

Complete the following map by showing land and point of diversion as proposed by this amendment.

Show 40-acre subdivisions, townships, ranges and ditches.

Scale: 2 inches equal 1 mile.

That no one will be injured by such change, and that such change will be made at permit holder's own risk.

Signed at Boise, Idaho, this 28th day of July, 19 80.

NOTE: THIS POINT OF DIVERSION IS THE SAME
AS FOR 57-7260 (ADVERTISED 11#18 OCT 1979)
NO PROTESTS RECEIVED.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

I, L. GLEN SAXTON, Chief, Operations Bureau of the Department of Water Resources hereby

APPROVE the above referenced Amendment for Permit No. 57-7265, provided the following conditions are met (1) Conditions 1 and 2 on the original permit must be complied with. (2) The maximum rate of diversion under the permit shall not exceed 3.27 cfs for irrigation purposes and 0.14 cfs for stockwater purposes. (3) The priority be advanced to July 31, 1980.

Witness my hand this 23rd day of December, 1980.

L. Glen Saxton
Chief, Operations Bureau

AFFIDAVIT OF PUBLICATION

STATE OF IDAHO)
)ss.
COUNTY OF OWYHEE)

I, *Joe E. Aman*, being first duly sworn, depose and say:

1. That I am a citizen of the United States of America, and at all times hereinafter mentioned was and now am over the age of twenty-one years, not a party to nor interested in the proceedings hereinafter mentioned.

2. The during the time of the publication of the notice hereinafter mentioned, I was and now am the publisher of THE OWYHEE CHRONICLE, a newspaper of general circulation printed and published weekly, on Thursday of each and every week, in the City of Homedale and County of Owyhee and State of Idaho.

3. That the said THE OWYHEE CHRONICLE has been printed and published continuously and uninterruptedly in said County during a period of seventy-eight weeks prior to the first publication of the attached notice.

4. That said notice of which a printed copy, taken from said newspaper, is hereto affixed, was published in the regular issue thereof, and not in a supplement thereto, in said newspaper, in . . . two (2) . . . (consecutive) calendar weekly issue(s) of said newspaper, in the following date(s):

November 13, 1980

November 20, 1980

(Signed) . . .

Joe E. Aman

Subscribed and sworn to before me this . . . 20th . . . day of November
A.D., 1980 . . .

Lelara E. Brannen

Notary Public in and for the State of Idaho,

residing at . . . Homedale . . . , Idaho

My Commission expires March 24, 1984

NOTICE OF APPLICATION FOR AMENDMENT OF A PERMIT

NOTICE IS HEREBY given that Permit No. 57-7265 in the name of Richard D. and/or Janice M. Echevarria and/or Wm. M. and/or Alice G. Murphy of Homedale, Idaho, was filed on 10/3/79 for the diversion of 3.41 cfs of water from the Snake River with a point of diversion within the SESW, Sec. 29, Twp 4N, Rge 5W, B.M., Owyhee County, to be used for irrigation and stockwater purposes.

The holders now propose to amend the permit by changing the point of diversion to Lot 5 (SWSW), Sec. 29, Twp 4N, Rge 5W, B.M., Owyhee County, and changing the source to unnamed drain, tributary to the Snake River.

If issued, the amended permit will be subject to all prior water rights. Protests against the granting of this amendment must be filed with the Director of the Idaho Department of Water Resources, 92 S. Cole Road, Boise, Idaho 83709 on or before December 1, 1980.

C. STEPHEN ALLRED
Director

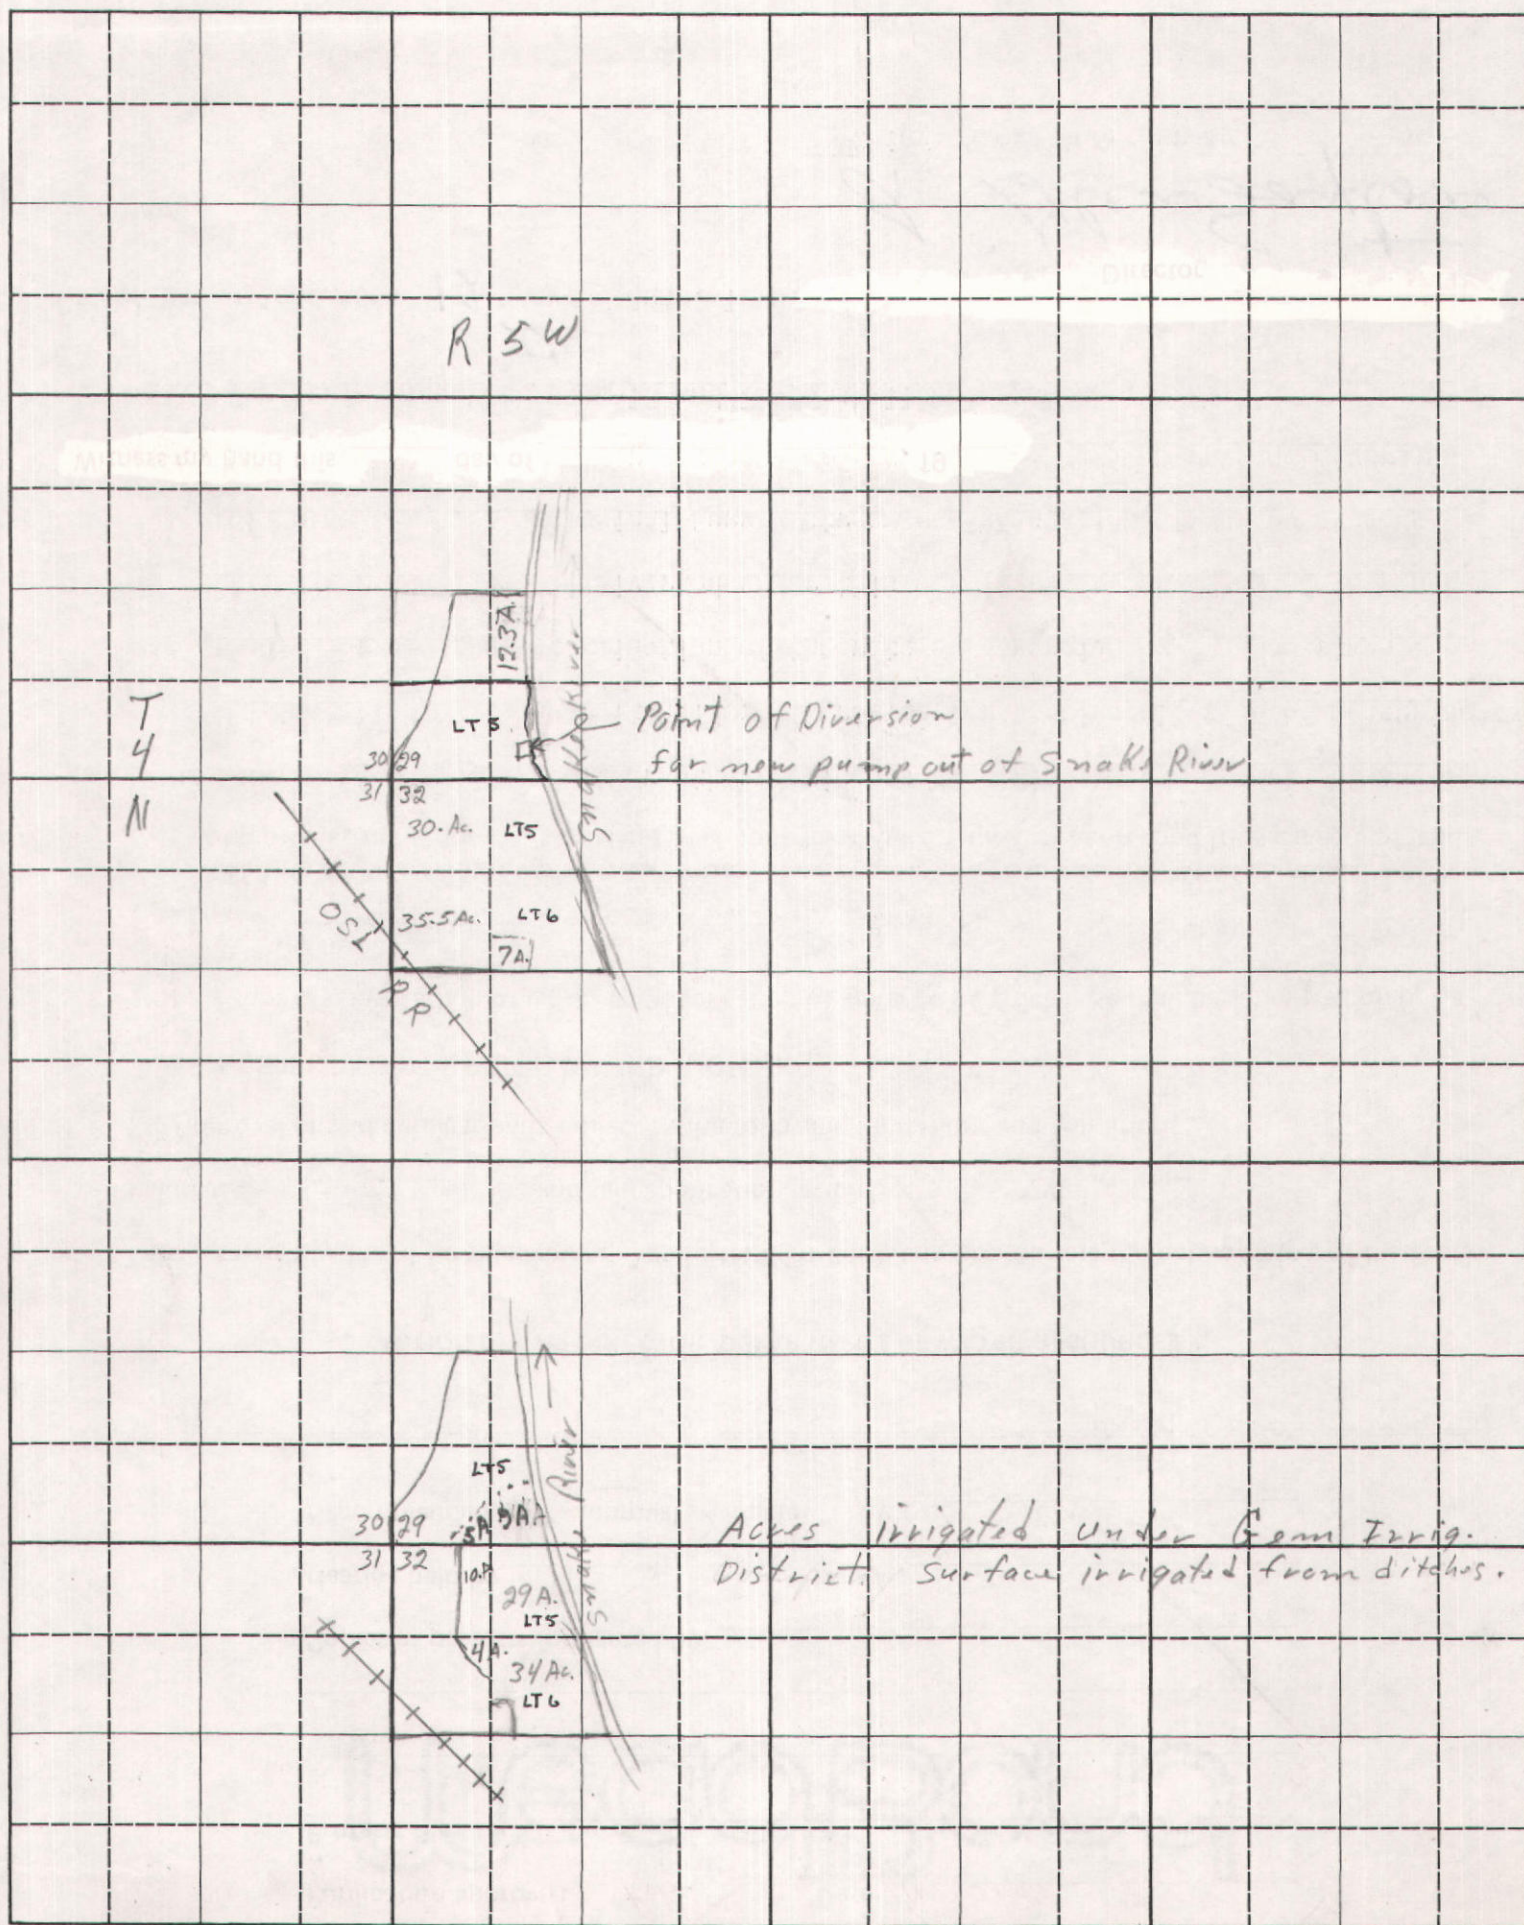

Published in the Owyhee Chronicle on Nov. 13, 20, 1980

Re: 57-7265

Dear Ladies & Gentlemen:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department.

☐

A field examination of your system has been scheduled for _____.

If this time and date is not convenient for you, please contact this office as soon as possible.

☐

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office.

Sincerely,

Judy Pense

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

I, L. GLEN SAXTON, Chief, Operations Bureau of the Department of Water Resources hereby

APPROVE the above referenced Amendment for Permit No. 57-7265, provided the following conditions are met (1) Conditions 1 and 2 on the original permit must be complied with. (2) The maximum rate of diversion under the permit shall not exceed 3.27 cfs for irrigation purposes and 0.14 cfs for stockwater purposes. (3) The priority be advanced to July 31, 1980.

Witness my hand this 23rd day of December, 1980.

Allow 1.45*

Amount 3.45 for Irrigation purposes from 4/15 to 10/15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount .14 for Stockwater purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

Allow 3.41 * 6-2-80 J.J.

a. 5.27 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. pump and gravity irrigation system.

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation: Same as Item 8B.

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered 3,000 head sheep

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

MICROFILMED

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
4N	5W	29											5.0	9.0					14.0
		32					29	40	39.5	41									149.5

Total number of acres to be irrigated 163.5

c. Describe any other water rights used for the same purposes as described above. South Board of Control water on 91 acres.

9. a. Who owns the property at the point of diversion Applicant
- b. Who owns the land to be irrigated or place of use Applicant
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing

10. Remarks 91 acres irrigated from the South Board of Control will have the season extended from 3/15 to 11/15. The balance of the year it would be supplemental. Attached information will show need for additional water over 1" per acre of land.

5.27 c.f.s. is being applied for thru the following periods of time:

3-15 to 4-15 and 10-15 to 11-15 = 263.5"

3.45 c.f.s. is being applied for from 4-15 thru 10-15 = 172.7"

UNITED STATES DEPARTMENT OF AGRICULTURE
SOIL CONSERVATION SERVICE

P. O. Box 486, Marsing, Idaho 83639

SUBJECT: Murphy-Echevarria

DATE: August 17, 1979

TO:

The majority of the soil on this farm is mapped as cencove fine sandy loam and turbyfill fine sandy loam. An "on the farm" investigation revealed much of the area to be shallow with gravel and cobble outcroppings. This indicates a very droughty condition.

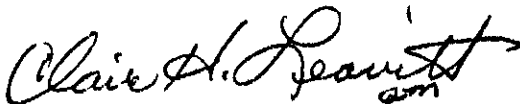

The entire farm is in grass pasture. Grass is rather shallow-rooted and the soil has a low water-holding capacity. For these reasons, fields require frequent irrigations in order to provide adequate water for the plants.

Cencove fine sandy loam 0-35" will hold .12 to .14" of water per inch of soil. 35-60" gravelly sand will hold .04 to .06" of water per inch of soil. (from table 5 of Canyon Area Soil Survey).

Maximum root zone for grass pasture is 3' (from table 1 of irrigation guide).

Maximum length of run for fine sandy loam .5 to 1 percent slope is recommended as 360' in "Irrigation Guide".

Recommend dividing length of run on fields 4, 5, & 7 or installing sprinkler system.

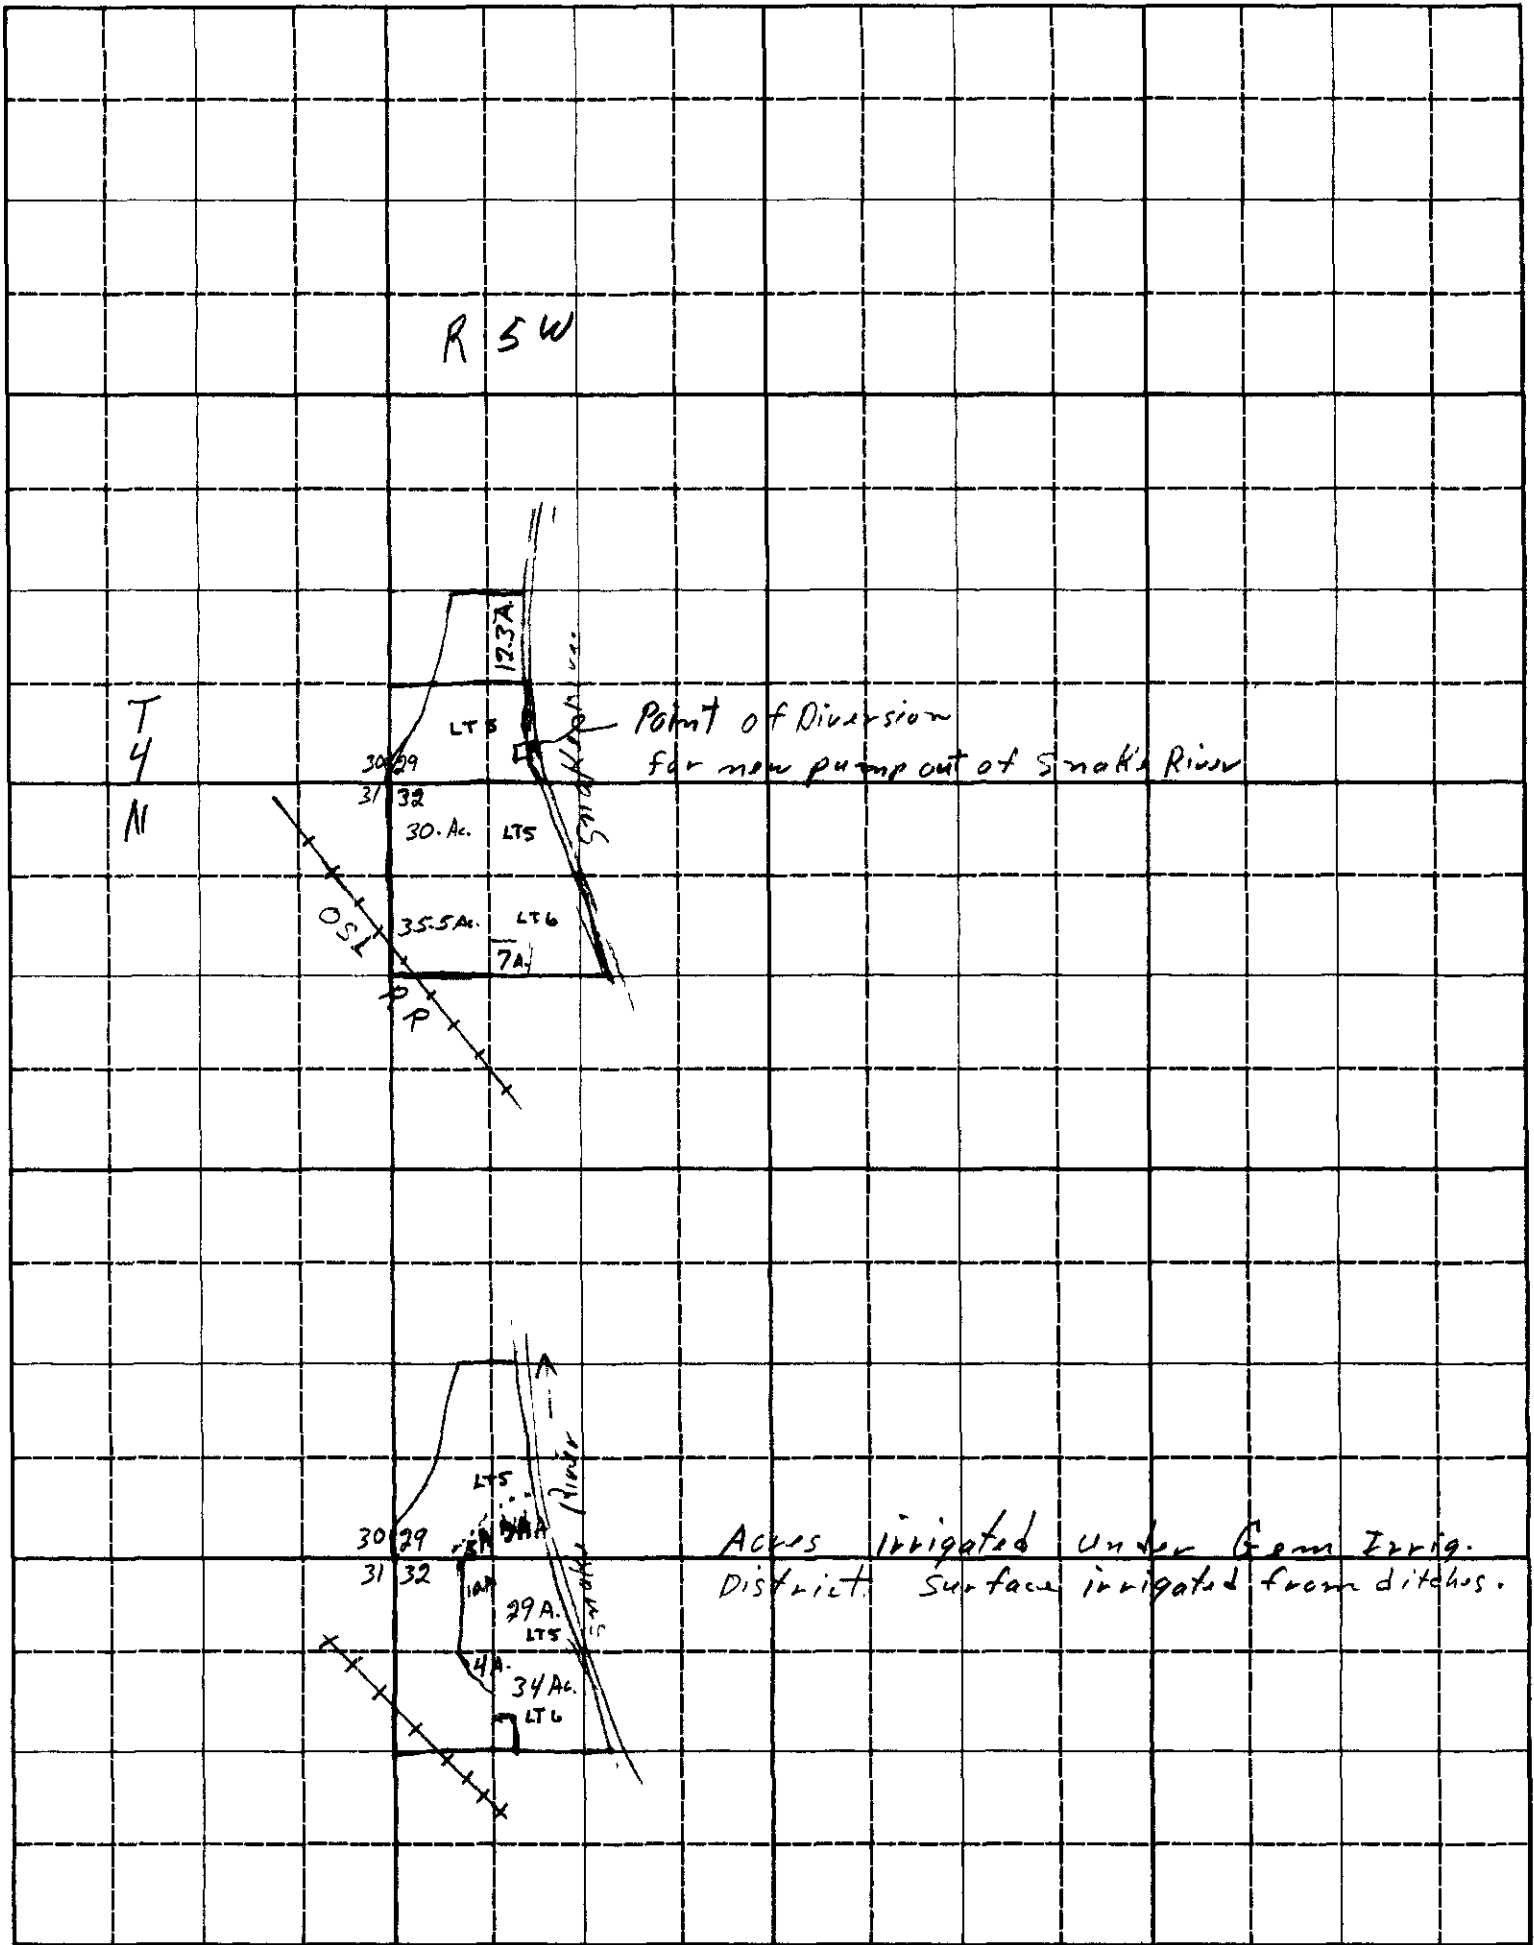

Clair H. Leavitt,
District Conservationist
Marsing Field Office

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 02-7289, and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 19 85.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: (1) An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
(2) Water shall not be diverted under this permit unless the flow of the Snake River at the U.S. Geological Survey stream gaging station at Murphy exceeds 3,300 c.f.s. and at Weiser exceeds 4,750 c.f.s. (3) Maximum rate of diversion for irrigation between 4-15 and 10-15 shall not exceed 1.45 cfs.

RE License No. 57-7265 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

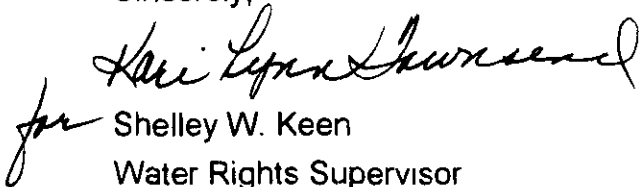

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a copy of the approved Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

for Shelley W. Keen
Water Rights Supervisor

PO BOX 897
HOMEDALE ID 83628**

Kari Lynn Townsend
Secretary

**MICROFILMED
SEP 23 2002**

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED

SEP 23 2002

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Water Right No. 57-07265

Dear Mr. Echevarria:

The Department is reviewing the above referenced permit prior to issuing a water right license. We find that this right has been partially decreed in the Snake River Basin Adjudication (SRBA), however, pursuant to Section 42-1421, Idaho Code, we must complete the statutory licensing procedure in accordance with Section 42-219, Idaho Code. We have included copies of the above referenced sections of Idaho Code for your convenience. Once the license has been issued the Department will reflect the completion of the licensing process in its water rights database. By issuing a license on this permit, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that the place of use is in a location other than what was described on your permit. Therefore, before a license can be issued, your permit must be amended to depict this water right as it was actually developed.

The enclosed Application for Amendment form depicts the place of use and other information, as it will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented please sign the form and return it with the \$50.00 filing fee within 30 days.

Also, please note that some of the proposed conditions of approval and remarks may be modified upon further administrative review.

If you do not concur with the field examiner's findings, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208)327-7944.

Sincerely,

KAY WALKER

Sr. Water Resource Agent

Idaho Dept. of Water Resources
Place of Use Comparison Report
This image is a vertical strip of a document page, heavily degraded with noise and artifacts. It shows a grid-like pattern of light and dark squares, likely representing a table or a form that has been severely damaged or corrupted. The pattern consists of alternating light and dark rectangular blocks, suggesting a structured layout that is no longer legible.

Idaho Dept. of Water Resources
Place of Use Comparison Report

The table is a large grid with multiple columns and rows. A thick black horizontal bar redacts the majority of the content. On the right side of the table, there are four arrows pointing left towards the redacted area. Below these arrows, a bracket groups several columns of the table.

D. FLOW MEASUREMENTS

1

Measurement Equipment	Type	Make	Model No	Serial No.	Size	Calib. Date

2. Measurements: Harry Bingham with Agrilines installed the pump and confirmed the capacity @ 1250 GPM based on 20' TDH, 1750 RPM and 20HP

E. NARRATIVE/REMARKS/COMMENTS

A 20 hp drain pump supplies surface water to a cement ditch system to irrigate 188 acres. 71 acres have been licensed under 57-02306 for 1.13 cfs or .0159 cfs/acre and full volume from the same source via 7.5 hp drain pump located in the NESW S29. The capacity of the 20 hp pump is 2.79 cfs. .29 cfs has been recommended to bring the 71 acres up to 1"/acre and 2.34 cfs has been recommended for the additional 117 acres @1"/acre. The 117 acres in S32 consists of 90 acres cropland and 27 acres pasture ground. A total of 188 acres can be irrigated with the drain water. Snake River water has also been licensed to the original 71 acres per license 02-02401. Current owner plans to file a transfer once this permit is licensed to reflect a combined irrigation system for all three rights.

The current owner bought the farm in 1979, then had to turn it over to Farm Home Administration (FHA). FHA rented the farm out until the current owner gradually bought it back

SEP 23 2002

beginning in 1996 through 1998.

Gem Irrigation District water is also used on the property. Water right 57-02001A from Succor Creek is listed as an overlap in the SW S29, but was not claimed or decreed in the SRBA. No other rights are used.

I recommend this right be limited to 2.63 cfs and 526.5 afa for irrigation within a 188 p/u.

F. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

Per Agrilines: System capacity = 1250 gpm = 2.78 cfs

Theoretical Comparison: $\frac{8.8 \times .7 \times 20}{20 + 10 \times 2.31} = \frac{123.2}{43.1} = 2.86 \text{ cfs}$

G. VOLUME CALCULATIONS

1 Volume Calculations for Irrigation:

 $V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 117 \times 4.5 = 526.5$ *(see narrative) $V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 2.63 \times 246 = 647$ $V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 526.5$

2. Volume Calculations for Other Uses:

 $600 \text{ beef} \times .0134 = 8.1 \text{ afa}$ $.14 \times 365 \times 1.9835 = 101.4$ **H. RECOMMENDATIONS**

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion		Annual Volume
	From	To	Q (cfs)		V (afa)
Irrigation	3/15	11/15	2.63		526.5
Stock water	1/1	12/31	.14		8.1
Totals:			2.77		534.6

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None
☐ Change P.U. as reflected above ☒ Add P.U. as reflected above ☐ Other

RE Change of Ownership for Water Right 57-7265

Dear Water Right Holder(s).

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records. Also enclosed is a receipt for the \$25.00 filing fee.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

for Jeff Peppersack, Manager
Water Right Permits Section

US DEPT OF AGRICULTURE
FARMERS HOME ADMINISTRATION
PO BOX 148
MARSING ID 83639-0000

RE: Water Right No. 57-07265

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

US DEPT OF AGRICULTURE
FARMERS HOME ADMINISTRATION
PO BOX 148
MARSING ID 83639-0000

RE: Water Right No. 57-07265

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

May 19, 1992

US DEPT OF AGRICULTURE
FARMERS HOME ADMINISTRATION
PO BOX 148
MARSING ID 83639-0000

RE: Water Right No. 57-07265

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement

MICROFILMED

SEP 23 2002

purposes. This type of coordination could minimize the impact on existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Dear Permit Holders:

This office acknowledges receipt of the Assignment of the above referenced permit to you.

Enclosed for your records is a copy of the permit. Be sure to note the conditions of approval on the fourth page that identify requirements necessary for developing the permit into a licensed water right.

If you have any questions on this matter, please feel free to contact us.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Re: 57-7260

Dear Ladies & Gentlemen:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department.

☐

A field examination of your system has been scheduled for _____.

If this time and date is not convenient for you, please contact this office as soon as possible.

☐

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office.

Sincerely,

Judy Pense

NOTICE OF APPLICATION FOR AMENDMENT OF A PERMIT

Notice is hereby given that Permit No. 57-7265 in the name of Richard D. &/or Janice M. Echevarria &/or Wm. M. &/or Alice G. Murphy of Homedale, Idaho was filed on 10/3/79 for the diversion of 3.41 cfs of water from the Snake River with a point of diversion within the SESW, Sec. 29, Twp 4N, Rge 5W, B.M., Owyhec County, to be used for irrigation and stockwater purposes.

The holders now propose to amend the permit by changing the point of diversion to Lot 5 (SWSW), Sec. 29, Twp 4N, Rge 5W, B.M., Owyhee County and changing the source to unnamed drain, tributary to the Snake River.

If issued, the amended permit will be subject to all prior water rights. Protests against the granting of this amendment must be filed with the Director of the Idaho Department of Water Resources, 92 S. Cole Road, Boise, Idaho 93709 on or before December 1, 1980.

Dear Mr. Echevarria & Mr. Murphy:

Enclosed please find a report on the field examination of your irrigation system conducted by Mr. Verl King.

As noted in the report, an increase in the rate of flow shown on the permits cannot be justified. Therefore, the increase will not be approved. However, as also noted, excess water may be used from the drain tributary to the Snake River as long as no other water rights are injured.

If you have any further questions after reviewing the report please contact me.

Sincerely,

DAVID R. TUTHILL JR., P. E.

MEMO

TO: Dave Tuthill

FROM: Verl G. King *VG King*

SUBJECT: FIELD REVIEW - R.D. ECHEVARRIA IRRIGATION SYSTEM

On October 1, 1980, Dave Shaw and I made a field review of R. D. Echevarria's irrigation system. Mr. Echevarria had made a request for a water right exceeding 1.0 miners-inch per acre because of soil conditions. The soil is a fine sandy loam with streaks and spots of gravelly soil mixed in. Using soils data provided by the USDA-SCS, it had been determined that 1.0 M-I/acre would be adequate to meet crop requirements for irrigation efficiencies of 59% and better. SCS had recommended he shorten his runs to about 360 ft. or install a sprinkler system.

The field inspection found that in one large field the length of runs varied from 800 ft. to 1100 ft. long. Another smaller field had runs varying from about 400 ft. to 800 ft. Mr. Echevarria told us he was leaving his water set 12 hrs. on the long run to get the water through and it was taking him 21 days to return. For this soil and crop (pasture) the water should not be set much over 2 hrs.

The fields on this ranch are leveled and lay well and concrete head ditches are installed. It is questioned if the present ditches would carry additional water. Regardless of this, however, the application of more water would lead to more inefficient irrigation. There are three alternative ways in which the irrigation of this farm can be improved:

1. Install proper width border strips.
2. Shorten the length of runs by installing cross ditches or use gated pipe.

RECEIVED
OCT 15 1980

Department of Water Resources
Western Regional Office

3. Install a sprinkler system.

The least costly irrigation system would be border irrigation.

It appears that through proper water application present yields could easily be doubled and pay for improvements to the system.

It was also noted that the location of the lands served are adjacent to Snake River. The location of the proposed pump site on the drain that runs through this farm is such that pumping of excess water would not interfere with any downstream water rights since this property is the last on the drain before it discharges into Snake River. The use of excess water may be of temporary value to the farmer while improving the system. However, as a long term solution, allowing the establishment of a permanent excess water right would appear to be a misuse of water.

TO: Dave Shaw

FROM: Dave Tuthill *DRT*

DATE: July 30, 1980

RE: Rate of Flow on 02-7289 and 57-7260

On Monday, July 28, 1980, Richard D. Echevarria and William M. Murphy visited this office to find out why only .02 cfs per acre was approved for the above referenced permits. I explained how per the information in the file, the cencove sandy loam soil (indicated to be the existing soil in a memo from the SCS) was shown by Verl King's calculations to require no excessive rate of flow.

Mr. Murphy and Mr. Echevarria pointed out, however, that one statement in the SCS memo should be an overriding factor in the analysis of the water requirements. The SCS indicates that an on-farm investigation revealed much of the area to be shallow (soil) with gravel and cobble outcropping.

Since the SCS memo did not quantify the gravel and cobble outcroppings factor, it was not used in our calculations. However, it appears that a quantification of percent gravel should be incorporated into the water requirement calculation in this case. Glen Saxton recommended that before any change in recommended flow is made by an order from this office, a field examination should be made. Will your staff have an opportunity to make an examination to determine 1) Average soil depth, and 2) percent area exposing gravel and cobble outcroppings?

RECEIVED

RECEIVED

AUG 5 1980

Department of Water Resources
Western Regional Office

UNITED STATES DEPARTMENT OF AGRICULTURE
SOIL CONSERVATION SERVICE

P. O. Box 486, Marsing, Idaho 83639

SUBJECT: Murphy-Echevarria

DATE: August 17, 1979

TO:

The majority of the soil on this farm is mapped as cencove fine sandy loam and turbyfill fine sandy loam. An "on the farm" investigation revealed much of the area to be shallow with gravel and cobble outcroppings. This indicates a very droughty condition.

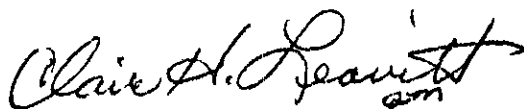

The entire farm is in grass pasture. Grass is rather shallow-rooted and the soil has a low water-holding capacity. For these reasons, fields require frequent irrigations in order to provide adequate water for the plants.

Cencove fine sandy loam 0-35" will hold .12 to .14" of water per inch of soil. 35-60" gravelly sand will hold .04 to .06" of water per inch of soil. (from table 5 of Canyon Area Soil Survey).

Maximum root zone for grass pasture is 3' (from table 1 of irrigation guide).

Maximum length of run for fine sandy loam .5 to 1 percent slope is recommended as 360' in "Irrigation Guide".

Recommend dividing length of run on fields 4, 5, & 7 or installing sprinkler system.

Clair H. Leavitt,
District Conservationist
Marsing Field Office

RE: PERMIT NO. 02-7289

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL A MEASURING DEVICE, OR AN ACCESS PORT TO PROVIDE FOR THE INSTALLATION OF MEASURING EQUIPMENT BY THE DEPARTMENT. ENCLOSED PLEASE FIND A LIST OF MEASURING DEVICE OPTIONS, AND SPECIFICATIONS FOR THE INSTALLATION OF THE ACCESS PORT.

NOTE ALSO THAT WATER SHALL NOT BE DIVERTED UNDER THIS PERMIT UNLESS A BASE FLOW OF THE SNAKE RIVER AT THE U.S. GEOLOGICAL SURVEY STREAM GAGING STATION AT MURPHY EXCEEDS 3,300 C.F.S. AND AT WEISER EXCEEDS 4,750 C.F.S. IN ADDITION, THERE ARE MANY APPLICATIONS FOR PERMIT FOR THE USE OF SNAKE RIVER WATER THAT ARE PRIOR TO YOUR PERMIT. THESE APPLICATIONS HAVE BEEN FILED FOR THE IRRIGATION OF LAND THAT THE APPLICANTS ARE ATTEMPTING TO OBTAIN UNDER THE FEDERAL LAND LAWS SUCH AS DESERT ENTRY AND CAREY ACT. IF THESE LANDS ARE DEVELOPED, AND IF THE BASE FLOW IS MAINTAINED, THEN NO WATER WOULD BE AVAILABLE FOR THIS PERMIT. THEREFORE, YOU SHOULD CAREFULLY CONSIDER THESE FACTS BEFORE MAKING ANY EXPENDITURES FOR THE CONSTRUCTION OF YOUR SYSTEM.

THE EXERCISE OF THIS PERMIT MAY ALSO BE AFFECTED BY THE COURT'S DETERMINATION OF WATER RIGHTS IN THE CASE OF IDAHO POWER COMPANY V. STATE OF IDAHO, ET AL., CIVIC NO. 62237, CURRENTLY PENDING BEFORE THE DISTRICT COURT OF ADA COUNTY. SINCE THE USE OF WATER UNDER YOUR PERMIT MAY AFFECT THE FLOWS IN THE SNAKE RIVER BETWEEN MILNER DAM AND HELLS CANYON, THE FINAL DECISION IN THIS CASE MAY DETERMINE TO WHAT EXTENT THE EXERCISE OF YOUR PERMIT IS SUBJECT TO WATER RIGHTS OF IDAHO POWER. WHILE THE ADA COUNTY COURT IS EXAMINING THIS QUESTION, IDAHO POWER COMPANY HAS NOT FILED A SPECIFIC PROTEST TO YOUR PERMIT. HOWEVER, THE DEPARTMENT OF WATER RESOURCES HAS BEEN ADVISED THAT THE POWER COMPANY IS NOT WAIVING ANY OF ITS RIGHTS TO CONTEST OR LIMIT THE EXERCISE OF YOUR PERMIT OR SUBSEQUENT LICENSE.

RE: Applications for Permit Nos. 02-7289 & 63-9294

Dear Mr. & Mrs. Echevarria & Murphy:

The Department of Water Resources has reviewed your applications to appropriate drain water and Snake River water for irrigation of approximately 176 acres of land. Your application requests 1.5 inches per acre for irrigation and is accompanied by a letter dated August 17, 1979 from the Soil Conservation Service to justify the additional diversion rate.

Our Department has reviewed your application and determined that 1 inch per acre is sufficient for your proposed irrigation project. A copy of the Department's calculations are enclosed. These calculations are based on Soil Conservation Service values and recommendations.

If you disagree that 1 inch per acre is sufficient, please present the additional justification required to show the additional water is necessary by February 20, 1980. If the Department does not receive any additional material from you by February 20, your permits will be granted showing the diversion rate of 1 inch per acre.

If you have any questions or would like to discuss your applications, please feel free to contact this office.

Yours truly,

DAVID B. SHAW
Western Region Supervisor
