RE: WATER RIGHT NO. 57-07237

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the actual use of water found by a representative of our department at the time of the field examination. The enclosed application for amendment contains this information. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

Please note that the date of priority of this right has been advanced due to late submittal of the examination fee &/or exam fee information sheet.

The claim you filed on this right under the ongoing Snake River Basin Adjudication contains the same information that you listed on the original permit. Therefore, you should also amend your claim to match the information on the proposed license. Enclosed for your signature is the Amended Claim form with the license information already listed.

Once I receive the signed amended claim along with the application for amendment of the permit and its fee, the water right license will be issued and your claim to this right will be included in the Director's Report summarizing the water uses in the Snake River Basin. (See the attached table for a summary of the water appropriation process.)

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information set showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.
