ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 57-7472, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 91

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

A lockable device, subject to the approval of the Department, shall be installed on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

Use of water under this permit is subject to control by the watermaster of State Water District No. 57A, Upper Reynolds Creek.

RE: License No. 57-7472 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

for Shelley W. Keen

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED

SEP 29 2002

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Gentlemen:

The Department of Water Resources is reviewing the above referenced permits prior to issuing water right licenses. By issuing the licenses, the Department confirms that a water right has been established in compliance with the terms of the permits. We have a request to expedite the issuance of these licenses by the Snake River Basin Adjudication (SRBA) staff so your prompt attention to this matter would be greatly appreciated.

The examiner who verified your water use reported that some of the points of diversion and places of use are in a location other than what was described on the permits. Therefore, before licenses can be issued, some of these permits must be amended to depict the water rights as they were actually developed. I have identified the changes, for each permit that must be acted upon, below for your convenience.

Permit 57-07472: I found that we have never received the proof of beneficial use filing fee that should have been submitted with the proof. Could you please check your records for a check that may have been written to the Department on March 5, 1991 in the amount of \$50.00. We received the proof statement on March 6, 1991 and one of our staff acknowledged that the proof had been received but I could find no evidence of the fee being received by the Department. If you have some record of the fee being paid, such as a copy of our receipt or your check, we would be glad to update our file. If you have no records of the fee, we will require the \$50.00 filing fee be submitted prior to licensing the permit.

Permit 57-07454: This permit was issued with the point of diversion and places of use different than what the examiner found during her field visit. We have also issued an "Order Changing Condition Requiring Measuring Device", based on the field examiner's findings and on the request you submitted on October 4, 1988. Enclosed is a copy of the order for your information.

Permit 57-07525: Our examiner found that the place of use is located different than what was permitted. She recommended adding the lands in Sec. 24 that she found irrigated under this permit

Permit 57-07583: Our examiner found that we should add the lands in SWNE, Sec. 13, to this permit.

Enclosed are licensing amendments for permits 57-07525, 57-07454, and 57-07583. These amendment applications depict the water use and other information, as they will appear on the licenses when issued. Please review the amendment forms carefully. If you concur with the information presented, please **sign the forms and return them with a \$50.00 filing fee, per amendment form, within 14 days**, from the date of this letter.

The remaining permits, **57-07400, 57-07532 and 57-07472** do not require amendments to be licensed. Enclosed, for your review and information, are copies of the draft licenses I have prepared for these permits. Please note that I have prepared the draft license on Permit 57-07472 based on your submittal of the proof of beneficial use filing fee or documentation to show that the proof fee was submitted in March of 1991

If you have any questions in regard to the licensing amendments, or the draft licenses, please do not hesitate to contact me at 327-7944.

Sincerely,

KAY WALKER

MEMORANDUM

June 26, 1998

TO: Junayo Ranch Files (see below)
FROM: Cindy Hodges *chl*
RE: Field Exam and Review Information

The following storage permits are all located at the Junayo Ranch on Reynolds Creek. They represent storage in four different reservoirs and should be reviewed for licensing together:

57-07400 Tyson Reservoir (Reynolds Creek Reservoir)
57-07472 Junayo #3 (Reynolds South Reservoir)
57-07532
57-07525 Macks Creek Reservoir (at old ARS gaging site)
57-07583
57-07454 Upper Macks Creek Reservoir (Junayo #2)
57-07473

For the most part, all stored flows are supplemental to decreed Reynolds Creek or Macks Creek natural flow rights, although there are a few acres developed under permits 57-07400 and 57-07583 which do not have any other appurtenant rights. As much as possible I have matched recommended acres with SRBA acres.

Areas of influence under the reservoirs may be separated into three distinct irrigation systems (my descriptions):

1. Reynolds East- Lands east of Reynolds creek, served by the Tyson and Junayo #3 reservoirs.
2. Reynolds West- Lands west of Reynolds Creek and below (east of) Macks Creek Reservoir, including areas situated both north and south of Macks Creek channel; served by Macks Creek reservoir.
3. Macks Creek- Lands above (west of) Macks Creek Reservoir, along Macks Creek both north and south of the channel; served by Upper Macks Creek reservoir.

Rough notes, overlap reviews, and original maps depicting the entire project may be found in 57-07400.

Application 57-07610 filed by Junayo Ranches is protested and still at the Region. Its place of use overlaps the Macks Creek irrigation system and is meant to legitimize an exchange of flows which is found to be going on there (stored flows in Macks Creek reservoir for natural Macks Creek flows above the reservoir). Its approval would not alter or implicate any of my recommendations. In fact, it has occurred to me that the new exchange legislation may be a better vehicle to show the actual water use than a new appropriation. I will be following up on that idea with Gary S.

PROOF DUE NOTICE

RE: PERMIT NO. 57-07472

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

Dear Permit Holders:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control of your diversion.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.
