jaca
FROM: Brenda Chapman
DATE: March 26, 1996
RE: Telephone Conversation

=====

Cindy Hodges and I discussed the exam acreage recommendations today for 57-07483. She stated that the 6 acres in the SESE (upper pasture and where the well is located) are the primary acres irrigated from the well via the conveyance ditch. As the water heads northwest in the ditch, the combination of the location of the check structure and the fairly steep slope of the ground in the NWSE portion of the lower pasture causes the greater amount of irrigation to occur in the NESE portion of the lower pasture. Because of that, she chose to reduce the number of acres from 10 to 5 acres in the NWSE and recommend the full 16 in the NESE.

Drilled 1987. pump at unknown depth. Estimated PL = 125'

JUN 28 1996

E. NARRATIVE/REMARKS/COMMENTS

Open discharge to ditch. No meas taken because surface water being utilized in ditch.

Water used Supplemental to Reynolds Cr decreed rights on pasture/hay. Stockwater use for 1660 range cattle. Ditch runs around west edge of fields. Irrigation by gravity flood to northeast.

Total found acres = ³²~~35~~ (¹⁰~~8~~ in NWSE, ¹⁶~~21~~ in NESE, 6 in SESE)
only 27 (in E1/2SE) shown on permit.

Because pumping level is unknown an estimated level was used. ⁽¹²⁵⁰⁾ Based on static (20') & total depth (215') this appears reasonable. Theoretical calculations are very close to permitted amount. Recommend licensing at permitted rate of flow.

Overlaps are with Reynolds Creek decreed rights, on same lands. Acreages recommended to match decreed acres, as much as possible. Current ASCS acres ~~are~~ are not identified on map.

In-office planimeter readings used to determine acreage.

Have conditions of permit approval been met? ☒ yes ☐ no

JUN 28 1996

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 57-07483

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

ELIAS JACA
403 W LINCOLN
NAMPA ID 83651

Dear Mr. Jaca:

Re: Permit No. 57-7483

On May 22, 1991, the department received the proof of beneficial use form along with the \$100 filing fee for the above referenced permit. The department has reviewed the proof and finds the permit is in the name of Richard Gabica. I am unable to contact the Mr. Gabica since his old address is your new address.

Enclosed is an assignment form. Is it possible for you to secure an assignment from Mr. Gabica?

There are other options the department can consider which are not as desirable, but effective. These are: 1) a demonstration that you have possessory interest in the land by providing the department with a copy of the tax record, or 2) providing the department with a copy of your warranty deed and/or sales contract. By submitting such document(s), the department may be able to accept the proof of beneficial use as action for maintaining the permit, but not necessarily, as a documentation for conveying ownership of the permit.

I will hold action on the permit for 30 days. The department will be waiting for your response.

Please contact me if you have questions.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 57-07483

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 57-07483

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

MICROFILMED

JUN 13 1989

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section
