Dear Water Right Claimant(s):

This letter accompanies copies of an *Order Amending Irrigation Period of Use Element in Partial Decree, Nunc Pro Tunc* (hereinafter "*Order*") for water right numbers 57-02261 and 57-07081. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of these water rights. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The purpose of the *Order* is to set forth beginning and ending dates for the irrigation period of use for each of these water rights. As stated in the face of each *Order*, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). The *Order* also incorporates into the *Partial Decrees* an express statement that each *Partial Decree* is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). These *Orders*, in combination with the *Partial Decrees* that were issued for these water rights on February 9, 1998, set forth all of the elements of your water rights. The Snake River Basin Adjudication (SRBA) Court suggests that you keep these documents in a safe location together with a copy of each *Partial Decree* to show evidence of these water rights. The original of these *Orders* and the original of each *Partial Decree* for these water rights are on file with SRBA Court. If you do not have a copy of the original *Partial Decree*, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the *Orders* are entered *Nunc Pro Tunc*, meaning that the *Orders* will be treated as if they were issued on the same date that the *Partial Decrees* were originally issued.

A *Partial Decree* was entered for the above-captioned irrigation water right on February 9, 1998. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on July 26, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 2, IDWR Basin 57, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-01 to 10-31
The use of water for irrigation under this right may begin as early as March 1 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water after October 31 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

**RE: APPLICATION TO LEASE WATER RIGHT NOS. 57-2261 AND 57-7081 TO THE
WATER SUPPLY BANK**

Dear Mr. Deruyter:

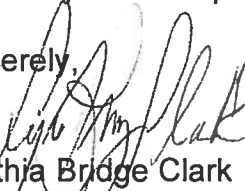

The department received your letter requesting that the Water Supply Bank ("bank") lease period for the water rights referenced above been changed to an "indefinite" duration. Please consider that the offered water right(s) are accepted into the bank for an indefinite period of time.

Several items to keep in mind in connection with the lease of a water right to the bank are as follows:

1. There is no rental payment to the owner of the water right if the right or a part thereof is not rented from the bank.
2. While a right is in the bank, the owner of the right may not use the right even if the right is not rented.
3. A right accepted into the bank stays in the bank until the Board releases it or until the lease term expires.
4. While a water right is in the bank, forfeiture provisions are stayed.
5. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right.

If you have questions, please feel free to contact me.

Sincerely,

RE: Water bank application for water right no. 57-2261 and 57-7081

Dear Mr. Saxton

In conjunction with this letter, DeRuyter Properties L.P. (applicant) is filing a water bank lease application for water right nos. 57-2261 and 57-7081.

In my own review of these rights, two issues came to mind that I am sure you would have requested information about. They are 1) are the ground water rights primary or supplemental, and 2) if primary, were they forfeited.

The purpose of this letter is to provide a chronology of the two water rights that shows that these water rights were the primary irrigation rights and not supplemental as interpreted from the decree. Also, by filing the claim in the Snake River Basin Adjudication (SRBA), which resulted in a decreed water right in 1998, forfeiture should not be an issue. The following chronology is based in part on Mr. DeWayne Merritt's recollection of the irrigation practices while he owned the farm and the information compiled during the department's review of the claims.

1) On February 9, 1998, the SRBA Court issued a decree for water right 57-7081 as follows:

Ident. No: 57-7081
Priority: June 18, 1972
Source: Groundwater
Rate of Div: 0.58 cubic feet per second (cfs)
Max. ann. vol: 355.5 acre-feet (AF) when combined with water right 57-2261
Pt. Of Div: SWSW Section 29, T3N, R4W, B.M., Owyhee County
Use: Irrigation
Place of Use: 60 acres in parts of section 29, T3N, R4W as follows:
Section 29 – NWSW (20 ac)
SWSW (40 ac)

2) On February 9, 1998, the SRBA Court issued a decree for water right 57-2261 as follows:

Ident. No: 57-2261

MICROFILMED

OCT 29 2003

Consultants in

Priority: February 28, 1963
Source: Groundwater
Rate of Div: 0.82 cfs
Max. ann. vol: 355.5 acre-feet (AF) when combined with water right 57-7081
Pt. Of Div: SWSW Section 29, T3N, R4W, B.M., Owyhee County
Use: Irrigation
Place of Use: 77 acres in parts of section 29, T3N, R4W as follows:
Section 29 – NWNW (9 ac)
SWNW (10 ac)
NWSW (20 ac)
SWSW (38 ac)

3) Mr. DeWayne Merritt purchased the water rights and accompanying land from the Nakano family in 1972 and sold to DeRuyter Properties L.P. in 2001.

4) Water was diverted from the wells as the sole water source under these water rights to provide all of the irrigation water supply for 79 acres of irrigation. The remainder of the farm was irrigated with Gem Irrigation water through flood irrigation, hand lines, and wheel lines. Throughout the 1980s an increasing portion of the farm was converted to sprinkler systems. Pivots were installed in 1990. The pivots irrigated the entire farm. Up until 1990, the 79 acres associated with the ground water rights were irrigated solely with ground water.

5) A rotation of row crops, alfalfa, and wheat were grown on the farm

6) In 1990, after the pivots were installed, the power to the pumps was disconnected, as these water rights were not intended to be supplemental water rights. Mr. Merritt filed claims for the two water rights in 1988 in the Snake River Basin Adjudication. The claims were decreed in 1998.

7) Idaho Power records from the late 1980s were not retained by Mr. Merritt. Idaho Power does not retain that type of information past 7 years and therefore does not have the records on file from that time period.

8) DeRuyter Properties LP now seeks approval to put water rights 57-2261 and 57-7081 in the water bank, which will make the rights available for use by others and will preserve the 1998 decrees from forfeiture.

This chronology shows that the water rights are the sole source of water for the lands they were used to irrigate. Also, the fact that claims were filed in the SRBA showed that there was no intention of forfeiting these rights. A decree was issued for each right in 1998, and based on the recent Memorandum Decision and Order on Challenge; and, Order of Partial Decree by Judge Burdick, the five-year statutory period of non-use for establishing forfeiture tolls upon filing a claim in the SRBA and begins anew upon issuance of a decree.

It is the applicant's position that water rights 57-2261 and 57-7081 are primary irrigation rights and have not been forfeited and that the placement of these rights into the water bank should proceed without delay.
