

PUBLIC NOTICE

**NOTICE OF CLAIM
TO A WATER RIGHT
No. 57-4001**

Notice is hereby given that John Landa, Julian Landa and Victor Landa, Route No. 1, Homedale, Idaho has filed a claim to a water right established by diversion and application to beneficial use of 2.69 cubic feet per second of water from Jump Creek, a tributary of Snake River with point of diversion in SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, Twp. 2 N., Rge. 5 W., B. M. in Owyhee County; the water is claimed to be used from April 1 to October 31 for irrigation with a priority of April 12, 1963; the place of use is SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 10, Twp. 2 N., Rge. 5 W., B. M.

Any exception to this claim of water right may be filed with the Department of Reclamation.

R. KEITH HIGGINSON

State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT
Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant John Landa, Julian Landa and Victor Landa
post office address Route #1, Homedale, Idaho 83628
2. The point of diversion is in SW $\frac{1}{4}$ of SE $\frac{1}{4}$ Section 10 Township 2N
Range 5W B.M. located on Jump Creek
(name of source)
tributary to Snake River in Owyhee County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
 - a. Date of priority claimed:
April 12, 1963 amount: 2.69 c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
_____ amount: _____ c.f.s. or _____ acre feet
Total claimed 2.69 c.f.s. or _____ acre feet.
 - b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:
use irrigation period of use from April 1 to October 31 (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).
4. Description of diverting works:
 - a. Surface water diversion dam and/or headgate: material is composed of gravel bank with
opening from Creek to Pond *; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; width at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known (*from Pond, water is diverted into stand pipe of well and then pumped into conveying pipe hereinafter described)
 - b. Underground water diverting works: is well flowing or pumped _____; depth of well is _____ feet; diameter of well is _____ inches; type of pump is _____
capacity of pump is _____ g.p.m., name and address of well driller is _____

57 4001

attach well logs if available; has there been any change in pump or motor since well was first completed _____, if so, give dates and explain _____

- c. Conveying works length of ditch to place of use is _____ feet; width of ditch at top is _____ feet; width of bottom of ditch is _____ feet; depth of water is _____ feet; grade of ditch per 1000 feet is _____ feet; material through which ditch passes is _____; maximum length of pipe line to first place of use is 1120 feet; diameter of pipe line is 10 inches; type of pipe steel; grade of pipe per 1000 feet is app. 45 feet. Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible None

- d. If water is stored name of reservoir _____; total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet; year construction commenced _____; year completed _____; date first used _____; period of storage is from _____ to _____; is reservoir drained each year _____; is reservoir on or off stream _____ explain _____

if feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

has there been any enlargement of the reservoir since it was first built _____, if so, give dates and describe _____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
2N	5W	10								X									3.5
"	"	"										X							10.0
"	"	"											X						12.0
"	"	"									X								40.0
"	"	"												X					40.0
"	"	"															X		20.0
"	"	"														X			9.0

Total number of acres to be irrigated 134.5

Explain any significant increase in area irrigated since first use, give dates and acreages if known _____

None

b. Do you get water through a ditch owned by several users? No If yes, give the name of the ditch _____ The other users and their respective interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served None name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible, giving dates and quantities. _____

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation _____

BE IT KNOWN that the undersigned hereby makes claim to a water right as described above together with all attached information and certifies that all statements are true and accurate to the best of his knowledge.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8 c.f.s. or</u>	<u> </u>	acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4 c.f.s. or</u>	<u> </u>	acre feet
		Total claimed:	<u>1.2 c.f.s. or</u>	<u> </u>	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Mr. Keith Higginson
State Reclamation Engineer
State Department of Reclamation
Boise, Idaho

Department of Reclamation

Dear Mr. Higginson,

The South Board of Control, Owyhee Project and the Gem Irrigation District wish to protest a Notice of Claim to a Water Right, number 57-4001, to divert 2.69 cubic feet per second of water from Jump Creek.

The Gem District diverts water from Jump Creek under license 14102, date of filing April 25, 1919. The point of diversion is SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 22, T. 3 N., R. 5 W. B. M. The Gem also used to divert at NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 15, T. 2 N., R. 5 W. B. M. but abandoned this point due to insufficient water. This was for 10 cfs. under license 19380, filed on November 24, 1942.

There are times of the year, especially in the spring before waste and return flows start coming into the creek, when there is not sufficient water to satisfy our needs.

At the point where Jump Creek crosses our South Canal siphon in Section 22, T. 2 N., R. 5 W. B. M. there is, for all practical purposes, no flow in the Creek during the major portion of the irrigating season. Therefore it is evident that the flow in Jump Creek is caused by water developed in the Gem District.

The board has stated that they would have no objection to the Landas continuing to pump as they are now, that is to say, from a sump which is on an off stream site and not receiving direct diversion from the stream. We admit that this site is fed to some extent from the stream by seepage through the sand and gravel, but it also receives a good deal of flow from seepage water from the higher lands. Also with the present set-up there is no obstruction in the stream channel.

The board does object to a direct stream diversion as they feel that it would diminish the flow.

This notice was submitted by John, Julian and Victor Landa, Homedale, Idaho. The point of diversion is SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, T. 2 N., R. 5 W. B. M. Water is used in SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 10, T. 2N., R. 5 W. B. M.

Yours very truly,

Tom Cotton
Tom Cotton, Secty-Mgr.

Gentlemen:

Enclosed is a copy of an exception filed in connection with your claim to a water right. Under the provisions of the Idaho Code, Section No. 42-225a, parties that disagree with claims submitted in connection with specific water rights may file an exception to that claim. A copy of the exception must be forwarded to the claimant and the original filed in the folder of the claim.

You should also be advised that no further action will be taken in connection with the exception by the Department of Reclamation. If we may be of further assistance.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Gentlemen:

We recieved your letter dated August 8, 1968 and have filed the letter as an exception to Claim No. 57-4001, as provided under Section 42-225 of the Idaho Code. Under this provision you have the right to file an exception and have it made a part of the claim in question. You should be advised, however, that no further action is contemplated by the department or the statutes.

Please contact us if we may be of further assistance.

Very truly yours,
