Dear Mr. & Mrs. Rose:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, however, our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions concerning the field exam, please contact our District Office in Boise.

Dear Mr. & Mrs. Rose:

One of the conditions of approval of your water Permit No. 57-7118 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Keith:

The South Board of Control, Owyhee Project and Gem Irrigation District do hereby protest the application For Water Permit, Permit No. 57-7118 filed by Ronald C. and Diana G. Rose for 0.12 c.f.s. of water from a project drain.

I have enclosed a letter to Mr. Rose that I believe explains our reason for protest.

This is a project drain and the South Board maintains it.

The quantity of water is not in question but we do ask that a proper installation is made, especially at road crossing points, so that it is not a hazzard which collects weeds and trash and does not interfere with the normal water flow. It should also be such that cleaning operations may be carried out by district equipment.

As of this date Mr. Rose has not returned our license agreement. He did call and I explained what we required to fulfil the agreement.

Yours very truly,

Tom Cotton

Dear Mr. Rose:

I have seen in the Owyhee Chronicle your Notice of Application for Water Permit.

The drain you refer to is under the jurisdiction of the Gem Irrigation District. The water in it belongs to the district in that it is developed within the district.

There is plenty of water in this drain and I doubt if the Board of Directors would have any objection to you using it.

We have a License Agreement which you must fill out and submit before the board will consider your request.

I am enclosing two copies of the agreement. One is for our records and the other is for you.

If you have this agreement into our office before May 3, 1974, I will submit it to the board for their consideration at the May 7 meeting. If it is not in our office before May 3 I will have to protest the filing to the Idaho Department of Water Administration. Their deadline for filing protests is May 6, 1974.

Yours very truly,

Tom Cotton, Secy-Mgr.

Re: Application #57-7118

Dear Mr. & Mrs. Rose:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 57-7118. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Sincerely,

KENNETH H. FOIT, P. E.
Western District Engineer

Re: Application No. 57-7118 - Ronald C. Rose & Diana G. Rose

Gentlemen:

O This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- P
1. Will the proposed use reduce the quantity of water under existing water rights?
 2. Is the proposed water supply insufficient for the purposes intended?
 3. Is the application made in good faith or for delay or speculative purposes?
 4. Has the applicant sufficient financial resources with which to complete the project?

Y The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Sincerely,

KENNETH H. FOIT, P. E.

Re: Application for Permit No. 57-7118 - Ronald C. rose & Diana G. Rose

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Sincerely,

Dear Mr. Rose:

We have retyped your application and completed items 8b. and 11 in assuming that the place of use is in the same 40 acre tract as the point of diversion.

We also reduced the amount of water to .06 c.f.s. The maximum amount you can divert is an inch per acre. This reduces the required filing fee from \$25.00 to \$10.00.

Sign the new application and make any additions or corrections necessary to describe your proposed system. Return the application with the required fee to this office.

If we can be of any assistance, please do not hesitate to contact us.
