I'm concerned about the legibility of this one.

There are several places where we can probably determine the intended number on the original, but to do so on the microfiche will be difficult (e.g. domestic rate of flow is 0.08 or 0.02?, ~~acre~~ acreage irrigated is 10 or 12? (Map shows 10 acres in one place and 12 acres in another)). This one seems eligible for retyping & return to applicant for signature.

Your thought?

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 4.7 \text{ A} \times 5.0 = 23.5$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.02 \times 245 \times 1.9835 = 9.72$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 9.7 \text{ AFA}$$

RE: Well Log for Tony Ragosa

Dear Mr. Metzger:

I have been informed that you drilled a well in September 1981 for Tony Ragosa in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 2, T1N, R4W. I do not have a well report for this well. I do have a well report for a well drilled May 1982 in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 2. Is this the same well or did you drill two wells for Mr. Ragosa?

Please submit a report or contact me within 30 days.

I drilled only one well for Anthony Ragosa (for which he did not pay). John Renz, who had a Trailer house on the property - did finally pay for well. This property was originally owned by Jack & Mary York. This log is dated 5-21-82 - SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec 2, T1N, R4W. This well is located at Top of hill on property. It is possible this could be NW $\frac{1}{4}$ & NE $\frac{1}{4}$ & is same well. At a later date another drill (orange-machine) was drilling on property below hill. I don't know who driller was, I would like to have one of those plastic (location ~~you~~)? which would help pinpoint locations down to 10 A. plots. Do you have these Available in your office? sincerely,
Kenne

RE: PERMIT NO. 57-07455 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.
